

NAMA work programme

Preliminary agenda for an in-session workshop at SBI 40

*Date and venue to be confirmed
Bonn, Germany*

Opening and welcome

Segment 1: Information on assumptions, methodologies, greenhouse gases and others

- Introduction by the Chairs
- Discussion questions
 - *What are the benefits of sharing information relating to NAMAs? Has the work programme contributed to delivering these benefits?*
 - *What challenges are faced by developing countries when generating this information? How could the UNFCCC assist them?*

Segment 2: Support for preparing and implementing NAMAs

- Introductory key note
- Panel: experiences with obtaining support for NAMAs
- Questions and answers

Segment 3: Extent of matching of NAMAs with support for NAMAs

- Report by the secretariat on the extent of matching of NAMAs with support in the registry
- Discussion questions
 - *What would be required for the registry to play a more active role in facilitating the matching of NAMAs with support?*
 - *What are the main challenges preventing more active engagement in the registry of actors developing NAMAs and providing support for them? What actions could be taken by the UNFCCC?*
 - *What other uses could the registry play beyond the facilitation of matching?*
