Table 1

Institutional capacity building, including the strengthening or establishment, as appropriate, of national climate change secretariats or national focal points

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
Adaptation Fund Readiness Programme for Climate Finance (Phase I)	To increase the opportunity of developing country Parties to directly access climate adaptation finance to implement concrete projects and programmes that increase the resilience of vulnerable communities to the impacts of climate change. Targets: NIE applicant countries and existing NIEs/RIEs	Outcome 1: Increased capacity of national and regional entities to meet the Fund's fiduciary standards (target: at least 8 new NIE applicants accredited); Outcome 2: Increased capacity of accredited national and regional organizations to undertake appraisals of and assess risks within adaptation projects/programmes (target: at least 8 project/programme proposals prepared by NIEs/RIEs approved by the Board); Outcome 3: Improved knowledge, knowledge sharing, and skills for accessing adaptation finance (target: Improved understanding of the accreditation process and accessing the Fund's resources).	5 January 2014–31 December 2015, Africa, Asia and the Pacific, Latin America and the Caribbean, Burundi, Cabo Verde, Chad, Kenya, Niger, Thailand, Samoa	AFB, CAF, CDKN, Heinrich Boell Foundation, SPREP, UNEP, UNDP, WRI,	970000 US Dollar (USD) (AF, CDKN, Heinrich Boell Foundation, UNEP)	Climate Finance Readiness Programme website: https://adaptation-fund.org/node/3944 Knowledge platform: http://climatefinanceread.y.org/
Central African Workshop on synergies between REDD+ and ecosystem conservation and restoration in National Biodiversity Strategies and Action Plans	The aims of the workshop were to support Parties in: (a) The development of national targets and plans for ecosystem conservation and restoration within the framework of Aichi Biodiversity Targets 5, 11,	see Take away points at http://www.cbd.int/doc/meetings/ecr/cbwecr-2014-08/other/cbwecr-2014-08-presentation-day4-05-en.pdf	8–11 July 2014, Central African countries, Douala, Cameroon	Partners: Government of Cameroon, SCBD, UNEP-WCMC, COMIFAC, OSFAC, ICRAF, IUCN, ITTO, African Indigenous Women		workshop website http://www.cbd.int/doc/?meeting=CBWECR-2014-08

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
(NBSAPs)	and 15; (b) Integrating targets, as well as REDD+ actions, into updated NBSAPs for mainstreaming into broader national policies, plans and programmes; (c) Demonstrating the appropriate data gathering processes (such as spatial information), assessments, policies, and other planning tools for implementing a coherent approach to targets and REDD+ actions; and (d) Increasing coordination between REDD+ and CBD focal points through a sharing of experiences			Organization		
Inter-regional capacity-building workshop on REDD+ and Aichi Biodiversity Targets	The aims of the workshop were to support Parties in: (a) Increasing coordination between REDD+ and CBD focal points through a sharing of experiences and knowledge through case study presentations, practical exercises and break -out discussions; (b) Integrating REDD+ actions into updated NBSAPs and mainstreaming into broader national policies, plans and programmes; (c) Demonstrating the appropriate data gathering processes (such as spatial information), assessments,	See Expectations presentation at http://www.cbd.int/doc/meetings/for/fbws-2014-01/other/fbws-2014-01-presentation-day3-010-en.pdf	29–31/08/2014, Primarily Central American Countries and a few representatives from other regions., San José, Costa Rica	Partners: Government of Costa Rica, SCBD, UNEP-WCMC, ITTO, FAO, Conservation International, IUCN		workshop website http://www.cbd.int/doc/?meeting=FBWS-2014-01

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
	policies, and other planning tools for implementing a coherent approach to REDD+ and NBSAP actions.					
Forest monitoring capacities enhanced through backstopping and working groups on inventories and institutional arrangements for NFMS.	Enhance forest monitoring capacities	Forest monitoring capacities enhanced	- Latin America and the Caribbean, Bolivia	UN-REDD Programme, la Autoridad de la Madre Tierra del Ministerio de Medio Ambiente y Agua, ABT, Dirección Forestal	n/a (UN-REDD Programme Multi-Partner Trust Fund)	http://www.un-redd.org/
Technical needs and gaps on MRV identified	Identify technical needs/gaps in MRV	Work plan developed	- Latin America and the Caribbean, Costa Rica	UN-REDD Programme, World Bank, GIZ, FONAFIFO	n/a (UN-REDD Programme Multi-Partner Trust Fund)	http://www.un-redd.org/
Capacity of technical staff from government institutions developed in use of the Land Cover Classification System (LCCS)	To increase the capacity of technical staff	Technical staff able to use LCCS more efficiently	- Latin America and the Caribbean, Peru	UN-REDD Programme, MINAM, SERFOR, MINAGRI	n/a (UN-REDD Programme Multi-Partner Trust Fund)	http://www.un-redd.org/
Adapting coastal zone management to climate change considering ecosystem and livelihoods	Strengthened institutional capacity to address climate change impacts in project sites (Menabe, Boeny, Vatovavy Fitovinany and Atsinanana)	1) A coordinating mechanism for climate change adaptation is established in project sites (in Menabe, Boeny, Vatovavy Fitovinany and Atsinanana), 2) Comprehensive adaptation plans developed for four coastal regions (in Menabe, Boeny, Vatovavy Fitovinany and Atsinanana).	31/07/2014 – ongoing, Africa, Madagascar	UNEP, GEF	579283 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
Strengthening Resilience to Climate Change through Sustainable Land Management approaches	Development of climate change adaptation (CCA) strategies, plans and tools for vulnerable areas characterized by both agricultural and pastoral production systems	The institutional capacities of the AEDD, Ministry of Rural Development's structures (MDR), local governments, herders, farmers and customary organizations are strengthened to minimize the exposure of agro-pastoral and agricultural production systems in vulnerable areas to climate variability and risks.	11 June 2014 – ongoing, Africa, Mali	FAO, GEF	500000 US Dollar (USD) (GEF)	
Implementing Adaptation Technologies in Fragile Ecosystems of Djibouti's Central Plains	Institutional capacity for adaptive development and communities' resilience	1) Increased institutional and technical capacity of local and national government; 2) Increased institutional capacity at local levels for adaptation to climate change using an ecosystem-based approach.	3 November 2014 – ongoing, Africa, Djibouti	UNEP, GEF	658000 US Dollar (USD) (GEF)	
Promoting Climate-resilient Development and Enhanced Adaptive Capacity to Withstand Disaster Risks in Angola's Cuvelai River Basin	Increased understanding of climate change adaptation and practices in climate-resilient development planning at the local community and government levels	Local institutional capacities for coordinated, climate-resilient planning strengthened & Capacity for effective community-based climate change adaptation (including traditional knowledge practices) improved at local level.	12 November 2014 – ongoing, Africa, Angola	UNDP, GEF	1822232 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
Promoting Climate-resilient Development and Enhanced Adaptive Capacity to Withstand Disaster Risks in Angola's Cuvelai River Basin	Developing capacities of the key institutions of relevance to rural development and livelihoods including CBOs and other CSOs to effectively support communities resilience and adaptation to climate change	The capacity of district governments and assemblies, district councils, CSOs and CBOs to support the enhancement of climate resilience of rural community livelihoods	18/12/2014 – ongoing, Africa, São Tome and Principe	UNDP, AfDB; GEF	1175900 US Dollar (USD) (GEF)	
Improving Climate Resilience of Water Sector Investments with Appropriate Climate Adaptive Activities for Pastoral and Forestry Resources in Southern Mauritania	Institutional and local capacity building for sustainable climate management of natural resources that is gender responsive	1) Government managers and community leaders understand adaptation and its impact on different social groups and integrate climate change into NRM policies and strategies; 2) Training and awareness on climate change adaptation techniques of conservation and integrated management are promoted in forests and rangelands areas	13/11/2014 – ongoing, Africa, Mauritania	AfDB, GEF	1000000 US Dollar (USD) (GEF)	
Supporting Rural Community Adaptation to Climate Change in Mountain Regions of Djibouti	Increased incorporation of climate change adaptation and adaptation finance in climate-resilient development planning at the national level	1) Institutional capacities for coordinated, climate-resilient planning strengthened; 2) Mechanisms and a de-risked investment environment established to catalyze finance for climate change adaptation.	8 April 2014 – ongoing, Africa, Djibouti	UNDP, GEF	500000 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
Economy-wide Integration of Climate Change Adaptation and DRM/DRR to Reduce Climate Vulnerability of Communities in Samoa	1) Policy Strategies/Institutional Strengthening; 2) Public finance management at the national and village level.	1) Climate change adaptation mainstreamed into development and sectoral plans; 2) Institutional and operational frameworks for coordination of climate change adaptation strengthened.	15/10/2014 – ongoing, Asia and the Pacific, Samoa	UNDP, GEF	888638 US Dollar (USD) (GEF)	
Enhancing Climate Resilience of the Vulnerable Communities and Ecosystems in Somalia	Piloting Ecosystem Based Adaptation strategies	District Disaster Management Committees are established and Disaster Risk Reduction plans are generated to address community vulnerabilities to climatic change and to facilitate response and preparedness plans to reduce identified risk	18/11/2014 – ongoing, Africa, Somalia	UNDP, GEF	184000 US Dollar (USD) (GEF)	
Building Capacity for LDCs to Participate Effectively in Intergovernmental Climate Change Processes	National systems/institutions for climate change in LDCs	Institutional capacity of LDCs to manage climate change in a sustainable and effective manner is enhanced and their capacity to report on climate change under the UNFCCC obligations is strengthened.	8 July 2014 – ongoing, Global, Global	UNDP, UNEP, UNITAR, GCF (Readiness Program), GEF	1373818 US Dollar (USD) (GEF)	
Livestock and Rangeland Resilience Programme	Climate change preparedness and policy facilitation	1) Establishment of a Drought Monitoring, Preparedness, and Early Response System (DMPERS) to mitigate climate risks; 2) National Sectoral Adaptation Strategy for Livestock Sector is produced	26/11/2014 – ongoing, Africa, Sudan	IFAD, GEF	872000 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
Climate Change Adaptation to Reduce Land Degradation in Fragile Micro-Watersheds	Institutional strengthening to design and implement Fragile Micro-Watershed Management Plans	1) Seven institutions present in the project intervention area have enhanced capacities to integrate CCA in fragile micro-watershed planning and management processes, based on inter-sector coordination, and a bottom-up and gender-sensitive approach; 2) Men, women, local authorities and institutions present in the project intervention area are aware of the adverse impacts of climate change	17/04/2014 – ongoing, Latin America and the Caribbean, El Salvador	FAO, GEF	191743 US Dollar (USD) (GEF)	
Promotion of Clean and Green Cities in China Through International Cooperation	Institutional policy framework to enable the development of clean and green cities.	Minimum set of policy/ program areas for a clean and green city approach identified.	24/02/2014 – ongoing, Asia and the Pacific, China	World Bank, GEF	400000 US Dollar (USD) (GEF)	
Promoting Energy Efficient Cook Stoves in Micro and Small-scale Food Processing Industries	Creating sustainable financial schemes for financing the acquisition of energy efficient stoves	Creating sustainable financial schemes for financing the acquisition of energy efficient stoves	13/06/2014 – ongoing, Africa, Chad	UNIDO, GEF	90000 US Dollar (USD) (GEF)	
GEF UNIDO Cleantech Programme for SMEs	Policy and regulatory framework strengthened for scaling up of Cleantech competition, innovation and acceleration activities across Thailand	Policies and institutional framework strengthened to promote and support clean technology innovations in SMEs.	6 December 2014 – ongoing, Asia and the Pacific, Thailand	UNIDO, GEF	270000 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
Sustainable Urban Mobility Program for San Jose	Development of a Travel Demand Management (TDM) policy and instruments for San Jose	2.1. Travel Demand Management Policy guidelines and strategy document for its implementation 2.2. Workshops with private sector to implement TDM policy 2.3. Pilot project of Parking pricing/management TDM in San Jose City center.	13/06/2014 – ongoing, Latin America and the Caribbean, Costa Rica	IADB, GEF	193993 US Dollar (USD) (GEF)	
Mitigating Deforestation in Brazil Nut Concessions in Madre de Dios, Peru	Organizational strengthening and local control system improvement	Cases of invasions to brazil nut concessions reduced from 33% to 10%	14/06/2014 – ongoing, Latin America and the Caribbean, Peru	IADB, GEF	456512 US Dollar (USD) (GEF)	
Thailand's Domestic Preparation for Post-2020 Contributions	Capacities of Thai government agencies to formulate INDC enhanced	1.1 Consultation process with & capacity building process of stakeholders completed; 1.2 Policy advice paper of Thailand's GHG mitigation potential prepared; 1.3 Gaps and technical capacity needs identified and recommendations to strengthen Thailand's INDC implementation and monitoring prepared	6 December 2014 – ongoing, Asia and the Pacific, Thailand	UNDP, GEF	98052 US Dollar (USD) (GEF)	
Improving Mobility in Parakou	Two-wheeler maintenance and service optimization program	Pilot program to support the capacity building to optimize motorbike service chain in Parakou to test local feasibility to reduce air pollution and GHG emissions	27/09/2014 – ongoing, Africa, Benin	AfDB, GEF	859500 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
Development and Commercialization of Bioenergy Technologies in the Municipal Sector in Ukraine.	Sustainable Biomass Support Unit in place, with technical capabilities of stakeholders developed and strengthened	1. Capacity available within the Ministry of Agrarian Policy and Food to develop and support a municipal biomass program; 2. Capacity available within DerzhZemBank to evaluate the economic and financial viability of municipal biomass systems and process loans to developers.	27/02/2014 – ongoing, Eastern Europe, Ukraine	UNDP, GEF	460000 US Dollar (USD) (GEF)	
Reducing Barriers to Accelerate the Development of Biomass Markets in Serbia	Raising Awareness and Creating Market Demand for Biomass Energy	Improved capability of local municipalities and entrepreneurs to identify, prioritize and develop biomass investment opportunities in Serbia	22/01/2014 – ongoing, Eastern Europe, Serbia	UNDP, GEF	357250 US Dollar (USD) (GEF)	
Management and protection of Key Biodiversity Areas in Belize	Institutional strengthening & capacity building for enhanced enforcement of environmental regulations	1. Enhanced coordination among Government agencies charged with conservation 2. Strengthened capacity for compliance monitoring and enforcement of key agencies responsible for environment 3. Enhanced effectiveness of the Environmental Impact Assessment (EIA) System 4. Climate Change mitigation and resilience considerations mainstreamed into the National Protected Areas	2 June 2014 – ongoing, Latin America and the Caribbean, Belize	World Bank, GEF	1000000 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
		System Plan (NPASP)				
Strengthening Low Carbon Energy Island Strategies	Development and deployment of effective energy management systems for government facilities.	Energy Management strategies, with incentives for departments to reduce energy consumption and use energy efficiently, implemented	18/08/2014 – ongoing, Asia and the Pacific, Maldives	UNEP, GEF	214309 US Dollar (USD) (GEF)	
Hwange-Sanyati Biological Corridor (HSBC) Project	Improved land and forest management practices adopted	1. Improved forest management of 157,300 ha in the two target forest reserves 2. Stable carbon sequestration in two target forest reserves over lifetime of project	14/04/2014 – ongoing, Africa, Zimbabwe	World Bank, GEF	3240000 US Dollar (USD) (GEF)	
Environmental Services Project	Forest, pasture and rural development institutional support	Fully functioning forest and pasture extension service cooperating with Ministry of Agriculture Communal and private forest ownership clearly defined, titled and officially registered Small grants fund administered by agency fully functioning Capacity for continuous updating of forest databases established	19/03/2014 – ongoing, Eastern Europe, Albania	World Bank, GEF	977362 US Dollar (USD) (GEF)	
Promoting Integrated Biomass and Small Hydro Solutions for Productive Uses in Cameroon	Strengthening the policy and regulatory framework for renewable energy and its enforcement	A renewable energy policy and regulatory framework in place	8 April 2014 – ongoing, Africa, Cameroon	UNIDO, GEF	200000 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
Energy Efficient Production and Utilization of Charcoal through Innovative Technologies and Private Sector Involvement in Sierra Leone	Policy and regulatory frameworks on the use of more efficiently produced charcoal and improved cook stoves	Strengthened institutional capacity on biomass resource utilization at the national, regional and community level Operational effective policy, legal, and regulatory frameworks and review mechanisms on biomass energy technology applications	16/09/2014 – ongoing, Africa, Sierra Leone	UNDP, GEF	125000 US Dollar (USD) (GEF)	
Energy Efficiency and Renewable Energy in Social Housing in Argentina	Adoption of technical guidelines regarding EE and RE in social housing at national level	Definition of national plans for including EE and RE in social housing construction Strengthening of institutional structure for the application and enforcement of regulatory framework	3 May 2014 – ongoing, Latin America and the Caribbean, Argentina	IADB, GEF	65982 US Dollar (USD) (GEF)	
Promoting energy efficiency in industrial heat systems and high energy-consuming (HEC) equipment	Capacity Building activities (Government)	The AQSIQ has the capacities required to enforce the technical regulations, and testing capabilities are enhanced to facilitate the implementation of a systems optimization approach and the use of energy efficient equipment	14/10/2014 – ongoing, Asia and the Pacific, China	UNIDO, GEF	600000 US Dollar (USD) (GEF)	
Efficient and Sustainable City Bus Services	City Demonstration Projects - Technical Assistance and Capacity Building	Increased adoption of efficient & sustainable city bus services	19/11/2014 – ongoing, Asia and the Pacific, India	World Bank, GEF	2100000 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
Low-Carbon Urban Mobility for Large Cities	Sustainable Urban Mobility Framework for Brazilian Large Cities	A technical and regulatory framework to promote sustainable urban mobility is designed and operational	30/10/2014 – ongoing, Latin America and the Caribbean, Brazil	IADB, GEF	1076330 US Dollar (USD) (GEF)	
Low-Carbon Urban Mobility for Large Cities	Capacity Building and Dissemination	3.1 Increased capacity for planning, designing and implementing sustainable urban mobility systems national and local levels 3.2 Increased capacity for transport GHG emissions assessment and monitoring at national and local level 3.3 Best practices shared with all cities in PAC Large Cities	11 February 2014 – ongoing, Latin America and the Caribbean, Brazil	IADB, GEF	610431 US Dollar (USD) (GEF)	
Integrating Biodiversity Conservation, Climate Resilience and Sustainable Forest Management in Trung Truong Son Landscapes	Landscapes conservation measures at the community level in PAs and their surroundings providing financial sustainability and reduced GHG emissions	Capacity strengthened and institutionalized for carbon stock and forest monitoring in the three Trung Truong Provinces Technical guidance and road map in place for how to strengthen capacity and institutionalization for carbon stock and forest monitoring in the three trung Truong Provinces	23/10/2014 – ongoing, Asia and the Pacific, Vietnam	ADB, GEF	794688 US Dollar (USD) (GEF)	
Nationally Appropriate Mitigation Actions for Low-carbon Urban Development	Integrated municipal planning, targets and prioritization for urban mitigation actions Institutional framework for	municipalities able to articulate their climate-related priorities, and identified and prioritized urban mitigation actions	12 April 2014 – ongoing, Eastern Europe, Kazakhstan	UNDP, GEF	1100000 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
	urban NAMAs	(urban NAMAs) Establishment of public-private partnerships or other appropriate institutional structures (concessions, public and private) for the implementation of urban NAMAs				
Mozambique Conservation Areas for Biodiversity and Development Project	Institutional and Human Resources Capacity Building	Increase in the score number of the management effectiveness tracking tool for targeted conservation areas and Tons of CO2 avoided	10 January 2014 – ongoing, Africa, Mozambique	World Bank, GEF	1543379 US Dollar (USD) (GEF)	
Improvement of Industrial Energy Efficiency in Myanmar	Capacity building	Strengthened or built capacity of institutions, industries, consultants and equipment suppliers on energy management system, energy system optimization, and EE project financing will assist industries in the implementation of EE improvements	15/10/2014 – ongoing, Asia and the Pacific, Myanmar	UNIDO, GEF	700000 US Dollar (USD) (GEF)	
NAMA Support for the Tunisian Solar Plan	The enabling framework and methodologies are established to support implementation of the Tunisian Solar Plan (TSP) NAMA.	1.1 Establishment of a high-level inter-ministerial TSP committee 1.2 Establishment of a Secretariat to coordinate energy generation and end-use stakeholders, accompanied by recommendation and implementation of	18/11/2014 – ongoing, Africa, Tunisia	UNDP, GEF	399945 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
		economic and financial tools to support the TSP NAMA 1.3 Use of system dynamics modeling (SDM) and Derisking Renewable Energy Investment (DREI) scenario analyses to investigate (i) the sectoral emission reduction potential of the TSP to 2030, (ii) cross-sectoral co-benefits such as job creation and contribution to economic growth, and (iii) the cost-effectiveness of public instruments identified under 1.2 for de-risking investments in the TSP NAMA				
Forest Conservation and Sustainability in the Heart of the Colombian Amazon	Improved forest governance, management, and monitoring Sectoral programs for sustainability and land management	2.1 Capacity to monitor for GHG emission reduction and increase in carbon stocks 2.2 Validated public data of reduction of deforestation in the Project area compared to the Amazon forest subnational reference emission level, including updated carbon estimations in natural forests generated for the Project area 2.3 Conservation of at least 95% of the PNNSCH's forest carbon	11 June 2014 – ongoing, Latin America and the Caribbean, Colombia	World Bank, GEF	4633114 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
ASTUD PRC Clean Bus Leasing	PRC Clean Bus Leasing (baseline project)	<p>stock, barring natural disturbances, by the lifetime of the Project</p> <ol style="list-style-type: none"> At least 5,000 clean buses are leased and in operation by bus operators by 2018 Around 420 million vehicle-kilometers of service per annum provided by the buses funded by the program from 2019 Reduced GHG and other emissions (estimated 8.4 million tonnes GHG savings over 12 years) Increase in public transport mode share. 	13/01/2014 – ongoing, Asia and the Pacific, China	ADB, GEF	150000 US Dollar (USD) (GEF)	
Belarus Forestry Development Project	3.2 Building the Capacity for Sustainable Forest Management	<p>Increased area of production forest managed for conservation integrated with the sustainable use of biodiversity. Management practices and technologies adopted to enhance carbon sequestration and emission reductions. Forest areas better protected from forest fires, and fires more quickly and efficiently extinguished, leading to reduced carbon emissions and losses of biodiversity and habitat</p>	23/12/2014 – ongoing, Eastern Europe, Belarus	World Bank, GEF	1552511 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
		Enabling environment for better sustainable forest management established Policy and planning approaches developed to avoid loss of high conservation value forests in production forest areas Good management practices established in relevant forests				
NDE Training Workshop for Asian countries	Present the CTCN and its services to CTCN National Designated Entities (NDEs - CTCN National Focal Points), and introduce possible roles and responsibilities of NDEs as climate technology champions at the national level. Provide training on: -Stakeholder mapping, engagement and consultation -Building and nurturing networks at national level -Ensuring alignment between CTCN activities and national plans and policies -Developing and prioritizing requests for CTCN Technical Assistance -Monitoring and evaluating the support received from	Identify NDEs' priority needs to target CTCN services in a way that enables NDEs to effectively play their role and support their country in fostering climate technology transfer; share perspectives and initiate a dialogue within NDEs from Asia	12 November 2013 – 13 December 2013, Asia, Cha-Am, Thailand	UNEP, including UNEP Regional Office for Asia Pacific; participation from Asian Institute of Technology (AIT), The Energy and Resource Institute (TERI), GiZ as part of the CTCN Consortium	US Dollar (USD) (CTCN Trust Fund)	http://www.ctcn.org/events/trainings/nd-e-training-workshop-asian-countries

