

Adaptation planning and practices - Ideas for NWP
Sub-national Level

1. UNFCCC assumption: Trickle down through National Govts

Action: Integrate orgs with local expertise into UNFCCC
- NGOs
- ICLEI

2. How about the other half?

Action: Bring urban CC issues into focus
- Support Organizational Learning Processes
- Establish Urban Management Quality Standards

3. Knowledge storage

Action: Develop user-friendly "CC Casebook"
- Sustainability, Transferability, Scalability
- "Face Book" attribute

Adaptation planning and practices - Ideas for NWP
Sub-national Level

How can adaptation be promoted?

Planning access to flood shelters in Bangladesh

How can cooperation be facilitated and systematized?

Early warning systems in Argentina

Group-work approach

- Focus on concrete actions & next steps *(that NWP can help implement)*
- Focus on structural aspects *(not on sectors or actors)*
- Focus on cross-scale flows
- Rules of engagement:

Individual, Small group & Plenary work

Creative disorder

Sub-group tasks

1. Define problem and action

*What?
By whom? (NGOs, Govts)
For whom?
How?
With what?
Steps / activities
Potential risks*

2. Give details / "meat"

3. Low-hanging fruit or 'shining' fruit

**What problem(s) do you think NWP should tackle?
What to do about it?**

Roadmap for today

1. Yesterday's surveys
Review
Pattern recognition
2. Convergence & reconfiguration
Select themes
Form sub-groups
3. Formulation of concrete next steps
Low-hanging fruits
Ambitious innovations
4. Reporting ideas
Individual write-up
Plenary celebration

**Example: "Health & CC" Group
Key proto-actions proposed**

NEED / GAP	ACTION	IDEAS
Lack of knowledge	Applied Research / Knowledge for problem solving	Ensure relevance for decision-making Strengthen existing programs & institutions Address <i>gaps</i> in knowledge and use of knowledge Integrate risk mapping & health info systems
Lack of awareness	Communication	Seek behavior change Simple messages, easy to act upon Top-down & bottom-up approaches Innovate (<i>content, channel, strategy</i>) <i>(help them learn & create)</i>
Lack of coordination	Enhance collaboration	Add health reps to CC processes Integrate Health and Ag in rural extension Harmonize legal framework Coordinate donor resources & efforts
Lack of capacity	Training & Capacity building	Training campaign through regional centers Create & target centers of excellence Provide standard methods & tools
Poor early warnings	Early Warning Systems	Legal framework for early warnings Enhance capacity of Met services

Community-level preparedness for a changing climate

Ensuring survival of poultry
