LEAST DEVELOPED COUNTRIES EXPERT GROUP (LEG)

Regional training workshop on adaptation for the African Anglophone LDCs
29 July – 2 August 2013, Kigali, Rwanda

Workshop programme

TIME	DAY 1 – Monday 29 July	DAY 2 – Tuesday 30 July	DAY 3 – Wednesday 31 July	DAY 4 – Thursday 1 August	DAY 5 – Friday 2 August
09.00 10.45	**Official opening** **Module 1: Setting the stage** 1.1 Introduction 1.2 LDC WP, NAPAs, LEG, LDCF, and NAP process 1.3 Addressing adaptation (discussion)	**Module 2: Implementation strategies** 2.3 Synergies Biodiversity (CBD) Ecosystem based approach (UNEP)	**Module 4: Tracking progress, monitoring and evaluation** 4.1 Assessment of NAPA 4.2 Tracking progress 4.3 Monitoring and evaluation (GIZ) **M&E exercise**	**Module 7: The NAP process** 7.1 Introducing the NAP process **Interactive session 4** *"Re-order"* 7.2 Establishing long-term NAP process at the national level	**Module 7: The NAP process** 7.5 Data analysis, management and visualization in support of the NAP process Climate data and products - SERVIR-Africa products and services (RCMRD) - ClimDev Africa (AfDB)
10.45 11.00	COFFEE/TEA BREAK				
11.00 13.00	**Module 5: Best practices and lessons learned** 5.1 Capturing and sharing best practices and lessons learned **Interactive session 1** *"Keywords"*	**Module 3: Accessing financial resources** 3.1 Intro to the GEF & LDCF (GEF) 3.3 PIF, PPG and CEO Endorsement (GEF) 3.4 Adaptation cost and co-financing (GEF) Experiences in accessing resources under the AF **Interactive session 2** *"Assign OR inputs/outputs"*	Innovations in adaptation for agriculture and food security (FAO)	**Module 7: The NAP process** Experience in developing strategy and road map for the NAP process 7.3 Stocktaking and synthesis 7.4 Analysis of capacity needs and gaps	**Module 7: The NAP process** 7.6 Potential support for the NAP process – highlights (participating organizations)
13.00 14.00	LUNCH				
14.00 15.45	**Module 2: Implementation strategies** 2.1 Approaches and trends for implementation of NAPAs 2.2 Success stories in designing implementation strategies	**Module 6: Mainstreaming adaptation into development** 6.1 Climate change adaptation in the development context 6.2 Integrating adaptation into develop. (GIZ, LEG) Success stories in mainstreaming adaptation through the NAPAs, AAP, and other programmes (UNDP)	**Field visit**	**Practical Session 3** Envisioning the NAP process	**Summary of the workshop** **Participants feedback** **Closing**
15.45 16.00	COFFEE/TEA BREAK				
16.00 18.00	**Practical Session 1** Implementation strategies *Debate Teams*	**Practical Session 2** Developing project proposals *Template*	**Field visit**	**Practical Session 3 (cont.)** Envisioning the NAP process	

Summary of practical sessions

<u>Debate teams</u>: Participants would be separated into groups of 10 people (max). Each group would be tasked to prepare and debate the "for" or "against" side of a proposed implementation strategy: ecosystem-based approach, programme approach, etc.

<u>Template</u>: Participants would be divided into groups of 7 people (max). Each group will be provided a short project proposal template to fill in based on a random NAPA priority list.

<u>Envisioning the NAP process</u>: Participants will go through the steps and support activities of the NAP process, with a view to developing workstreams, including matching each of the core steps with relevant support activities. Participants will also explore interconnections between the different steps and activities of the NAP process.

Summary of interactive sessions

1. **Assign**: Participants would be presented with a list of programmes, projects and activities and asked to assign them to either "baseline" or "additional" financing categories.
2. **Keywords**: a list of 10 key words listing the most common best practices would be presented and participants would be asked to rank them (by applause).
3. **Re-order**: a list of key words relating to NAPA or NAP would be presented and participants would be asked to place them in the appropriate category (NAPA vs. NAP)