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
	the CTCN and its impacts					
NDE Training Workshop for Anglophone countries in Africa	Present the CTCN and its services to CTCN National Designated Entities (NDEs - CTCN National Focal Points), and introduce possible roles and responsibilities of NDEs as climate technology champions at the national level. Provide training on: -Stakeholder mapping, engagement and consultation -Building and nurturing networks at national level -Ensuring alignment between CTCN activities and national plans and policies -Developing and prioritizing requests for CTCN Technical Assistance -Monitoring and evaluating the support received from the CTCN and its impacts	Identify NDEs' priority needs to target CTCN services in a way that enables NDEs to effectively play their role and support their country in fostering climate technology transfer; share perspectives and initiate a dialogue within NDEs from Africa	3 May 2014 - 3 July 2014, Africa - targeting Anglophone countries in Africa, Nairobi, Kenya	UNEP, including UNEP Division of Environmental Policy Implementation; UNIDO, International Agro-Forestry Centre (ICRAF), Council for Scientific and Industrial Research (CSIR) as part of the CTCN Consortium; UNFCCC Secretariat	US Dollar (USD) (CTCN Trust Fund)	http://www.ctcn.org/events/trainings/nde-training-workshop-anglophone-countries-africa
NDE Training Workshop for countries from Latin America and Caribbean (LAC)	Present the CTCN and its services to CTCN National Designated Entities (NDEs - CTCN National Focal Points), and introduce possible roles and responsibilities of NDEs as climate technology champions at the national level. Provide training on:	Identify NDEs' priority needs to target CTCN services in a way that enables NDEs to effectively play their role and support their country in fostering climate technology transfer; share perspectives and initiate a dialogue within NDEs from LAC	4 January 2014 - 4 March 2014, Latin , Lima, Peru	UNEP, including UNEP Regional Office for Latin America and the Caribbean; UNIDO, Unpeg Risoe Centre, Bariloche Foundation, Tropical Agricultural Research and Higher Education Center (CATIE) as	US Dollar (USD) (CTCN Trust Fund)	http://www.ctcn.org/events/trainings/nde-training-workshop-latin-american-and-caribbean-countries

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
	<ul style="list-style-type: none"> -Stakeholder mapping, engagement and consultation -Building and nurturing networks at national level -Ensuring alignment between CTCN activities and national plans and policies -Developing and prioritizing requests for CTCN Technical Assistance -Monitoring and evaluating the support received from the CTCN and its impacts 			part of the CTCN Consortium		
NDE Training Workshop for Francophone countries from Africa	<p>Present the CTCN and its services to CTCN National Designated Entities (NDEs - CTCN National Focal Points), and introduce possible roles and responsibilities of NDEs as climate technology champions at the national level.</p> <p>Provide training on:</p> <ul style="list-style-type: none"> -Stakeholder mapping, engagement and consultation -Building and nurturing networks at national level -Ensuring alignment between CTCN activities and national plans and policies -Developing and prioritizing requests for CTCN Technical Assistance 	<p>Identify NDEs' priority needs to target CTCN services in a way that enables NDEs to effectively play their role and support their country in fostering climate technology transfer; share perspectives and initiate a dialogue within NDEs from Africa</p>	20–22/05/2014, Africa - targeting Francophone countries in Africa, Abidjan, Cote d'Ivoire	UNEP, UNIDO, ENDA as part of the CTCN Consortium; UNFCCC Secretariat	US Dollar (USD) (CTCN Trust Fund)	http://www.ctcn.org/events/trainings/nde-training-workshop-francophone-countries-africa

Support to national/local climate change and Disaster Risk Reduction (DRR) offices on policy frameworks on climate change and DRR	To support national and local institutions on climate change and DRR policymaking.	Government offices supported on climate change and DRR policy making and incorporating climate change and DRR into strategies, and sector plans.		UNICEF		www.unicef.org
Nationally Appropriate Mitigation Actions (NAMA) training workshop for the United Republic of Tanzania	The national workshop for Tanzania served as a platform for mobilization of political awareness and support for NAMAs, and enhanced the country's capacity in developing NAMAs. A diverse range of stakeholders were selected from ministries, governmental agencies, NGOs, banks, project developers (businesses), universities and research institutions to attend the workshop. The workshop aimed to continue supporting NAMA development and related consultations in Tanzania, whose results were subsequently presented as a case study at a regional workshop amongst the East African Community countries. Outcomes from the national workshop are also expected to form the basis of a longer term and more comprehensive approach to NAMA	NAMA ideas for the United Republic of Tanzania generated through participatory process. Examples of such NAMA Ideas are: Transport: To improve the railway transportation (cargo) system in the United Republic of Tanzania; Waste: To establish a cluster of activities for sustainable waste management Energy: To promote the scaling up of large scale renewable energy production in the country; Agriculture, Forestry: To promote the scaling up of agroforestry systems in the country bundling a set of activities such as reduction of deforestation, more efficient use of fertilizers.	3–4 July 2014, Africa, Tanzania	UNIDO; The Ministry of Trade, Industry and Energy of Korea (MOTIE), Korea Energy Management Corporation (KEMCO),	20000 US Dollar (USD) (The Ministry of Trade, Industry and Energy of Korea (MOTIE), Korea Energy Management Corporation (KEMCO),

	development in the region, under the framework of East African Centre for Renewable Energy and Energy Efficiency (EACREEE).					
Consultation Workshop on Sustainable Energy and Climate Change Capacity Building of the EAC ~ Agenda setting for the Capacity Development Program of the East African Centre for Renewable Energy and Energy Efficiency (EACREEE)	The East African Centre for Renewable Energy and Energy Efficiency (EACREEE) is to be established with the mandate to “contribute towards increased access to modern, affordable and reliable energy services, energy security and mitigation of negative externalities of the energy system by creating an enabling environment for renewable energy and energy efficiency markets and investments.” The workshop presented challenges and opportunities, possible solutions and experiences to initiate discussions on the services of the Centre: 1. Policy, legal and incentive frameworks to promote RE&EE investments and markets developed and implemented 2. Capacities of the local industry and business sector on various RE&EE aspects strengthened and applied 3. Availability of investment and market data,	Expected outcomes a. RE and EE opportunities for EAC are presented, and capacity needs to realize RE and EE potentials are discussed among key climate change and sustainable energy stakeholders. b. Value addition of EACREEE in strengthening the capacity of the EAC region is discussed and consolidated to guide EACREEE in future activities. c. Effective regional capacity building methodologies to be applied by the EACREEE capacity building program complementary to national efforts are discussed. Expected outcomes a. Improved coordination of capacity building programmes in RE & EE in the region b. Increased number of local	16/9/2014 - 31/12/2014, Africa, Member States of East African Community (EAC)	EAC Secretariat and UNIDO	60000 US Dollar (USD) (Austrian Development Agency, Korea Energy Management Corporation (KEMCO),

Six/five Month Training Programme	The UNU Iceland Programmes share the general objectives of promoting development in partner countries through education for sustainability. By working with other specialists in their fields, the fellows and partners build up their knowledge, strengthen their contact network and enhance institutional capacity in their home countries.	Increased institutional capacity and sustainable use of resources in developing countries. Graduated specialists who are able to act on their knowledge and drive actions at local community to policy level. Each Fellow has specific research questions to answer in their line of specialization. Those questions are related to their home country, so the research findings can be of use to the Fellows and their colleagues at home in their subsequent work. In some countries, a sizable group of experts has been established with the ability to carry on development for the benefit of their institutions and countries.	UNU-GTP (29/04/2014); UNU-FTP (22/10/2014); UNU-LRT (11/03/2014); UNU-GEST (05/01/2014) - UNU-GTP (17/10/2014); UNU-FTP (24/03/2014); UNU-LRT (18/09/2014); UNU-GEST (22/05/2014), Africa, Asia, Eastern Europe, Latin America and the Caribbean, Oceania, the Pacific, The training is held in Iceland but the fellows came from: Bangladesh, Bolivia, Cameroon, China, Cuba, Djibouti, Ecuador, Egypt, El Salvador, Ethiopia, Gambia, Ghana, Iran, Kenya, Kyrgyzstan, Malawi, Mongolia, Mozambique, Namibia, Niger, Nigeria, Palestinian Occupied Territory, Papua New Guinea, Portugal, Rwanda, Saint Vincent and the Grenadines, South Africa, Sri Lanka, Sudan, Tunisia, United Republic of Tanzania, Uganda, Uzbekistan, Viet Nam	UNU-GTP, UNU-FTP, UNU-LRT, UNU-GEST, ICEIDA	UNU-GTP: \$1,553,334, UNU-FTP: \$430,000, UNU-LRT: \$628,826, UNU-GEST: \$463,267 Total: \$3,075,427 US Dollar (USD) (Government of Iceland, a small part of UNU-GTP fellows was funded by their private company)	unugtp.is, unuftp.is, unulrt.is, gest.hi.is

