

Modalities for other developing countries

Modalities/guidelines - characteristics

- Guidelines relevant for all development countries
- Need for utilization of modalities varies a lot between countries
- No "package" – but rather a menu that could address specific needs
- Strike a balance between flexibility/adaptability and common guidelines

Modalities specific LDC

- Focused and dedicated support (capacity building +)
- LEG continuation dedicated to LDC needs
- LDCF

Modalities and guidelines - common

- **Guidelines may be used by all**
- **Capacity building**

Region centers/networks

- Regional cooperation will consist both of LDC and other dev.countries
- Shared regional issues need to engage both LDCs and other dev. countries
- Countries may enhance adaptation actions from having a mix of LDCs and other dev.countries working together

NWP as forum for knowlege generation through:

- Sharing best practises and experiences from planning and implementation
- Thematic areas (being discussed)

Modalities and guidelines – common – cont.

- *Mutual learning through joint work LEG-AC on best practises and lessons learnt*
 - AC function on overview of adaptation should include knowledge and experience gained through the LEG
 - Joint working meetings
- *LEG work will be fed into the AC by membership in the AC*

Modalities and guidelines – common – cont.

- **Reporting**
 - link to nat.coms
 - CGE explore what the CGE can do to provide input to the reporting based on existing experience
 - contribute to indicator development for the LEG and the AC to make use of
- **Status** "annual report for adaptation" for AC
 - current level of adaptation – gap analysis – screening – Adaptation Committee
- **Linkages**
 - TEC – AC – LEG
 - Coherence with finance at country and international level
