30th meeting of the Adaptation Committee

Agenda item 6a

Navigating the landscape of support for NAPs

Update of the online resource

Baku, Azerbaijan

14–17 September 2026

United Nations
Climate Change

I. Introduction and background

- As part of its 2025–2027 flexible workplan, the AC decided to **periodically update the online resource on navigating the landscape of support for NAPs**

- AC 28 agreed to update the online resource **in two steps**: first, to update it within the scope of its 2022 version and second to undertake a more comprehensive update and restructuring

- AC 29 considered a draft of the update of the 2022 version **which was published shortly thereafter, thus concluding step 1 of the update**

- It also considered a concept note for step 2 and requested the secretariat to develop a **draft compilation of support** to be included in step 2 of the update, for the AC's consideration at AC 30

II. Draft compilation of support

- A draft compilation of support has been developed as contained in the annex of document AC30/CN/6A

- The compilation is structured around the **thematic and dimensional targets** of the UAE Framework and takes into account **cross-cutting considerations**, based on respective paragraphs of decision 2/CMA.5 and as agreed at AC 29

- The compilation includes support available for enhancing countries' capacities **to access available and relevant channels of adaptation finance**

- Several **filtering options** are suggested for the AC's consideration, which are based on previous input by the AC and feedback received during the NAP Expo 2025

III. Engagement of external experts and entities

The following approach takes into account previous inputs from the AC:

- Inviting experts and entities featured in the 2022 version of the online resource to peer review the draft compilation of support and share additional inputs, as appropriate;

- Inviting selected lead organizations for each of the UAE Framework's thematic and dimensional targets to recommend available support in their areas of expertise.

IV. Next steps

The AC may wish to request the secretariat to

- **Continue compiling available support** on the basis of feedback received at AC 30;
- **Engage external experts and entities** through the proposed approaches, under the guidance of the AC and taking into account the AC's guidelines for external collaboration;
- **Share the final list** of support for the AC's intersessional consideration;
- **Share the final list with the NAP task force** for its feedback;
- **Prepare a mock-up version** of the updated online resource for consideration at AC 31;
- Include in the mock-up version a suggestion on **how to integrate the online resource with the platform on technical guidance and training materials**, as considered under agenda item 7 of AC 30.