Climate Change in Sierra Leone						
Scaling up Community-Based Adaptation (CBA) in Niger	Municipal authorities, technical services, and targeted communities are technically strengthened to promote climate resilient local development	Effective climate risk information and management tools are supplied and adopted by municipal leaders, technical extension services and community organizations (CBOs and NGOs) of the 7 targeted municipalities of the Maradi Region	3 November 2014 – ongoing, Africa, Niger	UNDP, GEF	1906000 US Dollar (USD) (GEF)	
Integrating Climate Resilience into Agricultural and Pastoral Production for Food Security in Vulnerable Rural Areas through the Farmers Field School Approach	1) Introducing improved climate-resilient agro-pastoral practices; 2) mainstreaming climate change resilient agro-pastoral and agricultural systems into sectoral policies and into local development	1) An “operational enabling environment” is created for promoting adoption of climate change adaptation practices and technologies through creation of partnerships, execution and analysis of baseline surveys and compilation and pilot-testing of existing and proposed new technologies and methods; 2) Increased institutional capacities and cross-sector coordination to the mainstream climate change adaptation strategies into policies, programs and planning of the agro-sylvo-pastoral sectors	28/07/2014 – ongoing, Africa, Niger	FAO, GEF	1192500 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
Solomon Islands Water Sector Adaptation Project (SIWSAP)	1) Water Sector Climate Change Adaptation (WS-CCA) Planning in the context of Integrated Water Resources Management (IWRM); 2) Climate change adaptation mainstreamed into water sector governance	1) Water Sector Climate Change Adaptation Response Plans formulated, integrated and mainstreamed in water sector-related and in broader policy and development frameworks, 2) Improved governance and knowledge management for climate change adaptation in the water sector at the local and national levels	3 November 2014 – ongoing, Asia and the Pacific, Solomon Islands	UNDP, GEF	1605343 US Dollar (USD) (GEF)	
Strengthening Resilience to Climate Change through Sustainable Land Management approaches	Mainstreaming climate change adaptation strategies in agricultural and animal production development policies and program frameworks	Climate change adaptation mainstreamed into integrated rural development and investment policies	11 June 2014 – ongoing, Africa, Mali	FAO, GEF	350000 US Dollar (USD) (GEF)	
Sustainable Livelihoods and Adaptation to Climate Change (SLACC)	Mainstreaming community based adaptation into national and state frameworks	1) Strengthened operational capacity of national and state officials and representatives for integrating climate adaptation into livelihood support activities; and 2) evidence of climate change mainstreaming into national and state livelihood program frameworks.	7 August 2014 – ongoing, Asia and the Pacific, India	World Bank, GEF	1319760 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
Scaling up Risk Transfer Mechanisms for Climate Vulnerable Agriculture-based Communities in Mindanao	Policy, advocacy and knowledge	Regulatory and fiscal incentive structures adjusted to stimulate private sector engagement in climate risk reduction and transfer for agriculture-based rural households.	1 August 2014 – ongoing, Asia and the Pacific, Philippines	UNDP, GEF	200000 US Dollar (USD) (GEF)	
Adapting Natural Resource Dependent Livelihoods to Climate induced Risks in Selected Landscapes in Burkina Faso	Climate change adaptation mainstreamed into local and regional development planning and finance	1) Adaptation actions, on ‘climate change adaptation mainstreaming’, are implemented; 2) Development frameworks that include specific budgets for adaptation actions	29/04/2014 – ongoing, Africa, Burkina Faso	UNDP, GEF	405665 US Dollar (USD) (GEF)	
Enhancing Adaptive Capacity and Resilience to Climate Change in the Agriculture Sector in Comoros	Strengthening the strategic framework for adaptation to climate change in the agriculture sector and strengthening the adaptive capacity of agricultural sector institutions to provide strategic support for climate change adaptation	1) Strategic frameworks and national and island levels incorporate assessment of climate change risks to the agricultural sector; 2) Agricultural sector management and support institutions have the knowledge and capacity to reduce the vulnerability of agricultural production; 3) Inter-island, inter-sectoral and inter-organizational partnerships for reducing vulnerability are functioning	24/03/2014 – ongoing, Africa, Comoros	UNDP, GEF	831250 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
Addressing the Risk of Climate-induced Disasters through Enhanced National and Local Capacity for Effective Actions	Strengthening Community resilience to climate - induced disaster risks (droughts, floods, landslides, windstorms, forest fires)	1) Climate-resilient water harvesting, storage and distribution systems designed; 2) Community-level water resource inventory completed and maintained for water management and planning; 3) disaster management institutions at various levels established and trained for better preparedness and response to climate-induced disasters	24/03/2014 – ongoing, Asia and the Pacific, Bhutan	UNDP, GEF	1898800 US Dollar (USD) (GEF)	
Integrating Climate Resilience into Agricultural and Pastoral Production for Food Security in Vulnerable Rural Areas Through the Farmers Field School Approach.	Mainstreaming climate change resilient agro-pastoral and agricultural systems into sectoral policies and into local development plans	Implementation of sectoral plans and local development plans that contribute to climate change resilience for agro-pastoral and agricultural communities.	31/07/2014 – ongoing, Africa, Burkina Faso	FAO, GEF	500000 US Dollar (USD) (GEF)	
Implementing Urgent Adaptation Priorities Through Strengthened Decentralized and National Development Plans.	1) Integration of adaptation into local development plans; 2) Integration of adaptation into national level strategies	1) Strengthened awareness and ownership of adaptation and climate risk reduction processes at local level; 2) Mainstreamed adaptation in broader development frameworks at country level and in targeted vulnerable areas.	23/10/2014 – ongoing, Africa, Malawi	UNDP, GEF	1294000 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
Adaptation to Climate Change in the Coastal Zone in Vanuatu	Climate change governance	1) Climate Change adaptation enabling policies and supporting institutions in place; 2) Human resources in place at the national, provincial and community levels	26/09/2014 – ongoing, Asia and the Pacific, Vanuatu	UNDP, GEF	300000 US Dollar (USD) (GEF)	
Strengthening Community Resilience to Climate-induced Disasters in the Dili to Ainaro Road Development Corridor	Strengthened climate and disaster risk planning, budgeting and delivery	Subnational DRM institutions able to assess, plan and budget and deliver investments in climate change related disaster prevention, linked to critical economic infrastructure and assets.	8 November 2014 – ongoing, Asia and the Pacific, Timor Leste	UNDP, GEF	1300000 US Dollar (USD) (GEF)	
Strengthening the Resilience of Rural Livelihood Options for Afghan Communities in Panjshir, Balkh, Uruzgan and Herat Provinces to Manage Climate Change-induced Disaster Risks	Climate responsive local development planning	Climate change risk and variability integrated into local planning and budgeting processes	4 July 2014 – ongoing, Asia and the Pacific, Afghanistan	UNDP, GEF	1400000 US Dollar (USD) (GEF)	
Enhancing the Resilience of Poor Communities to Urban Flooding in Yaounde	Strengthening institutional capacity to improve long term urban resilience to flood risk	Climate change risk are integrated into policies, regulations and, urban planning	8 April 2014 – ongoing, Africa, Cameroon	AfDB, GEF	620000 US Dollar (USD) (GEF)	
Community Resilience to Climate and Disaster Risk in Solomon Islands Project	Integration of climate change adaptation and disaster risk reduction in government policies and operations.	Policies, development plans and budgets at national, provincial and community levels incorporate and support	2 July 2014 – ongoing, Asia and the Pacific, Solomon Islands	World Bank, GEF	446000 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
		CCA and DRR measures				
Enhancing Climate Resilience of the Vulnerable Communities and Ecosystems in Somalia	Enhancing Policies, Institutional Frameworks and Government Capacities	Policies, plans and tools reviewed, revised, developed, adopted and implemented by government to mainstream and enhance adaptive capacity and mitigate the risks of climate change on vulnerable communities and critical ecosystem services	18/11/2014 – ongoing, Africa, Somalia	UNDP, GEF	3529000 US Dollar (USD) (GEF)	
Livestock and Rangeland Resilience Programme	Enhanced capacity for community adaptive planning	Community adaptation plans incorporate the needs and priorities of vulnerable communities	26/11/2014 – ongoing, Africa, Sudan	IFAD, GEF	753200 US Dollar (USD) (GEF)	
Promoting Energy Efficient Cook Stoves in Micro and Small-scale Food Processing Industries	Improving the business performance of micro-enterprises	Increased income and improved product quality generated	14/06/2014 – ongoing, Africa, Chad	UNIDO, GEF	250000 US Dollar (USD) (GEF)	
Geothermal Resource Development in Saint Lucia	Component 2: Transaction and regulatory support	1- Agreement reached with a qualified developer as a partner to carry out exploration drilling 2- Funding for implementing an exploration drilling program is confirmed	21/11/2014 – ongoing, Latin America and the Caribbean, St. Lucia	World Bank, GEF	432500 US Dollar (USD) (GEF)	
Sustainable Urban Mobility Program for San Jose	Integration of public transport improvements with non-motorized and private motorized	1. 1 Five Workshops with public sector and private transport operators to provide	6 December 2014 – ongoing, Latin America and the Caribbean,	IADB, GEF	239191 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
	modes	incentives to implement public transport improvements 1.2 Development of Integration guidelines for public transport 1.3 Multi-modal integration pilot project between public transport and NMT (walking and cycling).	Costa Rica			
Mitigating Deforestation in Brazil Nut Concessions in Madre de Dios, Peru	Conservation Agreements	No deforestation in concessions that participate in conservation agreements 50% increase in the income of brazil nut concession holders	13/06/2014 – ongoing, Latin America and the Caribbean, Peru	IADB, GEF	765500 US Dollar (USD) (GEF)	
Improving Mobility in Parakou	Technical assistance for the design and implementation of sustainable urban planning in Parakou	Mainstreaming of urban development strategies to support more sustainable transport and urban policy and planning initiatives based on strategy integrating land-use considerations, transportation planning, and environmental sustainability to address mobility and air pollution	25/09/2014 – ongoing, Africa, Benin	AfDB, GEF	226484 US Dollar (USD) (GEF)	
Promoting Sustainable Bio-energy Production from Biomass (SBEPB)	Implementation of strengthened enabling policies, legal and institutional framework for deployment of	1.1: Developed and adopted new regulations and technical guidelines for renewable energy	6 October 2014 – ongoing, Asia and the Pacific, Timor-Leste	UNDP, GEF	125000 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
	biomass energy technologies as well as the growth of biomass energy businesses in Timor-Leste.	<p>technology appraisal and evaluations</p> <p>1.2: Developed and implemented national strategy and roadmap for the promotion of bio-energy production and utilization</p> <p>1.3: Designed and operational national biomass energy resource inventory</p> <p>1.4: Modalities and details of participation of community-based organizations and grassroots institutions finalized and agreed</p>				
Renewable Energy for Rural Livelihoods (RERL)	Strengthened legal, institutional and policy environment to support RE and other low-carbon technology development & utilization; RE technology and project financing enhancement	<p>1. Approved and enforced policy that enables PPP model for mini-hydro and large-scale solar PV development, including fiscal incentives and suitability for possible changes in Nepal government structure (to federal system);</p> <p>2. Methodology and database developed and made available for incorporating mini-hydro and large scale solar PV systems into district RE plans;</p> <p>Completed training and awareness programs for relevant government agencies and</p>	3 May 2014 – ongoing, Asia and the Pacific, Nepal	UNDP, GEF	1225356 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
		<p>stakeholders on mini-hydro and large scale solar PV systems development and productive end uses;</p> <p>3. Improved availability of financial investment supports for rural RE and other low-carbon technology applications;</p> <p>4. Improved design and packaging of investment support mechanisms for rural RE and other low-carbon technology applications</p>				
Development and Commercialization of Bioenergy Technologies in the Municipal Sector in Ukraine.	<p>Market-oriented policy and legal/regulatory framework for municipal heat and hot water supply strengthened. Promoting investment in municipal biomass through the establishment and strengthening of a Financial Support Mechanism.</p>	<p>1. Streamlined and comprehensive market-oriented policy and legal/regulatory framework to promote biomass for municipal heat and hot water services;</p> <p>2. Municipal Targets for Biomass Energy for heating are agreed and established; Investment promotion in municipal use of biomass through establishment and strengthening of 3. Financial Support Mechanism and capacity developed within FSM to appraise municipal biomass use</p>	27/02/2014 – ongoing, Eastern Europe, Ukraine	UNDP, GEF	3620000 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
		projects for lending.				
Reducing Barriers to Accelerate the Development of Biomass Markets in Serbia	Policy & Legislative Development Support Related to Biomass Energy Successfully operating Biomass Support Unit. Increased capability of municipalities and entrepreneurs to develop, finance, construct, and operate bankable biomass projects	1. Stronger and more effective secondary legislation related to biomass energy is developed and approved and adopted; 2. Developed and adopted National Programme for Supporting Biomass Projects; 3. At least 20 completed training seminars by the Biomass Support Unit for Serbian banks and 4. Serbian project developers on the Investment Support Mechanism	22/01/2014 – ongoing, Eastern Europe, Serbia	UNDP, GEF	640000 US Dollar (USD) (GEF)	
Sustainable Land Management and Climate-Friendly Agriculture	Degraded forest and rangelands rehabilitated and management practices improved.	1. Innovative rehabilitation technologies and practices introduced. 2. Decision-making tools for range and forest lands established and delivering SLM, BD, and CC benefits	11 March 2014 – ongoing, Eastern Europe, Turkey	FAO, GEF	2171500 US Dollar (USD) (GEF)	
Management and protection of Key Biodiversity Areas in Belize	Promoting Effective Management of Key Biodiversity Areas (KBAs)	1. Strengthened legal and administrative framework for Protected Areas (PAs) 2. Protected Areas (PAs) in the KBAs managed more effectively (as	2 June 2014 – ongoing, Latin America and the Caribbean, Belize	World Bank, GEF	2597900 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
		measured by GEF Tracking Tools)				
Strengthening Low Carbon Energy Island Strategies	Development of programs through existing financial institutions focused on financing energy efficiency measures in new and existing buildings Development and adoption of a phased implementation for legislation on building energy efficiency	Financing institutions are extending loans and financing for investments in energy efficiency actions in buildings Building owners and contractors are complying with the new legislation on building EE that include a certification scheme that assures the adoption of EE guidelines and standards, and the certification scheme can be used to support financing applications.	18/08/2014 – ongoing, Asia and the Pacific, Maldives	UNEP, GEF	1243483 US Dollar (USD) (GEF)	
Conserving, Enhancing and Managing Carbon Stocks and Biodiversity in The Chernobyl Exclusion Zone	Improved management of natural resources and carbon stocks within and around the ChEZ.	1. Formal designation of the ChEZ as Biosphere Reserve for enhancing conservation and management of carbon stocks; 2. Measures developed to ensure financial and institutional sustainability of multi-sector conservation programs.	12 December 2014 – ongoing, Eastern Europe, Ukraine	UNEP, GEF	1854000 US Dollar (USD) (GEF)	
Strengthening capacity and incentives for wildlife conservation in the Western Forest Complex	The adoption of more sustainable land use practices is incentivized	The support and development of demonstration carbon sequestration projects in the HKK-TY WHS and	10 January 2014 – ongoing, Asia and the Pacific, Thailand	UNDP, GEF	1498502 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
		its buffer areas – as part of this development process the feasibility of adopting an explicit performance-based Wildlife Premium Mechanism will be assessed.				
Production of sustainable, renewable biomass-based charcoal for the iron and steel industry in Brazil	A policy framework has been implemented to promote the use of renewable biomass-based charcoal by the I&S sector, supported by an internationally recognized system for monitoring achieved GHG emission reductions	<p>A detailed strategy is put into place by the Government (MMA & MDIC) to promote the use of renewable biomass-based charcoal by the I&S sector in MG.</p> <p>A Monitoring and Certification Platform to register GHG emission reductions achieved by efficient charcoal production facilities implemented by the I&S sector. The environmental impact and resource efficiency of clean, renewable biomass-based charcoal production chains are assessed using analytical tools. Financial incentive schemes to promote the use of renewable biomass-based charcoal (e.g. tax exemptions, soft loans, performance based payments) are</p>	24/01/2014 – ongoing, Latin America and the Caribbean, Brazil	UNDP, GEF	8785000 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
		assessed on their merits.				
Promoting Utility-Scale Power Generation from Wind Energy	Increased wind power investment in Sudan facilitated by the approved and enforced enabling policy, institutional and regulatory frameworks	Formulated long-term energy policy and regulations for Sudan Developed and endorsed standardized PPA for grid-connected renewable energy projects Established and approved feed-in tariff for wind energy Adopted and approved secondary legislation relevant to wind energy, including a Public-Private Partnership Act and an Independent Power Producers Act Formulated and adopted grid code for the interconnection of variable renewable energy sources Established and operational inter-ministerial High Committee for Renewable Energy An operational "one-stop-shop" established for wind energy investors and developers	18/08/2014 – ongoing, Africa, Sudan	UNDP, GEF	377410 US Dollar (USD) (GEF)	
MULTIPLYING ENVIRONMENTAL AND CARBON BENEFITS IN THE HIGH ANDEAN	Enabling environment in place to integrate multiple benefits Institutional capacities enhanced to apply	Integrated Land Use Plans developed and strengthened Local development plans formulated or	19/03/2014 – ongoing, Latin America and the Caribbean, Peru, Ecuador	UNEP, GEF	1099943 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
ECOSYSTEMS OF ECUADOR AND PERU	knowledge and INRM tools	strengthened. Policy instruments formulated or strengthened by the project to be formally adopted by local governments to enhance sustainable biodiversity, forest and land management practices. Technicians attend continued and specific training program in management and restoration practices focus on SLM/SFM and rangeland management on high Andean ecosystems Sustainable financing plans designed and implemented to support INRM/SFM and diversify the financial resource base at intervention sites. National and local decision makers attend continued and specific training program in on the conservation and sustainable management of high Andean Ecosystems and its link to land use planning Extension programs operated by local governments or counterpart organizations				

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
		strengthened				
Sustainable Energy Initiative for Industries	Develop policy and regulatory framework to support the uptake of EE and RE in industry	Conducive policy and regulatory framework established.	29/05/2014 – ongoing, Asia and the Pacific, Pakistan	UNIDO, GEF	229023 US Dollar (USD) (GEF)	
Sustainable management of mountainous forest and land resources under climate change conditions	Strengthening of the enabling environment for sustainable forest and land management	Enhanced policy, legal and institutional framework in forestry and land management for integrating SFM/SLM principles and practices into national and local level land-use plans Increased understanding and awareness on roles of SFM/SLM and LULUCF in carbon sequestration and GHG balance	25/02/2014 – ongoing, Eastern Europe, Kyrgyz Republic	FAO, GEF	527455 US Dollar (USD) (GEF)	
Environmental Services Project	Improved management of communal forest and pasture and micro-catchments	Forest governance/SFM improved, areas under SFM increased, integrated resource management of participating micro-catchments, sustainability of forest management enhanced, erosion reduced, degraded land restored, degraded forest restored/regenerated, carbon sequestered, poverty reduced, forest and pasture transferred to communal ownership	19/03/2014 – ongoing, Eastern Europe, Abania	World Bank, GEF	1466044 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
Promoting Integrated Biomass and Small Hydro Solutions for Productive Uses in Cameroon	Developing mechanisms to remote and sustain private sector investments in renewable energy generation	Investment mechanism strengthened to support a viable renewable energy generation market National institutions and key private sector market players have the financial and technical capacities, tools and support base needed to effectively promote and sustain a renewable energy market are developed.	8 April 2014 – ongoing, Africa, Cameroon	UNIDO, GEF	400000 US Dollar (USD) (GEF)	
Utilizing Solar Energy for Industrial Process Heat in Egyptian Industry	Develop policy instruments to promote the use of solar energy for industrial process heat	Policy instruments promoting the use of solar energy for industrial process heat	18/12/2014 – ongoing, Africa, Egypt	UNIDO, GEF	300000 US Dollar (USD) (GEF)	
Promotion of Non-Fired Brick Production (NFB) and Utilization in Viet Nam	Policy support for non-fired brick (NFB) technology development Sustainable financing support for NFB technology application	Improved and approved legal framework to encourage NFB production and use, and enhanced government capacity and knowledge to regulate NFB development and usage Improved availability and sustained access to financial support for NFB technology applications	3 November 2014 – ongoing, Asia and the Pacific, Vietnam	UNDP, GEF	836500 US Dollar (USD) (GEF)	
Energy Efficiency and Renewable Energy in Social Housing in Argentina	Building expert capacity for local/regional production of EE and RE technologies	Implementation of instruments for the promotion and adoption of local EE and RE technologies in social	3 May 2014 – ongoing, Latin America and the Caribbean, Argentina	IADB, GEF	421385 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
		housing Strengthening of public and private actors' capacities for the implementation of EE and RE technologies				
Promoting energy efficiency in industrial heat systems and high energy-consuming (HEC) equipment	Policy and market promotion	Enhanced regulatory framework that will enable HEC user to adopt energy efficiency measures and government institutions to monitor compliance, including a knowledge management tool	14/10/2014 – ongoing, Asia and the Pacific, China	UNIDO, GEF	525000 US Dollar (USD) (GEF)	
Promotion of waste-to-energy (WTE) applications in agro-industries of Tanzania	Increased involvement of private investors in WTE projects.	3.1. Gap analysis on policy requirements conducted 3.2. Incentive and soft loan facilities designed.	19/12/2014 – ongoing, Africa, Tanzania	UNIDO, GEF	167564 US Dollar (USD) (GEF)	
GHG Emissions Reductions in Targeted Industrial Sub-Sectors through EE and Application of Solar Thermal Systems	Development of a regulatory framework and financial incentive schemes to facilitate solar thermal energy utilization and thermal energy efficiency.	Policy papers and financial incentive schemes established and endorsed by stakeholders.	28/04/2014 – ongoing, Asia and the Pacific, Malaysia	UNIDO, GEF	120000 US Dollar (USD) (GEF)	
Scale Up of Access to Clean Energy for Rural Productive and Domestic Uses	Component 3: Policy and regulatory support for RE - rural livelihood applications Component 4: Financial support for decentralized RE - rural livelihood applications	3.1: Inclusion of RE applications in national and state level rural livelihoods policies for key livelihood sectors in rural areas 3.2: Future MNRE programs also cater to actions towards enhanced RE utilization in rural livelihoods	12 July 2014 – ongoing, Asia and the Pacific, India	UNDP, GEF	796400 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
		3.3: Improved tariff and grid interconnection regulations for decentralized RE 4.1: Improved decentralized RE subsidies and support for rural livelihoods 4.2: Enhanced provision of financial support for decentralized RE in rural livelihood applications 4.3: Improved investment risk mitigation for decentralized RE in rural livelihood applications				
Efficient and Sustainable City Bus Services	National Capacity Building for Urban Bus Sector	sustainable city bus transport policy and regulatory frameworks adopted and implemented	17/11/2014 – ongoing, Asia and the Pacific, India	World Bank, GEF	700000 US Dollar (USD) (GEF)	
Iyanola - Natural Resource Management of the NE Coast	Enhanced sustainable land management and carbon benefits in deciduous seasonal and low montane rainforest zones	Improved ecosystems restoration and management Restoration of 1,157 hectares of forest of global BD significance, enhancing carbon stocks Restoration efforts and avoided degradation lead projected annual tons CO2 savings 23,056.	12 April 2014 – ongoing, Latin America and the Caribbean, St. Lucia	UNEP, GEF	173160 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
		Potential total carbon benefit of 691,689 tons CO2 over 30 years.				
Nationally Appropriate Mitigation Actions for Low-carbon Urban Development	New and additional financing for urban NAMAs levered	Pilot NAMA fund established, managed and evaluated Financing for pilot NAMA project facilitated (TA to support 3.1) Funding diversification strategy and mechanisms to leverage additional financing from public, private and international sources of funding developed including a proposal for how the NFUM can be structured efficiently.	12 May 2014 – ongoing, Eastern Europe, Kazakhstan	UNDP, GEF	300000 US Dollar (USD) (GEF)	
Catalyzing the Use of Solar Photovoltaic Energy	Encouragement of investments in solar power technology in Iraq and consumer uptake of solar appliances through policy reform and financial incentives.	Enhanced private investment in, and uptake of, solar PV technologies (rooftop appliances and solar power plants).	8 December 2014 – ongoing, Asia and the Pacific, Iraq	UNDP, GEF	1201273 US Dollar (USD) (GEF)	
Grid-connected Small Scale Photovoltaic Systems	Policy, institutional and regulatory framework Create a financing framework to support the development of PV systems (and renewable systems in general)	A supportive policy, institutional and regulatory framework for providing a basis for sustainable growth of the small, decentralized RE (in particular PV) power generation market. A financing framework	30/12/2014 – ongoing, Africa, Egypt	UNDP, GEF	432000 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
		and a network of local financial institutions to facilitate the financing of small, decentralized PV systems for a broad range of consumers.				
Towards Carbon Neutral Tourism	Low-carbon policies and regulations in tourism sector Financing for low-carbon and sustainable tourism	Legal and regulatory framework supporting low carbon tourism and low carbon spatial development, including increased certification of both existing and new tourist accommodation facilities and related services by internationally recognized environmental certification scheme(s) Pilot investments to support low carbon tourism development implemented, followed up by the establishment of a sustainable financing mechanism to support climate change mitigation and adaptation actions in the tourism sector	7 November 2014 – ongoing, Eastern Europe, Montenegro	UNDP, GEF	778000 US Dollar (USD) (GEF)	
Energy Conservation, Greenhouse Gas Mitigation and Soil Carbon Sequestration in Staple Crop Production	Policy development and Knowledge Management	CSA integrated into China's agricultural and food security policies/strategies; CSA adoption at the two concerned cropping systems under proper	7 February 2014 – ongoing, Asia and the Pacific, China	World Bank, GEF	500000 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
		technical guidance. Project demonstrated CSA knowledge disseminated locally, in project provinces, nationally and internationally				
PSG- Additional financing- SUSTAINABLE LAND AND WATER MANAGEMENT PROJECT	To expand the area under sustainable land and water management practices in selected watersheds to reduce land degradation and enhance maintenance of biodiversity.	Integrated landscape management practices adopted by local communities. Increased investments in SLWM including rangeland management Increased investments in SLWM including rangeland management Improved management effectiveness of existing protected areas, and Restored and enhanced carbon stocks in forests and non-forest lands	22/04/2014 – ongoing, Africa, Ghana	World Bank, GEF	2268519 US Dollar (USD) (GEF)	
Nationally Appropriate Mitigation Actions (NAMAs) for Low-carbon End-use Sectors in Azerbaijan	Development of NAMAs in oil & gas end-use sectors	2.1 Three designed programs for the implementation of selected prioritized feasible NAMAs in main oil & gas end-use sub-sectors 2.2 Fully capable and qualified private and public sector entities in the design and implementation of NAMAs 2.3 Defined and established financial instruments mitigation	9 November 2014 – ongoing, Eastern Europe, Azerbaijan	UNDP, GEF	411800 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
		actions in the oil & gas end-use sectors				
Improvement of Industrial Energy Efficiency in Myanmar	Improvement of policy and regulatory frameworks, incentive schemes, support programs, and awareness raising	Improved policy and regulatory frameworks, incentive schemes, support programs, energy data and awareness will facilitate sustainable energy efficiency improvement in industry	14/10/2014 – ongoing, Asia and the Pacific, Myanmar	UNIDO, GEF	400000 US Dollar (USD) (GEF)	
NAMA Support for the Tunisian Solar Plan	Architecture for Nationally Appropriate Mitigation Action (NAMA) development and implementation is established.	A coherent climate finance framework is established for the development of NAMAs to catalyze the transformational capacity of the TSP to generate large emission reductions.	19/11/2014 – ongoing, Africa, Tunisia	UNDP, GEF	1212200 US Dollar (USD) (GEF)	
Mexico Sustainable Energy Technology Development	Regional Needs Assessments (RNA) for ACE technologies and Clean Energy Regional Investment Plans (CERIPs).	Investments and strategic action plans designed and initiated with stakeholders to advance the commercialization of ACE technologies	25/04/2014 – ongoing, Latin America and the Caribbean, Mexico	World Bank, GEF	4576890 US Dollar (USD) (GEF)	
ASTUD PRC Clean Bus Leasing	Guidebook for Selecting a Clean Bus	1. Better decision making in terms of improved match between clean bus and required operating conditions 2. In-session workshop on long-term climate finance	Objective of the in-session workshop was to discuss the strategies and approaches for scaling up climate finance, cooperation on enhanced enabling environments and support for readiness activities and on needs for support to developing countries.	Climate finance negotiators received technical information about how strategies and approaches for mobilizing scaled-up climate finance is designed and structured. They also had an opportunity to engage in a discussion among Parties and observer organizations, how enabling environments and effectiveness of climate finance can be enhanced, how to strengthen the capacity of developing countries to effectively deliver climate projects and programmes and what action is needed to better address the needs for support of developing countries. Video recordings and presentation slides have been posted on the dedicated long-term climate finance web page.	6 November 2014 - 6 December 2014, , Bonn, Germany	UNFCCC		http://unfccc.int/6814.php

