

Example on gender-sensitive approaches and tools, including good practices for the application of these approaches and tools for understanding and assessing impacts, vulnerability and adaptation to climate change¹

Inputs provided by:

Please provide the name of your organization.

Women's Environment and Development Organization (WEDO)

Title of practice/tool

Please specify a short name of the example practice/tool.

Include Action Agenda for Gender in Policies Addressing Climate Change

Description of practice/tool

Please provide a short description of best practices using gender-sensitive approaches and tools for understanding and assessing impacts, vulnerability and adaptation to climate change.

After holding several training workshops in seven communities, a project promoting adaptation strategies for women in two communities focused on disaster risk management with a gender lens and adaptation measures related to health, food and water management. As a result a gender and climate agenda was included in the local climate change action plan, which provides a conceptual and methodological framework for projects addressing climate change.

Region

Please select a region/regions where the practice/tool took place/developed or applied from the ones below, as applicable:

- **Caribbean and Central America**

Country

If applicable, please specify a country/countries where the good practice took place and/or tool for gender consideration have been developed/applied.

Mexico

Sector

Please select sector/sectors (from the ones below, as applicable), where the good practice and/or tool for gender consideration have been developed/applied.

¹ Please use this template for providing inputs related with one example. If you have more than one example, please provide them in separate files using this template.

Food security, agriculture and fisheries

Human health

Water resources

Name of implementing institution/s

Please specify the implementing institution/institutions.

Government of the southern state of Tabasco in Mexico and local women's and environmental NGOs

Further information

Please provide relevant web links, paper and other specific publications.

Forthcoming paper. Expected publication date early September 2013
