

Example on gender-sensitive approaches and tools, including good practices for the application of these approaches and tools for understanding and assessing impacts, vulnerability and adaptation to climate change¹

Inputs provided by:

Please provide the name of your organization.

Women's Environment and Development Organization (WEDO)

Title of practice/tool

Please specify a short name of the example practice/tool.

Participatory and Actor-oriented approach

Description of practice/tool

Please provide a short description of best practices using gender-sensitive approaches and tools for understanding and assessing impacts, vulnerability and adaptation to climate change.

Community members actively help to design programme content and select program participants. Women's groups are included in consultations before implementation, which gives an entry point to directly involving women's groups in programme implementation and decision-making. Additionally, policy-makers and institutions were engaged on gender and climate change issues and spaces for gender concerns were secured within the climate change discourse.

Region

Please select a region/regions where the practice/tool took place/developed or applied from the ones below, as applicable:

- Africa and the Arab States

Country

If applicable, please specify a country/countries where the good practice took place and/or tool for gender consideration have been developed/applied.

Ghana

Sector

Please select sector/sectors (from the ones below, as applicable), where the good practice and/or tool for gender consideration have been developed/applied.

¹ Please use this template for providing inputs related with one example. If you have more than one example, please provide them in separate files using this template.

- **Food security, agriculture and fisheries**
- **Forestry**
- **Human health**

Name of implementing institution/s

Please specify the implementing institution/institutions.

ABANTU for Development and Gender Action on Climate Change for Equality and Sustainability (GACCES)
