3. Supporting the implementation of the Paris outcomes:

(a) Clearing House for Risk Transfer

5. The COP, by decision 1/CP.21, requested the Excom to establish a clearing house for risk transfer that serves as a repository for information on insurance and risk transfer (Clearing House), in order to facilitate the efforts of Parties to develop and implement comprehensive risk management strategies.³
6. Excom 2 (February 2016) initiated work on this matter. Excom 4 (September 2016) adopted a concept paper which includes an implementation plan for launching a beta version of the Clearing House by COP 23. Two sets of user needs assessments were carried out⁴ between October and December 2016. Excom 5 (March 2017) endorsed a 'Look and Feel' of the Clearing House, and requested an intersessional working group and the secretariat to identify and engage potential partners, develop the beta version in collaboration with partners and present it for feedback by members.
7. The secretariat, in consultation with the intersessional working group, has been developing a beta version jointly with the InsuResilience Secretariat and in collaboration with relevant organizations.

Action

8. The Excom will be invited to provide feedback on the current version of the Clearing House, keeping in mind the time frame and potential resource requirements, and with a view to launching it at COP 23.

4. Recommendations to improve knowledge and capacity to address slow onset events and their impacts⁷

12. Excom 5 adopted a set of guiding questions for undertaking activity (d) of Action Area 3 of the initial two-year workplan of the Excom. It requested the secretariat to undertake technical work associated with those questions in accordance with the guidance adopted at Excom 5,⁸ and report back to an intersessional working group on this topic.
13. The secretariat reported back on the initial outcome of the technical work ('a draft compendium') to the co-coordinators of the intersessional working group, following which the group developed a set of discussion points with a view to guiding the work at Excom 6 in addressing the remaining work on this activity, 'Assess and develop recommendations to improve the state of knowledge to understand, and capacity to address, slow onset events and their impacts, including the capacity of regional agencies'.

Action

14. The Excom will be invited to consider the information contained in document Excom/2017/6/2 and discuss any further action as necessary.

16. The facilitated closed session will take place on 9 and 10 October at the venue of Excom 6.