	Report (FBUR) , and iNDC to the 2015 Agreement under the UNFCCC	communication, identification and reporting of the intended Nationally Determined Contribution of Botswana to the 2015 Agreement under the UNFCCC				
Preparation of Trinidad and Tobago's Third National Communication and First Biennial Update Report to the UNFCCC	To assist Trinidad and Tobago in the preparation of its Third National Communication and First Biennial Update Report to the United Nations Framework Convention on Climate Change (UNFCCC)	Compilation, editing and publication of the TNC and the first BUR	26/11/2014 – ongoing, Latin America and the Caribbean, Trinidad and Tobago	UNDP, GEF	774545 US Dollar (USD) (GEF)	
Preparation of Papua New Guinea's Initial Biennial Update Report to UNFCCC and the Third National Communication Report to the UNFCCC	To prepare and submit Papua New Guinea's Third National Communication (3NC) and the first biennial update report (BUR) to UNFCCC.	Publication and submission of 1st BUR, NIR and 3rd NC	12 April 2014 – ongoing, Asia and the Pacific, Papua New Guinea	UNEP, GEF	774545 US Dollar (USD) (GEF)	
Nigeria's First Biennial Update Report	To prepare and submit Nigeria's first biennial update report (BUR) to UNFCCC.	Publication and submission of 1st BUR	11/3/22014 – ongoing, Africa, Nigeria	UNDP, GEF	320000 US Dollar (USD) (GEF)	
Nationally Determined Contributions to the 2015 Agreement under the UNFCCC	Support participating countries to identify and communicate Nationally Determined Contributions to the 2015 Agreement	Support provided to participating non-Annex I Parties in the implementation of their NDC projects	6 December 2014 – ongoing, Global, Azerbaijan, Cote d'Ivoire, Iraq, Yemen	UNDP, GEF	870000 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
	under the UNFCCC					
Preparation of Intended Nationally Determined Contribution (INDC) to the 2015 Agreement under the United Nations Framework Convention on Climate Change (UNFCCC)	: Nine countries prepare and submit intended nationally determined contributions (INDCs) to the 2015 United Nations Framework Convention on Climate Change (UNFCCC) Agreement and have institutional arrangements in place that support the INDC process	Preparation and submission of INDC to the 2015 UNFCCC Agreement	26/11/2014 – ongoing, Global, Congo DR, Dominica, Eritrea, Kyrgyz Republic, Moldova, Mongolia, South Africa, Swaziland, Zimbabwe	UNEP, GEF	1636380 US Dollar (USD) (GEF)	
Enabling China to Prepare Its Third National Communication (3NC) and Biennial Update Report to the UNFCCC	Strengthened capacity in integrating climate change concerns into national and sectoral development priorities while fulfilling obligations to the UNFCCC	Submitted Biennial Update Report to the UNFCCC	22/07/2014 – ongoing, Asia and the Pacific, China	UNDP, GEF	6920000 US Dollar (USD) (GEF)	
Sixth National Communication to the UNFCCC	Strengthened capacity in integrating climate change national strategies into development priorities while fulfilling obligations to the UNFCCC.	Publication and submission of the Sixth NC and the BUR.	9 November 2014 – ongoing, Latin America and the Caribbean, Mexico	UNDP, GEF	3463204 US Dollar (USD) (GEF)	
Global Support Programme for Preparation of National Communications and Biennial Update Reports for non-Annex I	Improve the quality of non-Annex I Parties' National Communications (NCs) and Biennial	1. Broaden and make more robust and operational institutional arrangements for the	30/06/2014 – ongoing, Global, Global	UNDP, UNEP, GEF	6650000 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
Parties under the UNFCCC	Update Reports (BURs), so they are more widely used for national development planning, climate negotiations, and for funding low emission, climate resilient development projects, while they are also submitted to the UNFCCC in a timely manner. The project will also assist countries initiate or intensify domestic preparations for their intended nationally determined contributions.	preparation of NC and BURs 2. Provide technical backstopping to national teams for the preparation of NCs, BURs, and nationally determined contributions to the 2015 climate agreement, including the preparation and dissemination of technical and policy-relevant guidance materials, methodologies and tools 3. Enhance knowledge management, best practice, communication and outreach				
Enabling South Africa to Prepare Its Third National Communication (3NC) and Biennial Update Report to the UNFCCC	To prepare the Third National Communication (TNC) and first Biennial Update Report (BUR) of South Africa to enable the country fulfill its obligations under the UNFCCC, in accordance with Articles 4.1 and 12.1 of the Convention while strengthening its capacity to integrate climate change	6 Biennial Update Report to the UNFCCC prepared and approved by Government by June, 2015	31/07/2014 – ongoing, Africa, South Africa	UNEP, GEF	3815850 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
	concerns into national and sectoral development plans and priorities through the implementation of the national climate change response strategy (NCCRS)					
Third National Communication (TNC) and Biennial Update Report to the UNFCCC	To assist El Salvador in the preparation of its Third National Communication (TNC) and First BUR for the implementation of the obligations under the United Nations Framework Convention for Climate Change.	BUR completed and submitted TNC document finalized and submitted	24/11/2014 – ongoing, Latin America and the Caribbean, El Salvador	UNDP, GEF	774545 US Dollar (USD) (GEF)	
CGE Workshop on the peer review of the materials for the training of the team of technical experts(TTE)	The goal of the workshop was to seek feedback on the draft training materials for the training of the team of technical experts developed by the CGE, including their design and technical content, with a view to ensuring that they correspond to the requirements of the technical analysis of the biennial update reports.	The workshop provided an opportunity for experts to review the draft training materials and provide feedback to the CGE, with a view to ensuring that the training materials will enable the TTE to fulfill the objectives of the technical analysis of BURs	26–27/10/2015, All regions, Bonn, Germany	UNFCCC	124000 US Dollar (USD) (Belgium, Canada, European Union and Japan)	http://unfccc.int/resource/docs/2014/sbi/eng/19.pdf

NFMS, M&MRV functions	National Programme of Colombia launched, NFMS, M&MRV functions and its legal framework	REL sections developed	- Latin America and the Caribbean, Colombia	UN-REDD Programme, IDEAM, EU Joint Research Center on monitoring forest degradation through backstopping.	n/a (UN-REDD Programme Multi-Partner Trust Fund)	http://www.un-redd.org/
Colombia's First Biennial Update Report	Publication and submission of BUR	Biennial Update Report compiled, published ,and submitted to the COP	5 February 2014 – ongoing, Latin America and the Caribbean, Colombia	UNDP, GEF	352000 US Dollar (USD) (GEF)	
Regional Technical Dialogues on Intended Nationally Determined Contributions (INDCs)	Share country experiences with the design and preparation of their INDCs; share information on challenges being faced and identify lessons learned and best practices to address these challenges; address issues related to the underlying technical basis required to prepare robust, realistic, and achievable contributions; identify support needed to reach domestic agreement on contributions and follow-up actions; and provide an update on the process of preparing INDCs and share newly identified challenges.	Increased knowledge of technical issues related to the design of INDCs in developing countries; improved capacity among developing countries to prepare robust, realistic, and achievable contributions; INDCs experiences, lessons learned, and good practices identified and shared between countries; and challenges and support needs identified.	6 July 1905 - 7 July 1905, Africa, Asia and the Pacific, Eastern Europe, Latin America and the Caribbean, All developing countries from regions invited to participate (dialogues held in Colombia, Viet Nam, Ghana, Mexico, Ethiopia, and Thailand).	UNDP and UNFCCC Secretariat	500000 US Dollar (USD) (Australia, Austria, Belgium, the European Commission, France, Germany, Japan, Norway, the United Kingdom, and the United States)	http://www.lowemissiondevelopment.org/events/regional-events

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
Global Support Programme for INDCs Preparation	Provide technical assistance to countries for national communications, biennial update reports, and INDCs.	Increased capacity among developing countries to prepare robust, realistic, and achievable INDCs.	7 July 1905 - 8 July 1905, Africa, Asia and the Pacific, Eastern Europe, Latin America and the Caribbean, Support available to all developing countries from regions.	UNDP, UNEP, and Global Environment Facility (GEF)	US Dollar (USD) (Global Environment Facility (GEF))	N/A
Guidance Document on Designing and Preparing INDCs	Provide guidance for countries on technical elements of INDCs, as well as options, recommendations, and key steps involved in INDC preparation.	Improved understanding of the technical elements on INDCs and key options, decisions, and steps involved in the INDC preparation process.	6 July 1905 - 7 July 1905, Africa, Asia and the Pacific, Eastern Europe, Latin America and the Caribbean, Guidance available to all countries.	UNDP and UNFCCC Secretariat	~50,000 US Dollar (USD) (Australia, Austria, Belgium, the European Commission, France, Germany, Japan, Norway, the United Kingdom, and the United States)	N/A
Report on Sources of Support for INDCs Preparation	Inform developing countries of support available for the preparation of INDCs.	Improved understanding of sources of available support for the preparation of INDCs.	6 July 1905 - 6 July 1905, Africa, Asia and the Pacific, Eastern Europe, Latin America and the Caribbean, Report available to all countries.	UNDP and UNFCCC Secretariat	~20,000 US Dollar (USD) (Australia, Austria, Belgium, the European Commission, France, Germany, Japan, Norway, the United Kingdom, and the United States)	http://unfccc.int/files/focus/mitigation/applications/pdf/support_for_indcs.pdf
Study on Experiences and Lessons Learned in the Preparation of INDCs	Track the progression of INDC preparation progress worldwide and share knowledge for best practices in INDCs preparation.	Improved understanding of the status of INDCs preparation worldwide and of best practices in INDCs preparation.	7 July 1905 - 7 July 1905, Africa, Asia and the Pacific, Eastern Europe, Latin America and the Caribbean, Study available to all countries.	UNDP and UNFCCC Secretariat	50000 US Dollar (USD) (Australia, Austria, Belgium, the European Commission, France, Germany, Japan, Norway, the United Kingdom, and the United States)	http://newclimate.org/portfolio/experiences-and-lessons-learned-in-the-preparation-of-indcs/
Myanmar Climate Change Alliance Programme Initiation Training Workshop	All stakeholders are aware of the MCCA project, its objectives and working modality	The capacity development, National Strategy formulation and vulnerability assessment and activity	15–17/12/2014, Asia-Pacific, Nay Pyi Taw, Myanmar	UNEP	6000 Euro (EUR) (European Union)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
		planning components have been initiated, key government aware and capacitated				
Zambia United4Climate	To raise children's/youth awareness on climate change and environmental challenges	Increased knowledge of Children/youth on climate change and environmental sustainability. Children/youth are empowered to raise their voices on climate change and the environment and to take action.		UNICEF		http://www.unicef.org/environment/files/Zambia_Unite4Climate_2014.pdf
Project d'alimentation en eau potable par énergie solaire de communautés agro-pastorales dans les régions de Ségou, Tombouctou et Mopti, Mali	To address the increasing water shortages in Mali because of fluctuating rainfall due to climate change	By piloting small scale water distribution systems powered by solar energy, UNICEF is assisting 60,000 people in Mali's Northern Region, which is a conflict area, to address water shortages.		UNICEF		http://www.unicef.org/environment/files/Mali_Climate_Fund_2014.pdf
Joint UN Low-Emission, Climate-Resilient Development Strategies	To support government in developing low-emission, climate-resilient development strategies	During 2014 activities by UNICEF enabled development of a risk profile and assessment of vulnerabilities in the communities. Community level dialogues have been carried out with atoll and island councils, women and youth groups and children, to establish platforms for		UNICEF, UNDP, Joint UN-programme		http://www.mv.undp.org/content/maldives/en/home/presscenter/articles/2014/05/18/un-agencies-and-government-of-maldives-launch-the-low-emission-climate-resilient-development-programme-lecred/

Forestry	provided a platform for sharing experiences among countries and identified useful data analysis tools produced by FAO. It gathered representatives of the Ministries of Agriculture, National Institutes of Statistics, and Agencies responsible for National Forest Monitoring Systems and National Emission Inventories for the Agriculture and LULUCF sectors. It was held in cooperation between FAO Departments NRC, ESS, UNREDD, and Mexico-Noruega South South Cooperation.	processes.				i4221s.pdf; Presentations: http://www.fao.org/economic/ess/ess-events/emissions/en/ ; Press Release: http://www.fao.org/americas/noticias/ver/en/c/239305/ Agenda: http://www.fao.org/climatechange/41361-04d66ac288f1f126c1a2af31cca646dff.pdf
Pilot Country Technical Assistance on Biennial Update Reports (BURs)	FAO provides capacity development activities to its member countries for the preparation of GHG Inventories, National Communications (NCs) and Biennial Update Reports (BURs), and contributes knowledge on GHG emissions via the FAOSTAT Emissions database and its data analysis tools. The FAO/MAGHG project has worked with 3 pilot country	The work is underway/completed for Phase I, focused on short-term support for the 2014 BUR. There will also be a longer-term Phase II, focused on the 2016 BUR submission.	24/07/2014 – ongoing, Latin America, Current: Mexico, Uruguay	Ministry of Livestock, Agriculture and Fisheries (Uruguay); Ministry of Housing, Spatial Planning and Environment(Uruguay); National Forestry Commission (CONOFOR); National Institute of Statistics and Geography (INEGI); National Institute of Ecology and Climate Change (INECC) of Mexico; West Africa -- potential collaboration with	100K USD (gcp/glo/325/nor)	http://www.fao.org/climatechang e/micca/78840/en/

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
	<p>activities (Costa Rica, Uruguay and Mexico), to provide technical assistance on elaboration and submission of the agriculture, forestry and other land uses (AFOLU) sectors of the BUR. Costa Rica has focused activities on national statistical processes in support of BUR, while Mexico and Uruguay work on the BUR process. FAO is collaborating with pilot countries on data exchange and analysis via the implementation of a Quality Assurance (QA) and verification process following the guidelines for the preparation of BURs from non-Annex I, and the principles of transparency, consistency, comparability, completeness, and accuracy (TCCCA). indicated in the UNFCCC Annex I inventory reporting guidelines, contained in annex I of decision 24/CP. 19</p>			UNFCCC, US EPA< US DOI		

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
Technical Assistance on Sustainable National Greenhouse Gas Inventory Management Systems	Cooperation between FAO, USEPA, USDoI, GIZ as main partners, and the Secretariat of the United Nations Framework Convention on Climate Change (UNFCCC Secretariat) concerning the UNFCCC regional project on Technical Assistance for Sustainable National Greenhouse Gas Inventory Management Systems in West Africa (West Africa GHG Project). Countries involved: Benin, Burkina Faso, Cabo Verde, Côte d'Ivoire, Ghana, Senegal, and Togo. The focus is on support towards the BUR process.	Identify national statistical processes, identification and collection of reliable activity data and quantification of GHG emissions for AFOLU (focus on data available at FAO), organize “Walk through” session on the FAOSTAT Data Analysis Tools and the Open Foris tools for geo-referenced data, provide Quality Assurance in support of the BUR process, based on the use of the FAOSTAT Emissions database and associated analysis tools; and undertake under request a QA process	5 January 2001 – ongoing, Africa, Countries involved: Benin, Burkina Faso, Cabo Verde, Côte d'Ivoire, Ghana, Senegal, and Togo.	The United States Department of the Interior (US-DoI), the United States Environmental Protection Agency (US-EPA), the Global Forest Observations Initiative (GFOI), UNDP, UNEP, GIZ	100K USD (gcp/glo/325/nor and gcp/glo/500/ger)	N/A
Technical Assistance on National Greenhouse Gas Inventory and BUR Processes	Cooperation between FAO, USEPA, Chinese Academy of Agricultural Sciences, and Shanghai University, on using the FAOSTAT Emissions database and associated analysis tools in support of National Greenhouse Gas Inventory processes in China, for AFOLU.	National expert aware of FAO tools and capable to perform QA/QC processes using FAOSTAT, in support of their national GHG inventory processes, with a focus on BUR submission	18/11/2014 – ongoing, Asia, Shanghai and Beijing	FAO, US EPA, CAAS, University of Shanghai	100K USD (gcp/glo/325/nor and gcp/glo/500/ger)	N/A

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
Pilot Testing the GBEP Sustainability Indicators for Bioenergy in Indonesia - Indicator 1: Greenhouse Gas emission Lifecycle Analysis of Domestic Bioenergy Production	Overall target: To enable the country to monitor the sustainability of its bioenergy sector (main focus of the analysis: Palm Oil Biodiesel); Specific target: to enable the country to monitor consistently GHG emissions from Bioenergy production and use at the national level	The project should develop the capacity to measure emissions reductions due to the host countries' bioenergy sector and to enhance these reductions by improving bioenergy policy. Emission allowances could therefore be indirectly created and/or enhanced by the project. The data collected at the national level may also be of use in any future monitoring, reporting and verification scheme for supported NAMAs.	1 October 2011 - 30/09/2014, South-East Asia, Bogor, Indonesia	FAO; Institute For Energy and Environmental Research (IFEU); Bogor Agricultural University	The project involved the assessment of 24 indicators in two countries to be implemented over a 36 months period. The total cost of the whole project was around 1 million EUR Euro (EUR) (International Climate Initiative - Federal Ministry of Environment, Government of Germany)	http://www.fao.org/3/a-i4059e/index.html
Climate Change, Fisheries and Aquaculture: testing a suite of methods for understanding vulnerability, improving adaptability and enabling mitigation	To understand GHG emissions calculations methodologies as well as GHG emissions reductions potentials within fisheries and aquaculture	Description of GHG hotspots for sector, carbon footprint tool for fisheries and aquaculture, testing of mitigation efforts within sector	3 July 1905 - 8 July 1905,	FAO and private sector, NACA, etc.	300000 US Dollar (USD) (Norway Government)	N/A
Sustainable Urban Mobility Program for San Jose	Development of GHG baseline calculations & Monitoring reporting and Verification system	5.1 Detailed tracking of baseline and future GHG emissions from the San Jose Transport Sector within the Greater Metro Area 5.2. Monitoring Reporting and Verification (MRV) system in place.	16/06/2014 – ongoing, Latin America and the Caribbean, Costa Rica	IADB, GEF	391951 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
Nationally Appropriate Mitigation Actions in the Energy Generation and End-Use Sectors of Peru	Nationally Appropriate Mitigation Actions in the Energy Generation and End-Use Sectors of Peru	Established national and regional GHG emission BAU reference baseline for the energy sector	4 September 2014 – ongoing, Latin America and the Caribbean, Peru	UNDP, GEF	290000 US Dollar (USD) (GEF)	
Supporting Civil Society and Community Initiatives to Generate Global Environmental Benefits using Grants and Micro Loans in the Mediterranean Ecoregion of Chile	Demonstration /promotion of conservation and enhancement of carbon stocks through land use, land use change, and forestry, and local carbon monitoring systems.	Five pilot demonstrations to adopt practices to reduce carbon stock emissions or sequester carbon such as wildfire suppression or prevention, reforestation, restoration, and improved land use planning	21/03/2014 – ongoing, Latin America and the Caribbean, Chile	UNDP, GEF	250000 US Dollar (USD) (GEF)	
Low-Carbon Urban Mobility for Large Cities	2.1 Parameters for modal shifts and emissions reductions in 4 cities (Belo Horizonte, Brasilia, Fortaleza, São Paulo) 2.2 Strategic mobility plans including considerations on GHG emissions in two large cities implemented	2.1.1 System to estimate, and evaluate the reduction of GHGs emissions in transportation projects 2.1.2 Interface to collect and monitor information of transportation activities and GHG emission 2.1.3 Ex-post modal shift evaluation methodology 2.1.4 Ex-post modal shift evaluation applied 2.2.1 Transport Demand Management (TDM) Strategy developed for Belo Horizonte 2.2.2 Non-Motorized	31/10/2014 – ongoing, Latin America and the Caribbean, Brazil	IADB, GEF	2546762 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
		Transport (NMT) Strategy developed for Brasilia				
Towards Carbon Neutral Tourism	Knowledge, Information and Awareness about carbon footprint, mitigation potential and measures in tourism sector	GHG emission monitoring system and increased public awareness about the carbon footprint of the tourism sector, its GHG reduction potential and measures.	14/07/2014 – ongoing, Eastern Europe, Montenegro	UNDP, GEF	645000 US Dollar (USD) (GEF)	
Nationally Appropriate Mitigation Actions (NAMAs) for Low-carbon End-use Sectors in Azerbaijan	MRV system and national registry for mitigation actions in the energy generation and end-use sectors	MRV system and national registry for mitigation actions in the energy generation and end-use sectors	13/09/2014 – ongoing, Eastern Europe, Azerbaijan	UNDP, GEF	399050 US Dollar (USD) (GEF)	
Hands-on training workshop for the African and Eastern European regions on the use of non-Annex I GHG inventory software	The main objective of the regional hands-on training workshop was to train the national focal points and other relevant key national experts involved in the preparation of their national GHG inventories in the use of NAHS for preparing and reporting those national GHG inventories.	Trained the national focal points and other relevant key national experts involved in the preparation of their national GHG inventories in the use of NAHS for preparing and reporting those national GHG inventories.	3 October 2015 - 14/03/2015, African and Eastern European, Libreville, Gabon	UNFCCC	304000 US Dollar (USD) (Australia, Canada and the European Union)	http://unfccc.int/resource/docs/2014/sbi/eng/inf12.pdf
Hands-on training workshop for the Latin America and Caribbean region on the use of non-Annex I GHG inventory software	The main objective of the regional hands-on training workshop was to train the national focal points and other relevant key national experts involved in the preparation of their	Trained the national focal points and other relevant key national experts involved in the preparation of their national GHG inventories in the use of NAHS for preparing	24–28/03/2014, Latin America and Caribbean, Bogota, Colombia	UNFCCC	100000 US Dollar (USD) (Australia, Canada and the European Union)	http://unfccc.int/resource/docs/2014/sbi/eng/inf12.pdf

