

# Background of the Nairobi work programme and context of the workshop

***Technical workshop on ecosystem-based approaches for adaptation to climate change***

Dar es Salaam, Tanzania

March 21-23, 2013

---

Rojina Manandhar, UNFCCC

# Scope of work

---

**Impacts and vulnerability** (e.g. development and dissemination of methods and tools; access to and use of information and data; understanding of climate change impacts and vulnerability )

**Adaptation planning, measures and actions** (e.g. development and dissemination of methods and tools; collecting, analyzing and disseminating adaptation actions and measures; and facilitating communication)

# Modality of work

# Stakeholder Engagement

---

**Engaging stakeholders and developing partnerships**

**271 partner organizations (including 64 from the private sector)**

**Catalyzing targeted actions**

**178 Action Pledges**

**Ongoing collaboration with Parties, partner organizations and other relevant stakeholders in implementation of the Nairobi work programme**

# Implementation of the Nairobi work programme

---

- I. Facilitating knowledge sharing and learning
- II. Promoting dialogue and interaction through technical workshops and expert meetings
- III. Enhancing knowledge base through:
  - Online knowledge resources (including database of partner organizations and action pledges)
  - Technical papers and synthesis documents
  - Publications and eUpdates
- IV. Stakeholder engagement

# Implementation of the NWP (cont. )

## Knowledge resources and publications under the NWP

NEGOTIATIONS	Knowledge Resources and Publications
Meetings	
Documents & Decisions	
Bodies	
FOCUS	
Adaptation	 <b>Compendium on Methods &amp; Tools</b> Provides key information on available frameworks, methods and tools, and their special features. It is designed to assist Parties and other potential users in selecting the most appropriate methodology for assessments of impacts and vulnerability, and preparing for adaptation to climate change
Finance	
Mitigation	
Technology	 <b>Adaptation Knowledge Platforms/Networks</b> Provides links to resources on adaptation practices maintained by the UNFCCC secretariat and Nairobi work programme partner organizations, including the Private Sector Initiative

## Enhancing the dissemination of information and knowledge products

Enhanced online database of partner organizations and action pledges

### What is the Nairobi work programme?

The Nairobi work programme disseminates knowledge and information on adaptation, and highlights the work of partners as widely as possible through a variety of knowledge products and publications.

[more »](#)

#### What is the Nairobi work programme?

Information about the Nairobi work programme on impacts, vulnerability and adaptation to climate change, and its implementation by Parties, partners and other stakeholders.

#### Partner organizations

Database of organizations from all levels and sectors that have partnered with the Nairobi work programme, and contribute to its implementation.

#### Work areas

Nine work areas provide a framework for the activities of the Nairobi work programme. Activities and resources developed under the work areas increase the ability of countries to adapt.

#### Negotiations and decisions

Up-to-date information on the progress of the implementation of the Nairobi work programme negotiations, and the latest documents and decisions.

#### Action Pledges

Database of actions pledged by Nairobi work programme partners to meet the needs of parties and support the implementation of the programme.

#### Workshops and meetings

One stop shop for information on past and future mandated workshops, meetings and events on Adaptation related topics under the Nairobi work programme.

#### Knowledge resources

Extensive library containing user-friendly knowledge resource products, including databases, knowledge platforms and networks, publications and mandated documents.

#### Private Sector Initiative

Opportunities for private sector to implement actions towards reducing risks to their operations, as well as investing in adaptation action in vulnerable regions

## Ecosystem-based approaches to adaptation

**Relevant  
action pledges  
made by NWP  
partner  
organizations**

**Compilation of Ecosystem-  
based approaches to  
adaptation  
(FCCC/SBSTA/2011/INF.8)  
&  
Database on ecosystem-  
based approaches to  
adaptation  
(40+ examples-ongoing)**

**A technical  
workshop on  
ecosystem-  
based  
approaches for  
adaptation to  
climate change**

# Current evolution of adaptation under the UNFCCC
