

### **Objectives of the briefings on the support aspect of the technical examination process**

- Provide a platform for the UNFCCC institutions and other international players to enhance collaboration and synergies in supporting the implementation of mitigation policies on the ground;
- Present actions taken by support institutions to transform technical mitigation opportunities into implementable policy options and practical reality by 2020 through increased international cooperation and coordination;

Provide meaningful opportunity for the effective engagement of experts and stakeholders engaged in provision of means of implementation.