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
	national GHG inventories in the use of Non-Annex I GHG inventory software (NAIIS) for preparing and reporting those national GHG inventories.	and reporting those national GHG inventories.				
ProSPER.Net Joint Research Project "Climate compatible development in Asian Cities"	Explore win-win strategies for alleviating poverty and low carbon emissions in small and medium scale cities in Asia	GHG emissions inventory in the cities; GHG emission mitigation measures in the cities; Collection of cases highlighting the successful practices of mitigating GHG emissions.	3 January 2015 – ongoing, Asia Pacific, Asia Pacific	ProSPER.Net members, UNU-IAS		

Table 6

Vulnerability and adaptation assessment

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
Fish Adapt- Strengthening the adaptive capacity and resilience of fisheries and aquaculture-dependent livelihoods in Myanmar	to understand and reduce vulnerability to CC in fisheries dependent communities and sectors	community, sector and regional level VA as well as adaptation plans implemented, capacity of governments and communities to monitor and manage change enhanced	1 January 2016 - 31/12/2019, Myanmar	FAO, Myanmar MAFRD, World Fish, etc.	6 million US Dollar (USD) (GEF-LDCF)	http://www.thegef.org/gef/project_detail?projID=5702
Building Climate Change Resilience in the Fisheries Sector in Malawi	to understand and reduce vulnerability to CC in fisheries and aquaculture dependent communities and sectors	community, sector and national level VA as well as adaptation plans implemented, capacity of governments and fisheries and aquaculture communities to monitor and manage change enhanced	1 January 2016 – 31/12/2019, Malawi, and Lake Malawi	FAO, Government, World Fish, University, CSO etc.	5.5 million US Dollar (USD) (GEF-LDCF)	http://www.thegef.org/gef/project_detail?projID=5328
Strengthening the Adaptive Capacity to Climate Change in the Fisheries and Aquaculture Sector	to understand and reduce vulnerability to CC in aquaculture sector	sector and national level VA as well as adaptation plans implemented, capacity of governments and sector to monitor and manage change enhanced	1 January 2016 - 31/12/2018, Chile	FAO, government, private sector and others	2.5 million US Dollar (USD) (GEF-SCCF)	http://www.thegef.org/gef/project_detail?projID=6955
Community-based Climate Resilient Fisheries and Aquaculture Development in Bangladesh	to understand and reduce vulnerability to CC in fisheries dependent communities and sectors	community, sector and regional level VA as well as adaptation plans implemented, capacity of governments and communities to monitor and manage change enhanced	1 January 2016 - 31/12/2019, , Bangladesh		5.5 million US Dollar (USD) (GEF-LDCF)	http://www.thegef.org/gef/project_detail?projID=5636

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
AMICAF - Analysis and Mapping of Impacts under Climate Change for Adaptation and Food Security	To build capacities of countries to make assessments of climate change impacts and food insecurity vulnerability for climate change adaptation	Enhanced capacities of country experts to make climate change adaptation planning	1 January 2014 - 31/12/2014, Asia and Latin America, Philippines and Peru	FAO	800000 USD (Trust fund (Japan))	http://www.fao.org/climatechange/amicaf
MOSAICC - Modeling System of Agricultural Impacts of Climate Change	To build capacities of countries to make assessments of climate change impacts	Enhanced capacities of country experts to make climate change impact assessments	1 January 2014 - 31/12/2014, Africa, Morocco	FAO	USD (European Commission)	http://www.fao.org/climatechange/mosaicc
Climate resilience in Benguela fisheries system	to understand and reduce vulnerability to CC in fisheries dependent communities and sectors	community, sector and regional level VA as well as adaptation plans implemented, capacity of governments and BCC to monitor and communicate change enhanced	12 December 2014 - 31/12/2019, Benguela region, Angola, Namibia, South Africa	FAO, Benguela Current Commission, Governments, CSO, NGO, Universities, etc.	5 million US Dollar (USD) (GEF LDCF/SCCF)	http://www.thegef.org/gef/project_detail?projID=5113
Climate Change, Fisheries and Aquaculture: testing a suite of methods for understanding vulnerability, improving adaptability and enabling mitigation	To support fisheries and aquaculture sector understand and implement VA methodologies	review of VA undertaken in fisheries and aquaculture, global technical workshop on VA for FI and AQ, technical report on VA for FI and AQ, VA methodologies tested in various fisheries/countries/regions/sectors	3 July 1905 - 8 July 1905,	FAO and Global Partnership for Climate, Fisheries and Aquaculture (PaCFA)	200000 US Dollar (USD) (Norway Government)	
Micro Watershed Approaches to Climate Change and Variability to Attain Sustainable Food Security	Participatory integrated micro watershed management to reduce climate impacts on natural resources and agriculture	1) Local level climate change adaptation assessment and monitoring implemented in four target watersheds; 2)	3 June 2014 – ongoing, Asia and the Pacific, Cambodia	FAO, ADB, GEF	1894850 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
		Suite of physical measures to improve ecosystem resilience established in 4 target watersheds				
Community Resilience to Climate and Disaster Risk in Solomon Islands Project	Reducing vulnerability of selected communities against extreme events and climate change impact	1) V&A tools and Community Based Disaster risk Management tools are developed and formally applied in sub-projects; 2) 100% of planned community based subprojects completed and maintained in targeted provinces.	2 July 2014 – ongoing, Asia and the Pacific, Solomon Islands	World Bank, GEF	5447000 US Dollar (USD) (GEF)	
Climate Change Adaptation to Reduce Land Degradation in Fragile Micro-Watersheds	Improving disaster risk management (DRM) to increase adaptive capacity to climate change, in vulnerable sectors living in targeted micro-watersheds.	Vulnerability and risk perception index disaggregated by gender have increased in targeted micro-watersheds.	17/04/2014 – ongoing, Latin America and the Caribbean, El Salvador	FAO, GEF	242496 US Dollar (USD) (GEF)	
Preparation of community level agro-ecosystem plans.	Prepare climate smart plans for community level investments in capacity building, infrastructure, agriculture and microenterprises	Model developed for effective, participatory, community level, climate smart planning	12 January 2013 - 12 January 2014, Near East, Jordan	IFAD, IUCN	100k US Dollar (USD) (GEF)	http://cmsdata.iucn.org/downloads/final_case_english.pdf
Assessment of existing soil and water conservation structures to climate stresses	Review functionality and durability of existing soil and water structures	Better understanding of vulnerability of current soil and water conservation structures to more frequent and severe flooding	1 January 2014 - 12 January 2014, North Africa, Morocco	IFAD, ICARDA	25k US Dollar (USD) (IFAD)	Final report not yet available online

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
Implementation of Lima Adaptation Knowledge Initiative (LAKI) for Andean sub region, a collaborative initiative between UNEP and the UNFCCC secretariat, an action pledge made under the NWP	To provide a systematic and credible approach to prioritizing tractable and strategic adaptation knowledge gaps that can be addressed through the repackaging and/or dissemination of data, information and knowledge.	A pilot of LAKI for the Andean sub region produced a set of strategic knowledge needs through the application of a prioritization methodology	24–26 September 2014, Andean sub region, Bogota, Colombia	UNEP, CIAT, OMS/OPS, Instituto Interamericano de Cooperación para la Agricultura (IICA) CONDESAN, CIAT, CEPAL, WWF, CATIE, IPCC, FAO		Details of the action pledge are available at < https://www3.unfccc.int/pls/apex/f?p=333:31:3398643959867755::NO::P31_ID:461 >.
Capacity building/mentoring and coaching workshops on Climate Change Adaptation Assessment and Resilience Planning	To assist Tacloban City in analysis of climate change vulnerability and risk assessment for recovery and rehabilitation planning and in updating the city's comprehensive land use plan	Address the future implications of disaster and climate risks by generating risk and vulnerability information to supplement the Comprehensive Land Use Planning process.	30/15/04/2014 - 10 November 2014, Asia-Pacific, Tacloban City, Philippines	UN-Habitat, UNDP and the city government of Tacloban City, Philippines	15000 (UN Joint Project Partners (UNDP and UNICEF))	
Workshop on the Formulation of LCCAP Using the Vulnerability and Adaptation Assessment (VAA)	To capacitate Regional Trainers of the Department of the Interior and Local Government on Vulnerability and Adaptation Assessment (VAA) for Local Climate Change Action Planning (LCCAP)	At least two (2) LGUs per region of the country (36 LGUs) have formulated their Local Climate Change Action Plans (LCCAP)	26–28/11/2014, Asia Pacific, UP-Local Government Academy Training Center, Los Banos, Laguna, Philippines	UN-Habitat and Department of the Interior and Local Government- Local Government Academy	7000 US Dollar (USD) (Department of the Interior and Local Government)	
Workshops on Vulnerability Adaptation Assessment	To capacitate the Technical Working Group of the Municipality of Guiuan on assessing vulnerability and adaptation assessment to enhance the	Address the future implications of disaster and climate risks through updating the Municipality's Ecological Profile as basis for mainstreaming climate change and	3 February 2014 - 30/06/2014, Asia-Pacific, Guiuan, Eastern Samar (Philippines)	UN-Habitat and the Municipal Government of Guiuan, Eastern Samar	15000 US Dollar (USD) (UN Joint Project Partners (UNDP and UNICEF))	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
	municipality's ecological profile for plan preparation	DRRM into its Comprehensive Development Plan (CDP)				
Climate Change Vulnerability Assessment Capacity Building Workshops - Port Vila	To capacitate the multi-stakeholder working groups for Honiara Climate Change Action Plan	Climate Change Vulnerability Assessment	Various from May 2014 - to December 2014, Asia-Pacific, Port Vila, Vanuatu	UN-Habitat, Port Vila City Council, various national government agencies, NGOs and CBOs.	25000 US Dollar (USD) (United Nations Development Account, RMIT)	
Startup workshop on climate change action planning based on concluded Vulnerability Assessment	To capacitate the multi-stakeholder working groups for the Port Vila vulnerability Assessment	Climate Change Action Plan	12 January 2014 - 5 January 2015, Asia-Pacific, Honiara, Solomon Islands	Ministry of Lands, Housing and Survey, Honiara City Council and other partners.	20000 US Dollar (USD) (United Nations Development Account, RMIT)	
Climate risk analysis and vulnerability assessments	To promote risk-informed programming and contribute to emergency preparedness.	Countries supported to conduct climate risk analysis and vulnerability assessment through engaging with the Government, schools, and local communities.		UNICEF		www.unicef.org
Vulnerability assessments of value added chains	Industries related to agriculture, forestry, fishery, etc. will be affected by climate change. Vulnerability assessments were conducted to understand vulnerable processes in target food processing value added chains in four African countries.	Two sectorial vulnerability assessment reports per country from four African countries.	9 January 2014 - 7 January 2015, Africa, Egypt, Kenya, Senegal, South Africa	UNIDO, ENCPC, KNCPC, NCPC-SA, BMN	25000 US Dollar (USD) (Ministry of Foreign Affairs, Japan)	
Impact of climate change and heat exposure on health and	To assess the impact of climate change and heat exposure on heat-	Data and information on impact on health and work productivity	9 January 2014 - 31/08/2017, Southeast Asia, Malaysia and	UNU-IIGH, National University of Malaysia, University Putra	30000 USD (UNU-IIGH)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
work productivity among agricultural workers in Malaysia and Cambodia.	related illnesses and work productivity among rice, sugarcane and cassava workers in Malaysia and Cambodia.	among agricultural workers, measures to prevent heat-related illnesses, and adaptive strategies which can be adopted to minimize workers' risks.	Cambodia	Malaysia and Royal University of Agriculture Phnom Penh.		
Skype training in Q method	The purpose of the activity was to train members of UN bodies in the use of "Q method" a research tool which will be used to gather fieldwork data as part of the Pacific Climate Change and Migration project. The research will produce local data on vulnerability and adaptation.	Those present at the training will be able to train local enumerators in the use of this innovative research tool.	12 December 2014 - , Asia and the Pacific, Kiribati, Tuvalu, Nauru	UNU-EHS, UNESCAP, ILO, UNDP	500 US Dollar (USD) (Project budget)	
1) Regional Growth and Development in Southern Africa project 2) Development under Climate Change (DUCC) project	Adaptation and mitigation	Improved capabilities to understand Climate Change and react.	1 January 2014 - 31/12/2014, Africa, For (1), activity has focused in South Africa to date. For (2), activities focuses in Zambia, Malawi, and Mozambique	UNU-WIDER	For (1), 150000 For (2), 50000 US Dollar (USD) (UNU-WIDER core with supplement from the National Treasury of South Africa.)	1) http://www.wider.unu.edu/research/TIS-programme/transformat ion/en_GB/regional-growth-development-southern-africa/ 2) http://www1.wider.unu.edu/climateresearch/
Meetings, workshops and trainings on innovative approaches on climate risk and food security analyses	* Assess how climate trends may impact on vulnerable people's food security and livelihoods. * Identify priority areas for action that support	* Develop analytical methods to assess climate risk and food security. * Arise awareness about the linkages about climate and food security	01.01.2014 - 30.11.2014, Africa, Asia and the Pacific , Africa region: Senegal * Asia: Nepal, Sri Lanka, Cambodia, Laos, and Kyrgyz	Nepal: Institute for Social and Environment Transition in Nepal (ISET- Nepal), Practical Action Nepal, International Centre for Integrated Mountain	851,076 (includes training, meetings, travels, consultation process, draft and finalization of climate and food security analyses) US Dollar	http://www.wfp.org/Cli mate-And-Food-Security-Analyses

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
	governments' adaptation planning process. * Improve programme analysis and planning tools that support climate resilience. * Enhance partners' capabilities to undertake climate and food security analyses.	analysis	Republic	Development (ICIMOD), the Nepal Research Institute, and WFP. Kyrgyz Republic: State Agency on the Environment, Protection and Forestry, Climate Change Centre of the Kyrgyz Republic, National Agency for Hydrometeorology, Tian Shan Policy Center of the American University of Central Asia. Senegal: National Agency for Civil Aviation and Meteorology of Senegal (ANACIM), Columbia University's International Research Institute for Climate and Society (IRI) and WFP. Sri Lanka: Ministry of Economic Development and WFP.	(USD) (Nepal and Senegal: Government of Sweden, Climate Change Agriculture and Food Security (CCAFS) Research programme of the Consultative Group for International Agricultural Research (CGIAR), Directorate for Development Cooperation of the Luxembourg Ministry of Foreign Affairs. Kyrgyz Republic, Cambodia, Laos, Sri Lanka: Government of Sweden.)	

Table 7

Capacity building for implementation of adaptation measures

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
Improved fisheries management for sustainable use of marine living resources in the face of changing systems	To enhance global, regional and national understand of climate change implications to fisheries and aquaculture	Technical knowledge improved on impacts, vulnerabilities and adaptation options, global fisheries and aquaculture climate change adaptation conference, national fisheries line ministries better able to participate in national climate change discussions	8 January 2009 - 31/07/2015, multiple,	FAO and Global Partnership for Climate, Fisheries and Aquaculture (PaCFA)	500000 US Dollar (USD) (Japan Government)	
Consultative process for the preparation of Voluntary Guidelines to Support the Integration of Genetic Diversity into National Climate Change Adaptation Planning	The objectives of the guidelines are to promote the use of genetic resources for food and agriculture in climate change adaptation and support their integration into national climate change adaptation planning; to support the genetic resources experts and those involved in climate change adaptation to identify and address the challenges and opportunities of genetic resources for food and agriculture in adaptation; and to promote the involvement of genetic resources stakeholders	Draft guidelines for consideration by the Commission on Genetic Resources for Food and Agriculture to support countries address the genetic resources dimension of adaptation planning.	1 January 2014 - 31/12/2014, All, All	FAO	50000 US Dollar (USD) (Sweden)	http://www.fao.org/3/a-mm660e.pdf

