

ROK statement at ADP plenary 13 Dec 2014

[DRAFT – check against delivery]

Thank you Mr Co-chair

My delegation came here to Lima with a sense of urgency and with a spirit of working together.

We are now at a crucial juncture where we should move forward.

We have no time to lose.

All participants made very constructive contributions to our two-week process.

Although the process was difficult and hard, we went through it with a hope that we will be rewarded by the successful outcome of meeting

The draft decision before us is the outcome of our common efforts.

If there are some areas to be improved, we will take it for our next journey.

Because our journey does not end here, we have to continue our journey all together

In our journey, no one should be left behind.

The international community has collectively mobilized to this end.

We strengthened our political will to combat climate change at the September UN Climate Summit.

The Green Climate Fund has successfully capitalized to over 10 billion US dollars and ready to operate.

This is building trust and confidence among parties.

As a GCF host country, Korea very much appreciates it.

Now the decision is in our hands

I wish to appeal to all parties - "let's move forward all together hand in hand."

Thank you.
