# ENAMMC - Mission and Implementation Timeline

Reduce the vulnerability to Climate Change through adaptation and climate risk reduction with involvement of all actors.

# INSTITUTIONAL ARRANGEMENT

# STRUCTURE OF LOCAL ADAPTATION PLAN

- Foreword
- Executive Summary
- 1. Introduction
- 2. Metodology
- 3. District Profile
  - 3.1. Physics and Geographic Aspects
  - 3.2. Socio-economic Aspects
  - 3.3. [Climate Risk](#)

- 4. District Development and Climate Change
  - 4.1. District Development and Climate Change
  - 4.2. [Teory of Change \(ToC\)](#)
  - 4.3. Sectorial Strategic Actions
  - 4.4. Specific Strategy Actions
  - 4.5. Action Plan
- 5. Monitoring and Evaluation System
- 6. Climate Change Funding/Finance Opportunities

Annexes

# LESSONS LEARNED - Decentralization

- Ownership of the process by government, involving different actors.
- Capacity building started with the decision makers.
- Strong institutional mechanism – GIIMC.
- Find the synergies with the implementation partners and donors.
- The strategically areas and actions have to be aligned with government agenda.
- LAP (Experience).
- Technical Capacity (Gaps and needs).
- Involve the private sector (Challenges).
- Monitoring and Evaluation System (Challenges).

# Obrigado – Thank You

If we can't do great things, at least we can do small things with greatness.