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
	in the national climate change adaptation planning process.					
Training material: gender, agriculture and climate change	Train the FAO regional staff on the gender, agriculture and climate nexus in the Eastern, Southern and Western Africa	Improved capacity to deal with climate and gender issues in agricultural projects	11 January 2014 - 15/11/2014, Eastern, Southern and Western Africa,	FAO	300 US Dollar (USD) (Trust fund (Finland))	http://www.fao.org/climatechange/micca/gender/
Online learning event: Gender and Climate-Smart Agriculture	To increase the knowledge of gender, agriculture and climate nexus among key development actors, and collaboration among participants	Better integration of gender aspects in agricultural development programmes and projects	30/01/2014 - 19/02/2014, ,	FAO	10 000 US Dollar (USD) (Trust fund (Finland))	http://www.fao.org/climatechange/micca/85924/
Training on communicate-based adaptation to climate in Togo	Train national agricultural extension workers and field level professionals	Improved capacity to deal with adaptation measures in agricultural projects	11 July 2014 - 17/11/2014, Western Africa, Togo	FAO	n/a	http://www.fao.org/climatechange/67624/en/
Climate Change Adaptation in the Eastern Caribbean Fisheries Sector	to understand and reduce vulnerability to CC in fisheries dependent communities and sectors	sector and regional level VA as well as adaptation strategy developed and implemented, capacity of governments and communities/sector to monitor and manage change enhanced	1 January 2016 - 31/12/2019, East Caribbean,	FAO, Myanmar MAFRD, World Fish, etc.	5.6 million US Dollar (USD) (GEF SCCF)	http://www.thegef.org/gef/project_detail?projID=5667
Climate Resilient Coastal Protection and Management	Institutional strengthening, capacity building and enhanced awareness for climate resilient coastal protection and management	1) About 25 trainers to be selected from various institutes /got department with appropriate skills and experience to be given a one week training in the guidelines for	3 December 2014 – ongoing, Asia and the Pacific, India	ADB, GEF	224000 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
		incorporating climate change adaptation, 2) senior level training courses implemented for selected central level and maritime state officials and stakeholders including the two focal states.				
Adapting coastal zone management to climate change considering ecosystem and livelihoods	Climate change adaptation measures are mainstreamed into national and sectoral development strategies, and in non-state stakeholder actions or planning	1) Training provided to increase institutional capacity of government officials to develop resilient standards, legislative instruments, norms and sectoral plans; 2) Training provided to non-state stakeholders to participate in adaptation planning and adaptation actions	31/07/2014 – ongoing, Africa, Madagascar	UNEP, GEF	727500 US Dollar (USD) (GEF)	
Integrating Community-based Adaptation into Afforestation and Reforestation Programmes in Bangladesh	Increasing community participation and involvement in forestry-based adaptation planning	1) Existing systems of participatory natural resource management applied to strengthen the climate resilience of coastal afforestation/reforestation programs; 2) A forest product benefit sharing agreement between coastal communities and national government is developed and adopted; 3) Awareness and capacity of local communities and	2 October 2014 – ongoing, Asia and the Pacific, Bangladesh	UNDP, GEF	640000 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
		government staff to promote coastal greenbelt co-management and benefit sharing improved				
Scaling up Community-Based Adaptation (CBA) in Niger	Scaling-up and implementation of measures to build rural communities' adaptive capacities	1) At least 3,300 heads of households - rural producers from the 7 prioritized municipalities, of which 80% will be women, are engaged in climate-resilient income-generating activities; 2) Farmers possess skills in entrepreneurship and promising sectors management to strengthen the profitability and sustainability of resilience activities; 3) Soil and Water Conservation/Soil Protection and Restoration techniques are diffused throughout the seven intervention municipalities	3 November 2014 – ongoing, Africa, Niger	UNDP, GEF	1694000 US Dollar (USD) (GEF)	
Integrating Climate Resilience into Agricultural and Pastoral Production for Food Security in Vulnerable Rural Areas through the Farmers Field School	Capacity building and promotion of improved agricultural practices through agro-pastoral Field Schools	Increased ecological, economic and social resilience of at least three production systems in 15 Municipalities in two agro-ecological zones, through the adoption	28/07/2014 – ongoing, Africa, Niger	FAO, GEF	2173300 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
Approach		of improved, Field School-based climate change adaptation strategies and practices				
Climate Proofing Local Development Gains in Rural and Urban Areas of Machinga and Mangochi Districts	Knowledge forms basis of detailed adaptation planning, infrastructure sighting and policy mainstreaming	1) 50% improvement in UNDP Capacity Scores, 2) Extension package updated with climate risk management information, 3) New curriculum for Diploma on forestry and 200 forestry diploma graduates (50:50 on gender), 4) 4 District level policies updated with climate risk management provisions, and 5) District Development funds supporting CC issues (directly or indirectly) increase to 3%	7 January 2014 – ongoing, Africa, Malawi	UNDP, GEF	862000 US Dollar (USD) (GEF)	
Sustainable Livelihoods and Adaptation to Climate Change (SLACC)	Planning, Service Provision and Implementation of Climate Change Adaptation	1) Strengthened awareness of adaptation and climate change processes at the local level, and 2) strengthened adaptive capacities to reduce vulnerabilities and risks to climate-induced losses.	7 July 2014 – ongoing, Asia and the Pacific, India	World Bank, GEF	6104184 US Dollar (USD) (GEF)	
Climate Risk Finance for Sustainable and Climate Resilient	Capacities to design and deploy weather index-based insurance	Residual climate risk to rural livelihoods in the states of greatest	21/04/2014 – ongoing, Africa, Sudan	UNDP, GEF	1900000 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
Rainfed Farming and Pastoral Systems	to address residual risk and promote long term adaptation	rainfall variability addressed through parametric insurance products				
Scaling up Adaptation in Zimbabwe, with a Focus on Rural Livelihoods, by Strengthening Integrated Planning Systems	Investing in building the adaptive capacity of smallholder farmers	Diversified and strengthened livelihoods and sources of income for vulnerable smallholder farmers in project area	9 April 2014 – ongoing, Africa, Zimbabwe	UNDP, GEF	3313900 US Dollar (USD) (GEF)	
Scaling up Risk Transfer Mechanisms for Climate Vulnerable Agriculture-based Communities in Mindanao	Climate risk financing and transfer	Weather Index-based Integrated Financial Package customized and applied to strengthen climate resilience in the agriculture sector.	1 August 2014 – ongoing, Asia and the Pacific, Philippines	UNDP, GEF	550000 US Dollar (USD) (GEF)	
Community Disaster Risk Management in Burundi	Resilience and response capacity of local communities strengthened	Communal services, technical staff departments integrate cost-effective adaptation investments and options into sectoral and local development planning instruments, taking into account weather variability and climate change projections	11 December 2014 – ongoing, Africa, Burundi	UNDP, GEF	1460207 US Dollar (USD) (GEF)	
Integrating Climate Resilience into Agricultural and Pastoral Production for Food Security in Vulnerable Rural Areas Through the Farmers Field School	Improving agro-pastoral practices through Field Schools (FS) in the framework	Broad adoption by agro-pastoralists of, financially sustainable, gender sensitive climate-resilient agro-pastoral practices and technologies.	31/07/2014 – ongoing, Africa, Burkina Faso	FAO, GEF	2330996 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
Approach.						
Implementing Urgent Adaptation Priorities Through Strengthened Decentralized and National Development Plans.	Diversified and strengthened livelihoods for vulnerable people in target areas	1) Technical training to communities delivered in order to implement the CCA plans sustainably; 2) Community adaptation plans implemented; 3) Weather forecast information on short timescales disseminated to farmers.	23/10/2014 – ongoing, Africa, Malawi	UNDP, GEF	2911000 US Dollar (USD) (GEF)	
Strengthening Climate Services and Early Warning Systems in the Gambia for Climate Resilient Development and Adaptation to Climate Change	Finance, equipment and human resources for a fully-fledged EWS functionality and sustainability	1) The Gambia National Meteorological Services is supported in its transition to becoming a financially sustainable Meteorological Agency; 2) Hydro-meteorological infrastructure is upgraded / installed and maintained that will cover the needs for 'optimal performance of EWS' as identified by recent needs assessment reports; 3) critical mass of skilled human resources is able to operate the Gambia Early Warning System and perform medium and long-term adaptation planning	7 August 2014 – ongoing, Africa, Gambia	UNDP, UNEP, GEF	4593950 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
		beyond the project				
Promoting Climate-resilient Development and Enhanced Adaptive Capacity to Withstand Disaster Risks in Angola's Cuvelai River Basin	Enhanced human and institutional capacity for increased sustainable rural livelihoods among vulnerable communities	Increased resilience of smallholder farmer communities in the Basin to climate-induced risks and variability.	12 November 2014 – ongoing, Africa, Angola	UNDP, GEF	2041833 US Dollar (USD) (GEF)	
Promoting Climate-resilient Development and Enhanced Adaptive Capacity to Withstand Disaster Risks in Angola's Cuvelai River Basin	Diffusion of climate resilient livelihoods strategies in the most vulnerable communities	Adaptation strategies are designed and transferred to strengthen communities' climate resilience in the 30 most vulnerable villages of 6 districts in São Tome and Principe.	18/12/2014 – ongoing, Africa, São Tome and Principe	UNDP, AfDB; GEF	1358300 US Dollar (USD) (GEF)	
Strengthening the Resilience of Women Producer Group's and Vulnerable Communities in Mali	Investments on climate resilient farming practices and income diversification for household production, crop diversity and nutrition	Innovative approach and sustainable climate resilient technologies, provided to women farmers and producers to enhance and secure the production of local livelihood systems from climate impacts	16/09/2014 – ongoing, Africa, Mali	UNDP, GEF	2672500 US Dollar (USD) (GEF)	
Building Resilience to Climate Change in the Water and Sanitation Sector	1) Increasing access to climate-resilient sanitation in flood prone peri-urban areas; 2) Improving health status and reducing water-borne diseases in flood prone peri-urban areas	1) Community mobilization and sensitization on sanitation, hygiene and climate change; 2) Installation of appropriate sanitation facilities in schools and markets in peri-urban flood prone	20/10/2014 – ongoing, Africa, Uganda	AfDB, GEF	2200000 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
		areas				
Improving Women and Children's Resilience and Capacity to Adapt to Climate Change in the Democratic Republic of the Congo.	Securing production from climate change impacts	Vulnerable households and producers provided with relevant skills and technologies from national technical services to ensure the viability of climate resilient livelihood products and preserve family production from climate impacts.	14/11/2014 – ongoing, Africa, Congo DR	UNDP, GEF	2016000 US Dollar (USD) (GEF)	
Flood Control and Climate Resilience of Agriculture Infrastructures in Oueme Valley	Capacity building and promotion of improved agricultural management systems	1) Increased adaptive capacity of agriculture officers, farmers, and water user Associations; 2) Increased awareness of local authorities, NGOs and civil society of the impacts of climate change associated challenges, including floods and needs for management	14/11/2014 – ongoing, Africa, Benin	AfDB, GEF	1725000 US Dollar (USD) (GEF)	
Enabling Climate Resilience in the Agriculture Sector in the Southwest Region of Madagascar	Strengthen Community livelihoods strategies in relation with Climate Change	1) Municipal Development Plans for the four municipalities are reviewed, updated and implemented to integrate effective management of climate risks and provide financing for resilience-building activities; 2) Women's Groups are strengthened,	14/04/2014 – ongoing, Africa, Madagascar	AfDB, GEF	2650000 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
		structured, and supported to implement promising income-generating activities that are resilient; 3) Community Council members, extension workers and farmers have the capacity to plan and adapt to climate change impacts; 4) Technical assistance in water management and improvement of the irrigated areas.				
Enhancing the Resilience of Poor Communities to Urban Flooding in Yaounde	Improve readiness and adaptive capacity of the local communities	Enhanced ownership of the proposed adaptation plans and measures by the local communities	8 April 2014 – ongoing, Africa, Cameroon	AfDB, GEF	620000 US Dollar (USD) (GEF)	
Supporting Rural Community Adaptation to Climate Change in Mountain Regions of Djibouti	Enhanced human and institutional capacity for increased sustainable rural livelihoods among vulnerable communities	1) Improved resilience to hydrological climate change risks; 2) Enhanced resilience to climate-mediated economic shocks through income generation and diversification.	8 April 2014 – ongoing, Africa, Djibouti	UNDP, GEF	573288 US Dollar (USD) (GEF)	
Building Capacity for LDCs to Participate Effectively in Intergovernmental Climate Change Processes	The role of LDCs in intergovernmental climate change negotiations	Capacity of LDCs to participate effectively in intergovernmental climate change negotiations strengthened.	8 July 2014 – ongoing, Global, Global	UNDP, UNEP, GEF	1687000 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
Upscaling Climate-Proofing in the Transport Sector in Timor-Leste: Sector Wide Approaches	Enabling adaptation through improved decision-making and knowledge development	Capacity to identify, plan, appraise, design and implement climate change adaptation measures for road infrastructure projects	6 April 2014 – ongoing, Asia and the Pacific, Timor Leste	ADB, GEF	468000 US Dollar (USD) (GEF)	
Participatory Urban Risk Mapping and Planning in Karonga Town, Malawi, and in Chokwe City and Xai-Xai City, Mozambique	To train city officials for the application of GIS in disaster risk reduction and management with the goal of integrating DRR urban planning, i.e. how to create and manage a database of risks in urban areas, how to conduct risk mapping through a participatory method in Urban areas, how to better produce risk map layouts to analyze and manage the risks and how to use the risk information for urban planning processes	City officials are trained on theoretical and practical elements of urban risk mapping Preliminary maps for urban risk related to hazards such as strong winds, floods and army worms were produced	25/02/2014 - 18/07/2014, Southern Africa, Malawi and Mozambique	UN-Habitat	30000 USD (DG ECHO (EU)- DIPECHO)	
Training on Urban Risk Reduction and Resilient Architecture in Antananarivo, Manakara and Sambava, Madagascar	To introduce urban planners and technicians to the general concepts of urban disaster risk reduction and risk mapping procedures using participatory methods and to employ information in urban planning through the elaboration of Local	Practitioners are familiar with theoretical and practical elements of urban risk and familiar with the PALoS (Local Simplified Territorial Plan)	1 August 2014 - 2 April 2014, Southern Africa, Madagascar	UN-Habitat	20000 US Dollar (USD) (DG ECHO (EU)- DIPECHO)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
	Simplified Plans, as well as to introduce pilot solutions through architecture techniques					
On-the-job training for improved and resilience construction techniques in urban areas in Madagascar	To train local builders and community leaders on improved and more resistant construction techniques on-the-job through the construction of small pilot urban DRR interventions	80 local builders and community leaders trained Construction of one (1) pedestrian bridge in Antananarivo, one (1) floodgate in Vohipeno and one (1) Local Authority House in Manakara	1 September 2014 - 22/03/2014, Southern Africa, Madagascar (Vohipeno, Manakara and Antananarivo)	UN-Habitat	50000 US Dollar (USD) (DG ECHO (EU)- DIPECHO)	
Regional Training of Trainers, Pro-poor Urban Climate Resilience in Asia Pacific: Advocacy and Training Tool for Multi-Stakeholder Capacity Development Events	To facilitate discussions with urban stakeholders and project partners so they can pursue pro-active training and communication strategies with intensive and extensive roll-out components related to challenges in urbanization and global climate change	To close the gap between abstract understanding of global climate change issues and the ability to develop and implement practical solutions to local climate change impacts	17–22/03/2014, Asia-Pacific, University of the Philippines Diliman, Quezon City	UN-Habitat, UN-ESCAP, Rockefeller Foundation, Department of the Interior and Local Government - Local Government Academy	US Dollar (USD) (8th Tranche, Development Account Project)	
Addressing climate change and environmental impacts	To improve resilience to climate change.	Climate change adaptation measures incorporated in the design and construction of schools and health facilities. Countries supported to mainstream Disaster Risk Reduction (DRR) and Climate Change		UNICEF		www.unicef.org

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
		Agreement (CCA) into programming in WASH and Health sectors and in emergency response amongst schools and communities.				
Training on climate change adaptation/vulnerability for value added chains	Climate change adaptation and vulnerability in industry are still new. National experts needed to be trained produce adaptation measures option reports including vulnerability assessments. This capacity building was targeted to help vulnerability assessments and the selection of adaptation measures.	The capacity of national consultants has improved. A guideline for the vulnerability assessment of value added chains developed.	1 March 2014 - 31/12/2014, Africa, Egypt, Dakar, Kenya	UNIDO, ENCPC, KNCPC, NCPC-SA, BMN	25000 US Dollar (USD) (Ministry of Foreign Affairs, Japan)	
Assisting Least Developed Countries with Country Driven Processes to Advance National Adaptation Plans (NAPs)	To facilitate effective medium- to long-term planning for adaptation to climate change in LDCs.	Contributing towards Least Developed Countries being capacitated to advance medium- to long-term adaptation planning processes in the context of their national development strategies and budgets	10 January 2013 - 12 January 2015, , Niger, Mauritania, Djibouti	UNDP, UNITAR, UNEP, GIZ	300000 USD (GEF)	http://www.undp-alm.org/
MCII and GIZ Workshop on: Innovative insurance solutions for climate	1. Comparative analysis of existing cases and lessons learned in	1. Draft a toolkit for policymakers consisting of guidelines on how to	5 December 2014 - 13/05/2014, , Bonn, Germany	MCII, GIZ, CARE, German Watch, Climate Analytics, ARC, WFP, AXA,		http://www.climate-insurance.org/front_content.php?idart=3657

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
change: Creating a toolkit on how to integrate insurance into a country-driven climate risk management approach	implementing distinct insurance approaches (indemnity products, index-based weather insurance, generic vs. specific insurance) in emerging markets and developing countries to create a stronger evidence base on how to link insurance into a wider risk management strategy. 2. Devise a toolkit with critical steps that are needed to integrate insurance approaches into national risk management planning taking note of existing challenges and limitations and ways to overcome them. 3. Examine the different roles of the relevant stakeholders and how they can work together to support a comprehensive climate risk management strategy that includes insurance and to determine possible institutional arrangements (actors, partnerships) that can be considered to effectively integrate insurance tools into a wider risk management	integrate insurance into a comprehensive national climate risk management approach. 2. Provide guidance to climate negotiators at the Global Platform for Disaster Risk Reduction in May, the Climate Talks in June, and COP 20 on climate risk insurance:		Allianz, RESULTS UK, International Finance Corporation, International Institute for Climate and Society		

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
	framework with possible case studies and examples. 4. Explore innovative insurance solutions for different climate change scenarios including: slow-onset events, global average temperature rise above 4°C by the end of this century, etc. 5. Offer recommendations to climate negotiators trying to develop and implement a strategic adaptation plan that reduces climate risk and includes insurance.					
Identifying and addressing boundaries between preemptive adaptation planning and residual climate risk management	Discuss experiences and examples of current preemptive and residual risk management approaches like planning, risk reduction, risk transfer like insurance, regional platforms, etc. Determine what is currently working and works poorly under each approach. Discuss how to holistically assess preemptive and residual risk management approaches	First set of discussions on how do countries think about preemptive planning versus residual risk management: do we think of these two as a continuum or as separate from one another? Can ARC serve as an example to make this distinction?	19/09/2014 - 19/09/2014, Bonn, Germany	MCII, UNFCCC, ARC, Climate Change Science Institute, Allianz, College of the Atlantic		

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
1) Regional Growth and Development in Southern Africa project 2) Development under Climate Change (DUCC) project	Adaptation and mitigation	Improved capabilities to understand Climate Change and react.	1 January 2014 - 31/12/2014, Africa, For (1), activity has focused in South Africa to date. For (2), activities focuses in Zambia, Malawi, and Mozambique	UNU-WIDER	For (1), 150000 For (2), 50000 US Dollar (USD) (UNU-WIDER core with supplement from the National Treasury of South Africa.)	1) http://www.wider.unu.edu/research/TIS-programme/transformation/en_GB/regional-growth-development-southern-africa/ 2) http://www1.wider.unu.edu/climateresearch/
Global environmental change an human health: Extreme events and urbanization in the Asia Pacific region	Capacity-building on issues related to climate change, extreme events and urbanization among young scientists and researchers from the Asia Pacific region.	A video montage, a special issue of the Asia Pacific Journal of Public Health and a UNU-IIGH policy brief.	7 December 2012 - 31/08/2015, Asia Pacific, Malaysia, Canada, Australia, India, China, Indonesia, Thailand, Philippines, Vietnam, Lao PDR and Cambodia	UNU-IIGH, UNU-INWEH, Charles Sturt University, Wetlands International, Chinese Academy of Sciences and Asia-Pacific Network for Global Change Research (APN)	55495 USD (Asia Pacific Network for Global Change Research (APN))	
Diploma programme in international gender studies	To improve fellows' understanding of the role of gender in unsustainable/sustainable development and natural resource management, with particular focus on climate change.	Increased capacity in implementation of gendered adaptation measures	(17–28/03/2014), Sub Saharan Africa, Asia, Occupied Palestinian Territories, Uganda, Malawi, Mozambique	UNU-GEST	463.267 US Dollar (USD) (Government of Iceland (Ministry of Foreign Affairs, Iceland))	gest.hi.is
R4 Rural Resilience Initiative in Ethiopia: Financial Education to Farmers	Enhance the capacity of farmers participating in the R4 Initiative in understanding agricultural index insurance and make informed choices in the programme	25,000 Farmers empowered in making decisions on participating to the R4 initiative. Awareness creation for the establishment of a viable agricultural index insurance	1 January 2014 - 30/06/2014, Africa , Ethiopia	WFP, Oxfam America, REST, ORDA	250000 US Dollar (USD) (Norway)	https://www.wfp.org/climate-change/r4-rural-resilience-initiative

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
		market.				
R4 Rural Resilience Initiative in Senegal: Financial Education to Farmers	Enhance the capacity of farmers participating in the R4 Initiative in understanding agricultural index insurance and make informed choices in the programme	Farmers empowered in making decisions on participating to the R4 initiative. Awareness creation for the establishment of a viable agricultural index insurance market.	1–6 January 2014, Africa , Senegal	WFP, Oxfam America.	60000 US Dollar (USD) (USAID)	https://www.wfp.org/climate-change/r4-rural-resilience-initiative
R4 Rural Resilience Initiative in Senegal micro-insurance trainings to local implementation partners	Enhance the capacity of local implementation partners in the R4 Initiative in implementing agricultural index insurance programmes	Local partners trained and able to implement weather index insurance activities	1 January 2014 - 30/06/2014, Africa , Senegal	WFP, Oxfam America	15000 US Dollar (USD) (USAID)	https://www.wfp.org/climate-change/r4-rural-resilience-initiative
R4 Rural Resilience Initiative in Ethiopia: micro-insurance trainings to local implementation partners	Enhance the capacity of local implementation partners in the R4 Initiative in implementing agricultural index insurance programmes	Local partners trained and able to implement weather index insurance activities	1 January 2014 - 30/06/2014, Africa , Ethiopia	WFP, Oxfam America, International Research Institute (IRI), REST, ORDA	20000 US Dollar (USD) (Norway)	https://www.wfp.org/climate-change/r4-rural-resilience-initiative
Livelihood Early Assessment and Protection (LEAP) platform Training of national government staff in utilization of the platform	Enhance the capacity of national agencies to respond to analyse food security trends and improve preparedness	National and local agency staff trained in the use of the LEAP platform	1 January 2014 – ongoing, Africa , Ethiopia	WFP, Disaster Risk Management and Food Security Sector of the Ministry of Agriculture, Regional Bureaus of Agriculture in Ethiopia	50000 US Dollar (USD) (WFP Ethiopia Country Office)	http://www.wfp.org/disaster-risk-reduction/leap

Table 8

Assessment for implementation of mitigation options

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
Pilot Testing the GBEP Sustainability Indicators for Bioenergy in Indonesia - Indicator 8: Land Use and Land Use Change related to Bioenergy Feedstock Production	Overall target: To enable the country to monitor the sustainability of its bioenergy sector (main focus of the analysis: Palm Oil Biodiesel); Specific target: to enable the country to understand Land Use Change dynamics which interested bioenergy feedstock production (i.e. oil palm) and draft strategies for emission reduction and nationally appropriated mitigation actions	The project should develop the capacity to measure emissions reductions due to the host countries' bioenergy sector and to enhance these reductions by improving bioenergy policy. Emission allowances could therefore be indirectly created and/or enhanced by the project. The data collected at the national level may also be of use in any future monitoring, reporting and verification scheme for supported NAMAs.	1 January 2014 - 30/09/2014, South-East Asia, Jakarta, Indonesia	FAO, Indonesian Soil Research Institute	The project involved the assessment of 24 indicators in two countries to be implemented over a 36 months period. The total cost of the whole project was around 1 million euro Euro (EUR) (International Climate Initiative - Federal Ministry of Environment, Government of Germany)	http://www.fao.org/3/a-i4059e/index.html
MICCA pilot projects in Kenya and Tanzania	To test and demonstrate how smallholder farmers can contribute to climate change mitigation while improving their food production, resilience and livelihoods.	CSA menus of practices developed and implemented, GHG fluxes measured, soil and vegetation baseline data collected, socio-economic baseline data collected, yield data collected for main crops, land use changes analyzed, barriers/incentives	9 January 2011 - 30/09/2014, East Africa, Kenya, United Republic of Tanzania	FAO, CARE, EADD, ICRAF	2040000 US Dollar (USD) (Government of Finland to FAO)	http://www.fao.org/climatechange/micca/pilots/en/

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
		analyzed, benefits assessed, and up-scaling strategy identified.				
MICCA adoption studies	To analyze the determinants and benefits of CSA adoption to inform up-scaling, extension, policy and investments	Adoption studies	6 January 2014 - 31/12/2014, East Africa, Kenya, United Republic of Tanzania	FAO	20000 US Dollar (USD) (Government of Finland to FAO)	http://www.fao.org/3/a-i4396e.pdf
Training of agriculture and climate change on GHG impact assessments of the agricultural sector and develop their capacity to use the EX-ACT tool	Build the capacity of around 30 practitioners on ex-ante GHG assessment and the EX-ACT tool	Capacity for evidence-based planning, implementing and financing Climate-Smart Agriculture is built in partner countries	1 January 2014 - 31/12/2014, Africa Asia, Malawi Zambia Viet Nam	FAO, Ministry of Agriculture and Food Security, Malawi, Ministry of Agriculture and Rural Development, Viet Nam, Ministry of Agriculture and Livestock, Zambia	40000 USD (European Commission)	www.fao.org/tc/exact/ex-act-home/en
Training of agriculture and climate change on GHG impact assessments of the agricultural sector and develop their capacity to use the EX-ACT tool	Build the capacity of around 204 practitioners on ex-ante GHG assessment and the EX-ACT tool	Capacity for the targeted design of national agricultural policies and multinational donor funded agricultural development projects	1 January 2014 - 31/12/2014, Africa Asia Latin America North America Europa, Brazil, Vietnam, Zimbabwe, Niger, Bosnia, Albania, Russia, Tajikistan, Kazakhstan	>FAO (TCI) >World Bank offices in Washington, Moscow, Brasilia, Albania, Bosnia, Kazakhstan, Tajikistan >Ministries of Agriculture in Vietnam >Interstate organizations in West Africa (CILLS) > Civil society organizations from Zimbabwe, Mozambique, Malawi, Zambia	150000 (World Bank, European Commission, One UN Fund, Civil Society Organizations)	www.fao.org/tc/exact/ex-act-home/en

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
Promotion of Clean and Green Cities in China Through International Cooperation	Key typologies of cities	Main types of cities, and their different challenges and efforts to address sustainability identified.	25/02/2014 – ongoing, Asia and the Pacific, China	World Bank, GEF	550000 US Dollar (USD) (GEF)	
Nationally Appropriate Mitigation Actions in the Energy Generation and End-Use Sectors of Peru	Mitigation options for the energy generation and end-use sectors	Prioritized mitigation options and MACCs are identified, NAMA Design Documents are developed in the selected sub-sectors (new renewable energy sources both connected and non-connected to the grid and energy efficiency), and 4 NAMA activities are ready for implementation	4 October 2014 – ongoing, Latin America and the Caribbean, Peru	UNDP, GEF	590000 US Dollar (USD) (GEF)	
Nationally Appropriate Mitigation Actions (NAMAs) for Low-carbon End-use Sectors in Azerbaijan	Assessment of GHG emission mitigation potentials and target setting	Assessment of GHG emission mitigation potentials and target setting completed	9 October 2014 – ongoing, Eastern Europe, Azerbaijan	UNDP, GEF	301950 US Dollar (USD) (GEF)	
Quantifying mitigation benefits of IFAD's Adaptation for Smallholder Agriculture Programme (ASAP)	Integrating a set of climate change mitigation indicators in the ex-ante appraisal of projects	Better informed agricultural investment planning	7 January 2014 - 2 January 2015, desk review, Desk review	IFAD, CCAFS, FAO	50k US Dollar (USD) (CCAFS)	Link to the final report not yet available

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
Consultation on Transportation NAMA in Lao PDR	Raising awareness on developing NAMAs in Lao PDR	Broaden participation in the NAMA development process	22–25/04/2014, Asia - Pacific, Lao PDR	JICA, UN-Habitat	10000 US Dollar (USD) (JICA, UN-Habitat)	
Assessment of GHG reduction in value added chains	The reduction of GHGs is getting important even in developing countries. Two value added chains were assessed to identify processes can reduce GHGs in four African countries.	Two sectorial mitigation assessment reports per country from four African countries.	1 March 2014 - 31/12/2014, Africa, Egypt, Kenya, Senegal, South Africa	UNIDO, ENCPC, KNCP, NCPC-SA, BMN	25000 US Dollar (USD) (Ministry of Foreign Affairs, Japan)	
National Training programmes on Energy Efficiency	The training programs for Energy Management systems, and end use systems optimization (pumps, motors, fans, steam) are provided to different stakeholders ranging from plant managers to technical specialists and policymakers	Creating competent workforces which are enabled to adopt measures to continuously improve energy performance, reducing their energy use.	1 January 2014 - 31/12/2014, Global, Selected countries: Burkina Faso, Ecuador, Egypt, Filipinas, India, Indonesia, Iran, Malaysia, Moldavia, Russia, Thailand, Turkey, Vietnam, Ukraine, Azerbaijan, Chad, China, Macedonia, Maldives, Pakistan, South Africa, Tunisia, Colombia	UNIDO, National executing agencies in all countries	5000000 US Dollar (USD) (Technical cooperation grants, such as the Global Environment Facility, UK DFID, etc.)	http://www.unido.org/en/what-we-do/environment/energy-access-for-productive-uses/industrial-energy-efficiency/assistance.html
Stakeholder Consultation Workshop under the PPG phase of project entitled "Organic waste streams for industrial RE applications in India" (GEF ID 5087)	Introduction of technology application possibilities and recommended financial models. Furthermore, another objective was to assess the willingness of the industry owners from	Refined scope of GEF FSP activities	25/02/2014 - 25/02/2014, SAR, Chandigarh, India	Enhanced Wapp Systems (India) Pvt. Ltd., PEC, University of Technology, HPMC, Himalayan Vege Fruits, Poultry federation of India, Nuova Proteins Pvt Lt. (Techno Feeds India),	2000 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
	selected sectors			Dhanda Poultry Farm, Nitesh breeding farm, Shree Balaji Feeds, Vikas Poultry, White Agro Food Poultry Farm, Poultry farm developer, Poultry Farm, GPEL, Mabagas Corporative, Haryana Gau Sewa Aayog, TERI, CII		
Stakeholder Consultation Workshop under the PPG phase of project entitled "Organic waste streams for industrial RE applications in India" (GEF ID 5087)	Gauging the views of stakeholders on technology recommendations and proposed financial models	Refined scope of GEF FSP activities	3 April 2014 - 3 April 2014, SAR, Belgaum, India	Mailhem Engineers Pvt. Ltd., Scalene Green Energy, Ugar Sugars Ltd, Spectrum Renewable Energy Ltd, Godavari Refineries Ltd, Prabhulingeshwar Sugars, Shree Renuka Sugars, Shivsagar Sugars, Athani Sugar Limited, Enprotech Solutions, Gokak Sugars Ltd, Kwaliti Animal Feeds, Kwaliti Farms, Halsidhanath SSKL, S. Nijalingappa Sugar Institute, Shree Renuka Sugar Ltd, Poultry farmer, Bilagi Sugars Bagalkot, HSSKN, Dhoothaganga Sugars (DKSSK), R.S.S.K N Timmapur, S.N.S.I, Hala Sugar Ltd, TERI, CII	2000	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
Validation workshop under the PPG phase of the project entitled "Organic waste streams for industrial RE applications in India" (GEF ID 5087)	Sharing with the stakeholders a). State-of-the-art technologies based on anaerobic digestion (AD) for each industrial sector and b). Proposed financial model to facilitate adoption of such technologies by industries	Validated scope of proposed FSP by key stakeholders	29/05/2014 - 29/05/2014, SAR, New Delhi, India	MNRE, IREDA, UPNEDA, HAREDA, Punjab Agricultural University, Mother Dairy, Indian Biogas Association, Forever body care industries, Shamli Distillery, Shri Krishna Gaushala, All India Food Processing Association, Indian Sugar Mills Association, Prakash Industries Limited, CII, TERI	3000 US Dollar (USD) (GEF)	
Health co-benefits from the introduction of mass rapid transit (MRT) as climate change mitigation in Greater Kuala Lumpur.	To estimate the potential reduction in air pollution and increased health co-benefits from the introduction of the MRT system in Kuala Lumpur.	A quantitative tool to assess how climate change mitigation through a mass public transport system can generate health co-benefits through reduced air pollution reduced traffic accidents and increased physical activity.	2 January 2014 - 2 January 2017, Southeast Asia, Kuala Lumpur, Malaysia	UNU-IIGH and Centre for Diet and Activity Research (CEDAR), University of Cambridge	5000 USD (UNU-IIGH and National University of Malaysia)	
1) Regional Growth and Development in Southern Africa project 2) Development under Climate Change (DUCC) project	Adaptation and mitigation	Improved capabilities to understand Climate Change and react.	1 January 2014 - 31/12/2014, Africa, For (1), activity has focused in South Africa to date. For (2), activities focuses in Zambia, Malawi, and Mozambique	UNU-WIDER	For (1), 150000 For (2), 50000 US Dollar (USD) (UNU-WIDER core with supplement from the National Treasury of South Africa.)	1) http://www.wider.unu.edu/research/TIS-programme/transformation/en_GB/regional-growth-development-southern-africa/ 2) http://www1.wider.unu.edu/climateresearch/

International Science Policy - Workshop	To improve understanding of the importance and economic benefits of the Eco-DRR approach including health, food and water security and biodiversity.	To improve ecosystem approaches tools, especially in the economic domain.	16–18/06/2014, Southeast Asia, Indonesia	UNU-EHS, PEDRR, UNEP, LIPI, Centre for Natural Resources and Development (CNRD), The Nature Conservation (TNC), DAAD, UNORCHID	40 USD (UNU-EHS, UNEP, LIPI, CNRD and TNC)	

Table 9

Research and systematic observation, including meteorological, hydrological and climatological services

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
International Expert meeting in coping with Drought	Exchange on the state of art and knowledge gaps on drought information systems (indices, monitoring, alert, data management, risk management)	Establish a community of practice (research-institutions-policy) on drought management to develop solutions	19–21/11/2014, LAC, Santiago, Chile	UNESCO, ITT/UCV, IRI	180000 US Dollar (USD) (Flandes Cooperation, Euro lima UE, IRI, CAZALAC, FAO)	http://www.cazalac.org/mwar_la/c/index.php?id=68
Adaptation of Small-scale Agriculture (LASAP)	Enhanced adaptive capacity to support agricultural production in the context of climate change	1) Monitoring system in place to disseminate timely climate information related to agriculture; 2) Climate and agro meteorological information included in agricultural information system	20/02/2014 – ongoing, Africa, Lesotho	IFAD, World Bank, GEF	1068572 US Dollar (USD) (GEF)	
Integrating Community-based Adaptation into Afforestation and Reforestation Programmes in Bangladesh	Improving Early Warning and disaster preparedness of communities in all afforestation and reforestation sites	Strengthened network capacity for effective early warning communications for extreme climate events in coastal afforestation sites	2 October 2014 – ongoing, Asia and the Pacific, Bangladesh	UNDP, GEF	1500000 US Dollar (USD) (GEF)	
Climate Risk Finance for Sustainable and Climate Resilient Rainfed Farming and Pastoral Systems	Institutional framework and capacity for sustainable climate observation and early warning	Institutional and technical capacity for climate observation, forecasting and early warning strengthened at national and local levels	21/04/2014 – ongoing, Africa, Sudan	UNDP, GEF	1550000 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
Scaling up Adaptation in Zimbabwe, with a Focus on Rural Livelihoods, by Strengthening Integrated Planning Systems	Investing in building the adaptive capacity of smallholder farmers	Tailored climate early warning system developed to cover at least 70% of farmers in target districts and scaled up.	9 April 2014 – ongoing, Africa, Zimbabwe	UNDP, GEF	269400 US Dollar (USD) (GEF)	
Adapting Natural Resource Dependent Livelihoods to Climate induced Risks in Selected Landscapes in Burkina Faso	Knowledge support platform on climate change impacts and risks	Increased knowledge and understanding of climate variability and change-induced risks in the project targeted areas generated by a customized geo-based agro-ecological and hydrological information system.	29/04/2014 – ongoing, Africa, Burkina Faso	UNDP, GEF	1034000 US Dollar (USD) (GEF)	
Enhancing Adaptive Capacity and Resilience to Climate Change in the Agriculture Sector in Comoros	Production and dissemination of agrometeorological information for informed decision making in the agricultural sector	1) Weather conditions are monitored at project sites and information needs identified; 2) Comoros meteorological service has the capacity to use climate information to support agricultural sector planning at national and local levels; 3) A basic agro-meteorological system is designed, institutionalized, and implemented to support key stakeholders in the agriculture sector	24/03/2014 – ongoing, Africa, Comoros	UNDP, GEF	1602900 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
Community Disaster Risk Management in Burundi	Strengthening communities preparedness in face to climate related disaster risks	A community-based early warning system established and operationalized as a platform for climate-related disaster risk reduction and for guiding the implementation of climate change adaptation activities	11 December 2014 – ongoing, Africa, Burundi	UNDP, GEF	1839450 US Dollar (USD) (GEF)	
Implementing Adaptation Technologies in Fragile Ecosystems of Djibouti's Central Plains	Protection against water-related climate change hazards	A hydrogeological model of current and projected water resources availability	3 November 2014 – ongoing, Africa, Djibouti	UNEP, GEF	626000 US Dollar (USD) (GEF)	
Adaptation to Climate Change in the Coastal Zone in Vanuatu	Information and early warning systems on coastal hazards	1) Automated system for real time monitoring of climate-related hazards such as coastal flooding, storm surges, sea-level rise designed, installed and maintained; trends in these climate impacts analyzed over time; 2) Timely release of early warnings against coastal flooding and storm surges through various public media, e.g., radio, internet, TV stations; 3) Capacity of staff in the operation and maintenance of AWS and in the analysis of	26/09/2014 – ongoing, Asia and the Pacific, Vanuatu	UNDP, GEF	1000000 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
		data strengthened				
Strengthening Climate Services and Early Warning Systems in the Gambia for Climate Resilient Development and Adaptation to Climate Change	Climate information for development	Efficient and effective use of hydro-meteorological and environmental information for making early warnings and long-term development plans	7 August 2014 – ongoing, Africa, Gambia	UNDP, UNEP, GEF	3026050 US Dollar (USD) (GEF)	
Promoting Climate-resilient Development and Enhanced Adaptive Capacity to Withstand Disaster Risks in Angola's Cuvelai River Basin	Transfer of appropriate technologies and related capacity building for climate and environmental monitoring infrastructure	Enhanced capacity of national and local hydro-meteorological services, civil authorities and environmental institutions to monitor extreme weather and climate change in the Cuvelai Basin.	12 November 2014 – ongoing, Africa, Angola	UNDP, GEF	3953333 US Dollar (USD) (GEF)	
Strengthening Climate Information and Early Warning Systems in Cambodia to Support Climate Resilient Development and Adaptation to Climate Change	Capacity to synthesize/model the climate and environmental data	Increased institutional capacity to assimilate and forecast weather, hydrological, climate and environmental information	23/10/2014 – ongoing, Asia and the Pacific, Cambodia	UNDP, GEF	912962 US Dollar (USD) (GEF)	
Community Resilience to Climate and Disaster Risk in Solomon Islands Project	Strengthening of climate and disaster risk information and early warning systems	Capacity of Government agencies and partners to generate and use data, information and modeling tools to support planning, implementation and monitoring of CCA and DRR strategies	2 July 2014 – ongoing, Asia and the Pacific, Solomon Islands	World Bank, GEF	681000 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
		and actions is enhanced				
Strengthening Low Carbon Energy Island Strategies	Establish a monitoring and assessment system to create an energy use baseline and to track changes in energy use in buildings	A functioning monitoring and assessment system is in place to measure effectiveness of project interventions	18/08/2014 – ongoing, Asia and the Pacific, Maldives	UNEP, GEF	245888 US Dollar (USD) (GEF)	
Conserving, Enhancing and Managing Carbon Stocks and Biodiversity in The Chernobyl Exclusion Zone	Improved monitoring and research for large areas of forests, wetlands, and other habitat types and associated carbon benefits in the ChEZ.	1. The REPC established and fully functional; 2. Comprehensive assessment of the current state and trends of natural ecosystems in the ChEZ; 3. Assessment of the status of ecosystem services and their values and enhancement of carbon benefits in terms meeting LLUCF targets in the ChEZ.	12 December 2014 – ongoing, Eastern Europe, Ukraine	UNEP, GEF	1621000 US Dollar (USD) (GEF)	
MULTIPLYING ENVIRONMENTAL AND CARBON BENEFITS IN THE HIGH ANDEAN ECOSYSTEMS OF ECUADOR AND PERU	Knowledge base expanded on high Andean ecosystem dynamics and the effects that GEC have on biodiversity and carbon stocks and on the multiple environmental and social benefits they provide.	Protocols for monitoring biodiversity, carbon stocks and key ecosystem dynamics adapted, validated and applied Science-based studies on ecosystem dynamics along environmental and degradation gradients	19/03/2014 – ongoing, Latin America and the Caribbean, Peru, Ecuador	UNEP, GEF	1201506 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
		<p>and synergies between biodiversity, carbon and SLM/SFM practices.</p> <p>Monitoring system established to account carbon, biodiversity and changes on environmental services.</p> <p>Assessments or INRM tools to support on-going efforts on conservation and climate change strategies at different scales.</p> <p>Policy decision support systems/tools based upon new knowledge, environmental scenarios & economic valuations developed and adopted by stakeholders at intervention sites.</p> <p>Innovative agroforestry system proposed and scientifically validated.</p> <p>Land restoration system proposed and scientifically validated.</p>				

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
Environmental Services Project	Payment for environmental services established and enhanced institutional capacity to account for GHG emission reduction and increase carbon stocks	Monitoring systems designed and functioning, national forest carbon monitoring systems in place	19/03/2014 – ongoing, Eastern Europe, Albania	World Bank, GEF	304068 US Dollar (USD) (GEF)	
Recovery and protection of climate and biodiversity services in the Southeast Atlantic Forest Corridor of Brazil	Capacity Building for carbon stocks and biodiversity management and monitoring.	Measurement models adopted, capacity for continuous updating of databases established and Measurement and Evaluation System operational	31/07/2014 – ongoing, Latin America and the Caribbean, Brazil	IADB, GEF	4828710 US Dollar (USD) (GEF)	
Energy Efficiency and Renewable Energy in Social Housing in Argentina	. Monitoring and Evaluation	Monitoring of pilot projects Definition and validation of local construction standards for social housing Strengthened technical local monitoring capacity	3 May 2014 – ongoing, Latin America and the Caribbean, Argentina	IADB, GEF	1979094 US Dollar (USD) (GEF)	
The fourth session of the structured expert dialogue on the 2013-2015 review (SED4)	To make a contribution to the assessment of the adequacy of the long-term global goal and the overall progress made towards achieving it, to the extent possible, on the basis of the Synthesis Report of the Fifth	Contribution to the assessment of the adequacy of the long-term global goal and the overall progress made towards achieving it, on the basis of the Synthesis Report of the Fifth Assessment Report (AR5) of the	12 February 2014 - 12 March 2014, All regions/global, Bonn, Germany	UNFCCC	12521 Dollar (USD)	http://unfccc.int/7521

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
	Assessment Report (AR5) of the Intergovernmental Panel on Climate Change (IPCC) and other sources of information	Intergovernmental Panel on Climate Change (IPCC) and other sources of information				
Third meeting of the structured expert dialogue (SED3)	To make a contribution to the assessment of the adequacy of the long-term global goal and the overall progress made towards achieving it, to the extent possible, on the basis of the IPCC AR5 WGII and the AR5 WGIII.	Contribution to the assessment of the adequacy of the long-term global goal and the overall progress made towards achieving it, on the basis of the IPCC AR5 WGII and the AR5 WGIII	6 June 2014 - 6 August 2014, All regions/global, Bonn, Germany	UNFCCC	29946 Dollar (USD)	http://unfccc.int/8622
The implications of climatic changes on food and water-borne diseases in Malaysia.	To forecast and project the impact of climatic changes on food and water-borne diseases in Malaysia.	A predictive tool to estimate increased health burden from food and water-borne diseases in Malaysia due to altered temperature and precipitation patterns as a result of future climatic changes.	1 September 2012 - 31/8/2015, Southeast Asia, Malaysia	UNU-IIGH, National Hydraulic Research Institute of Malaysia (NAHRIM) and Ministry of Health Malaysia.	5000 USD (UNU-IIGH, Ministry of Education Malaysia and National University of Malaysia)	
Mapping out climate and environmental factor influence on Malaria distribution in Sabah, Malaysia.	To develop a malaria distribution map and a multiple linear regression malaria susceptibility model using remote sensing data and GIS techniques.	Malaria susceptibility index and malaria susceptibility zone for Sabah, Malaysia.	9 January 2014 - 31/08/2017, Southeast Asia, Malaysia	UNU-IIGH, National University of Malaysia, University Putra Malaysia and Ministry of Health Malaysia	5000 USD (UNU-IIGH, Ministry of Education Malaysia and National University of Malaysia)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
1) Regional Growth and Development in Southern Africa project 2) Development under Climate Change (DUCC) project	Adaptation and mitigation	Improved capabilities to understand Climate Change and react.	1 January 2014 - 31/12/2014, Africa, For (1), activity has focused in South Africa to date. For (2), activities focuses in Zambia, Malawi, and Mozambique	UNU-WIDER	For (1), 150000 For (2), 50000 US Dollar (USD) (UNU-WIDER core with supplement from the National Treasury of South Africa.)	1) http://www.wider.unu.edu/research/TIS-programme/transformation/en_GB/regional-growth-development-southern-africa/ 2) http://www1.wider.unu.edu/climateresearch/
R4 Rural Resilience Initiative in Senegal establishment and maintenance of weather indexes	Implementation of drought index insurance in selected areas of the country	Drought indexes for agricultural insurance established and refined	1 January 2014 – ongoing, Africa , Senegal	WFP, International Research Institute (IRI), Oxfam America, REST, ORDA	102900 US Dollar (USD) (USAID)	https://www.wfp.org/climate-change/r4-rural-resilience-initiative
R4 Rural Resilience Initiative in Ethiopia: establishment and maintenance of weather indexes	Implementation of drought index insurance in selected areas of the country	Drought indexes for agricultural insurance established and refined	1 January 2014 – ongoing, Africa , Ethiopia	WFP, International Research Institute (IRI), Oxfam America, REST, ORDA	100,000+ US Dollar (USD) (Norway)	https://www.wfp.org/climate-change/r4-rural-resilience-initiative
Livelihood Early Assessment and Protection (LEAP) platform	Climate Services to improve emergency response to food security crises in Ethiopia	Provide an assessment of food insecurity hotspots in Ethiopia based on the Water Requirement Satisfaction Index (WRSI)	1 January 2014 – ongoing, Africa , Ethiopia	WFP, Disaster Risk Management and Food Security Sector of the Ministry of Agriculture.	50,000+ US Dollar (USD) (WFP Ethiopia Country Office, GFCS Funds)	http://www.wfp.org/disaster-risk-reduction/leap
Livelihood Earth Assessment and Protection (LEAP) platform: Forecast Services integration	Integration of seasonal forecast within the LEAP platform to improve food security estimation.	Increase the accuracy of climate services to quantify food security levels in Ethiopia	1 January 2014 – ongoing, Africa , Ethiopia	WFP, Disaster Risk Management and Food Security Sector of the Ministry of Agriculture, ENEA, University of Cantabria, UK MET, Meteo Swiss.	80000 US Dollar (USD) (European Commission 7th Framework Programme, GFCS)	http://www.euporias.eu/

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
International Conference and Early Career Scientists School on Environmental Observations, Modeling and Information Systems Enviromis-2014	The conference and school are devoted to the state-of-the-art and usage of modern environmental observation techniques, computational and information technologies for assessment, modeling and mitigation of Northern Eurasia environment variations under natural and anthropogenic pressures including those caused by the Global Climate Change. It is aimed at filling the gap between basic science achievements and their practical applications in this domain.	Younger generation of scientists was trained in particular to fill a generation gap occurring in Environmental Sciences in the New Independent States of the former USSR. To mitigate its consequences and to facilitate professional skill growth for young scientists, a number of invited lectures were devoted to the state-of-the-art in the environmental research were presented by leading specialists, which will allow young participants to get first-hand information on hot topics in Earth System Sciences and attract them professionally to this very important research area.	28/06/2014 - 5 July 2014, Asia, Tomsk, Russian Federation	Siberian Centre for Environmental Research and Training, the Northern Eurasia Earth Science Partnership Initiative, Siberian Integrated Regional Study, PEEEX project, Siberian-French Center of Education and Science, WMO		http://www.scert.ru/en/conferences/enviromis2014/
Asian Greenhouse Gas meeting	The workshop aimed at encouraging mutual cooperation among GAW stations by sharing experiences on science, technology, and policy in greenhouse gases monitoring, and	Cooperation in the region has substantially improved. Under coordination of KMA the regular Asian GHG Newsletter is produced.	22–24/20/2014, Asia and Pacific, Seoul, Republic of Korea	Korea Meteorological Agency, WMO		

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
	making regional human network in order to contribute the GAW program.					
Summer School 'Online Integrated Modeling of Meteorological and Chemical Transport Processes'	To train students and researchers from the NWP, air quality and climate communities, on how to apply integrated modeling of both meteorological and chemical processes to understand the links between atmospheric composition, weather and climate.	Improved capacity to utilize integrated modeling for atmospheric research	6 July 2014 - 11 July 2014, Europe, University of Aveiro, Portugal	the COST Action ES1004, departamentos de Ambiente e Ordenamento of University of Aveiro, WMO		http://aveirosummerchool2014.web.ua.pt/

Table 10

Development and transfer of technology

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
Adaptation of Small-scale Agriculture (LASAP)	Reduced vulnerability of agricultural production	Innovative practices, technologies and infrastructure aiming to increase the efficiency and resilience to climate change of smallholder production promoted through a demand-led approach	20/02/2014 – ongoing, Africa, Lesotho	IFAD, World Bank, GEF	3054286 US Dollar (USD) (GEF)	
Adapting coastal zone management to climate change considering ecosystem and livelihoods	Restored and protected coastal zone	Technologies for protection and rehabilitation of coastal productive assets are demonstrated adjacent to restored ecosystems	31/07/2014 – ongoing, Africa, Madagascar	UNEP, GEF	3684220 US Dollar (USD) (GEF)	
Solomon Islands Water Sector Adaptation Project (SIWSAP)	Investments in cost-effective and adaptive water management interventions and technology transfer	1) Strategic investments in water infrastructure in target areas, 2) Compilation of best practices on applicable technologies for dissemination and replication by project partners with support from the project	3 November 2014 – ongoing, Asia and the Pacific, Solomon Islands	UNDP, GEF	3112359 US Dollar (USD) (GEF)	
Strengthening Resilience to Climate Change through Integrated Agricultural and Pastoral Management in the Sahelian zone	1) Capacity building and up-scaling of adaptation technologies and best practices for small agropastoralists, and 2) Livelihoods of targeted agro-pastoralists improved.	Agro-pastoralists (of which at least 30% are women) have strengthened capacities to adopt adaptation practices and technologies in agro-pastoral systems.	11 June 2014 – ongoing, Africa, Mali	FAO, GEF	1095627 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
Enhancing Adaptive Capacity and Resilience to Climate Change in the Agriculture Sector in Comoros	Diffusion of climate resilient agro-sylvo-pastoral technologies in the most vulnerable communities	1) Climate -resilient agricultural and livestock technologies are adopted by farmers; 2) Low-cost community water-control infrastructures have been installed to fight erosion and water shortage; 3) Key agricultural support organizations have the capacity to provide ongoing climate adaptation extension services to farmers; 4) Sustainable alternatives to the use of wood for distillation of ylang ylang have been identified, tested, and a strategy developed to replace wood as the main fuel source.	24/03/2014 – ongoing, Africa, Comoros	UNDP, GEF	6129940 US Dollar (USD) (GEF)	
Enhancing the Resilience of Poor Communities to Urban Flooding in Yaounde	Climate resilient interventions for flood control developed	Adaptation technologies and investment are adopted at the community and city level	8 April 2014 – ongoing, Africa, Cameroon	AfDB, GEF	2450000 US Dollar (USD) (GEF)	
Strengthening Climate Information and Early Warning Systems in Cambodia to Support Climate Resilient Development and Adaptation to Climate Change	Transfer of technologies for climate and environmental monitoring infrastructure	Strengthened institutional capacity to operate and maintain EWS and climate information infrastructure, both software and hardware, in order to monitor weather and climate	23/10/2014 – ongoing, Asia and the Pacific, Cambodia	UNDP, GEF	2984500 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
		change				
Enhancing Climate Resilience of the Vulnerable Communities and Ecosystems in Somalia	Piloting Ecosystem Based Adaptation strategies	Support for women's livelihood diversification with the introduction adaptation technologies aimed to reduce dependence on dwindling natural resources	18/11/2014 – ongoing, Africa, Somalia	UNDP, GEF	230000 US Dollar (USD) (GEF)	
Promotion of Clean and Green Cities in China Through International Cooperation	Development of Planning and assessment tools for developing sustainable cities.	Urban planning tools and institutional framework that can be used for different city typologies developed.	26/02/2014 – ongoing, Asia and the Pacific, China	World Bank, GEF	600000 US Dollar (USD) (GEF)	
Promoting Energy Efficient Cook Stoves in Micro and Small-scale Food Processing Industries	Improving the design of cook stoves to achieve the optimum fuel efficiency	Energy efficient cook stoves accepted and deployed	6 December 2014 – ongoing, Africa, Chad	UNIDO, GEF	220000 US Dollar (USD) (GEF)	
GEF UNIDO Cleantech Programme for SMEs	National Cleantech Platform to promote clean technology innovations and business models in SMEs in Thailand	A national level mechanism / platform established to promote clean technology innovations and entrepreneurship; clean energy technology innovators identified, coached and supported during and beyond the Cleantech competition	6 October 2014 – ongoing, Asia and the Pacific, Thailand	UNIDO, GEF	820000 US Dollar (USD) (GEF)	
Geothermal Resource Development in Saint Lucia	Component 1: upstream geothermal development preparation and project management	1- Pre-Feasibility assessment technically confirming up to three (3) areas as being sound for exploration drilling 2- Funding for implementing an	20/11/2014 – ongoing, Latin America and the Caribbean, St. Lucia	World Bank, GEF	477500 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
		exploration drilling program is confirmed				
Sustainable Urban Mobility Program for San Jose	Technology improvement of vehicle fleet	4.1 Diagnosis of the vehicle fleet in San Jose, and consolidation of data on vehicle fleet for the city 4.2 Feasibility of implementation of clean fuel technologies and development of pilot project 4.3. Guidelines towards a vehicle monitoring systems 4.4 Pilot project on vehicle technology improvement of 100 cuasirenta vehicles 4.5 Considering implementation of financial incentives to promote newer technologies	15/06/2014 – ongoing, Latin America and the Caribbean, Costa Rica	IADB, GEF	403069 US Dollar (USD) (GEF)	
Low-carbon and Efficient National Freight Logistics Initiative	Freight demand management	1000 truck owners are using the freight broker application	13/06/2014 – ongoing, Latin America and the Caribbean, Colombia	IADB, GEF	500000 US Dollar (USD) (GEF)	
Improving Mobility in Parakou	Organization of Transport Infrastructure	Increased mobility in targeted areas through the implementation of comprehensive integrated Intelligent Transport System (ITS) program and ancillary measures to promote road safety and promote road safety and	26/09/2014 – ongoing, Africa, Benin	AfDB, GEF	650000 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
Promoting Sustainable Bio-energy Production from Biomass (SBEPB)	Development of a local supply chain and market for BETs GHG emissions avoided from technology applications and investments	<p>motorized transport along corridor</p> <p>2.1 Designed and implemented start-up grant and end user subsidies to enable market development for private-sector participation in biomass energy business</p> <p>2.2: Implemented and operational 400 locally produced industrial stoves for income generating local enterprises such as tofu/tempe and salt production, bakery and coffee roasting</p> <p>2.3: Implemented and operational locally produced 19,600 energy efficient cook stoves in households and local enterprise/community-based institutions</p>	6 October 2014 – ongoing, Asia and the Pacific, Timor-Leste	UNDP, GEF	1197000 US Dollar (USD) (GEF)	
Renewable Energy for Rural Livelihoods (RERL)	Increased investments in RE	<p>1. Commissioned demonstration projects: 1 MW of mini-hydro, 300 kW of mini-grid, 500 kW of solar PV;</p> <p>2. Operationalized 2 MW of off-grid large micro-hydro power projects;</p> <p>3. Completed financial closure of 7 MW of off-grid mini-hydro power</p>	3 May 2014 – ongoing, Asia and the Pacific, Nepal	UNDP, GEF	1198325 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
		projects; 4. Completed financial closure of 2 MW of large scale solar PV systems				
Reducing Barriers to Accelerate the Development of Biomass Markets in Serbia	Demonstration Projects - Investment Support Mechanism	A minimum of six biomass projects are successfully financed, constructed and operating by the end of the project	22/01/2014 – ongoing, Eastern Europe, Serbia	UNDP, GEF	1600000 US Dollar (USD) (GEF)	
Sustainable Land Management and Climate-Friendly Agriculture	Capacities built to apply climate smart agriculture techniques cross productive landscapes	1. Innovative agricultural land rehabilitation technologies introduced; 2. Innovative methane capture and agriculture production technologies demonstrated	11 March 2014 – ongoing, Eastern Europe, Turkey	FAO, GEF	2372500 US Dollar (USD) (GEF)	
Strengthening Low Carbon Energy Island Strategies	Implement public demonstrations of good energy efficient design and technology in selected public buildings Hotels and resorts adopt and invest in energy efficiency actions	1. Feasibility of investing in energy efficient design and technologies in existing building structures demonstrated in public buildings. 2. Hotels undertake energy audits 3. Hotels adopt EE “house-keeping measures (e.g.; waste-heat recovery)” 4. Investment by hotels and resorts in energy conservation & efficiency	18/08/2014 – ongoing, Asia and the Pacific, Maldives	UNEP, GEF	1238790 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
SolarChill Development, Testing, and Technology Transfer Outreach	Procure and install 200 SolarChill A units in three countries (66 per country) Development by more than one manufacturer of SolarChill B and first-hand experience with SolarChill B in practical applications	Demonstration experience and cross-comparison of currently available SolarChill A products, under field conditions in representative health centers to ensure that safe vaccine storage conditions are met Testing results of SolarChill B under field conditions in a variety of small institutional and light commercial applications Brokerage activities to connect financing organizations (micro-financing and venture capitalists) for increased market penetration.	20/02/2014 – ongoing, Other, Colombia, Kenya, Swaziland	UNEP, GEF	1685650 US Dollar (USD) (GEF)	
Production of sustainable, renewable biomass-based charcoal for the iron and steel industry in Brazil	Commercial charcoal production facilities are built under a competitive bidding mechanism to deliver objectively verifiable renewable biomass-based charcoal and GHG emission reductions.	A tender mechanism is set up by MMA to support investment in a first batch of commercial production facilities for clean, renewable charcoal. Targeted support is given to facilitate planning and permitting for the charcoal conversion projects selected under the tender process. A first batch of commercial, renewable biomass-based charcoal	24/01/2014 – ongoing, Latin America and the Caribbean, Brazil	UNDP, GEF	4650000 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
		production facilities is procured and put into operation by the private sector, and greenhouse gas emission reductions are being monitored and verified, and payments are made for delivered performance. Best practices and lessons learnt are collected and disseminated to promote clean charcoal production across the I&S sector in Brazil and abroad				
Promoting Utility-Scale Power Generation from Wind Energy	Replicability plan for Red Sea wind farms completed after implementation of first utility-scale wind farm in Sudan (Dongola, 100MW)	Completed design, installation and operation of interface electronics in Dongola wind farm Completed and approved replication and investment plan for the construction of additional wind farms in the Red Sea region prepared	18/08/2014 – ongoing, Africa, Sudan	UNDP, GEF	2391864 US Dollar (USD) (GEF)	
Sustainable Energy Initiative for Industries	Investments in RE and EE in industry	Investments in RE and EE in pilot demonstration carried out and scaled up	29/05/2014 – ongoing, Asia and the Pacific, Pakistan	UNIDO, GEF	2592352 US Dollar (USD) (GEF)	
Sustainable management of mountainous forest and land resources under climate change	Enhancing carbon stocks in dryland forest through innovative management and rehabilitation practices	Management of existing forests and trees improved avoiding emissions from forest degradations.	25/02/2014 – ongoing, Eastern Europe, Kyrgyz Republic	FAO, GEF	4152494 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
conditions	Promoting and demonstrating climate-friendly agriculture, including pastures as part of sustainable land and water management in drylands	Dryland forest areas rehabilitated/afforested through introduction and demonstration of innovative technologies/practices and pressure on forests reduced Improved agricultural management and rehabilitation practices and techniques in drylands by demonstrating and adopting agricultural and agro-forestry best practices				
Promoting Integrated Biomass and Small Hydro Solutions for Productive Uses in Cameroon	Demonstration of the technical and commercial viability of renewable energy mini grids	Renewable energy mini grids are replicated and become an integral part of Cameroon's electrification program Installed capacity of renewable energy systems increased	8 April 2014 – ongoing, Africa, Cameroon	UNIDO, GEF	1120000 US Dollar (USD) (GEF)	
Utilizing Solar Energy for Industrial Process Heat in Egyptian Industry	Deployment of solar energy for industrial heat Improve manufacture, supply and distribution of solar energy components and systems	Revolving fund to facilitate financing of solar thermal technologies is set up Solar thermal technologies installed in selected facilities The local manufacture, supply and distribution of solar energy components and systems is strengthened	18/12/2014 – ongoing, Africa, Egypt	UNIDO, GEF	4000000 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
Promotion of Non-Fired Brick Production (NFB) and Utilization in Viet Nam	NFB technology application, investment and replication	Increased number of NFB production units Increased overall market share of NFBs	3 November 2014 – ongoing, Asia and the Pacific, Vietnam	UNDP, GEF	1267780 US Dollar (USD) (GEF)	
Recovery and protection of climate and biodiversity services in the Southeast Atlantic Forest Corridor of Brazil	Recovery and enhancement of carbon stocks in the Paraiba watershed along Brazil's southeast AF corridor	3 PES schemes implemented for restoration and enhancement of carbon stocks in 64,057 hectares of forest and non-forest land	31/07/2014 – ongoing, Latin America and the Caribbean, Brazil	IADB, GEF	15822000 US Dollar (USD) (GEF)	
Energy Efficient Production and Utilization of Charcoal through Innovative Technologies and Private Sector Involvement in Sierra Leone	Development of public-private initiatives for the improved and more efficient production of charcoal and the scaling up of improved cook stove production	Increased number of investments on improved, more efficient charcoal and ICS production in Sierra Leone	16/09/2014 – ongoing, Africa, Sierra Leone	UNDP, GEF	1300000 US Dollar (USD) (GEF)	
Energy Efficiency and Renewable Energy in Social Housing in Argentina	Low-carbon social housing pilot projects designed and demonstrated	Demonstration of technical, economic and environmental feasibility of social housing pilots Social acceptance of new construction technologies and systems (measured by follow up surveys with occupants) Strengthened local institutions for pilot project design and construction monitoring Average energy savings of 32% relative to conventional housing due to the application of	3 May 2014 – ongoing, Latin America and the Caribbean, Argentina	IADB, GEF	10554269 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
		energy efficiency (EE) and renewable energy (RE) technologies				
Promoting energy efficiency in industrial heat systems and high energy-consuming (HEC) equipment	Demonstration of energy efficient equipment implementation and operation	New efficient technologies are demonstrated at national level to serve as case studies for future investments	14/10/2014 – ongoing, Asia and the Pacific, China	UNIDO, GEF	2200000 US Dollar (USD) (GEF)	
Promotion of waste-to-energy (WTE) applications in agro-industries of Tanzania	Increased use of WTE technologies in agro-industries.	2.1. Detailed plant designs prepared for demonstration projects. 2.2. WTE power plants established for 6.8 MW cumulative capacity. 2.3 WTE technologies transferred to agro-industries.	18/12/2014 – ongoing, Africa, Tanzania	UNIDO, GEF	1000000 US Dollar (USD) (GEF)	
GHG Emissions Reductions in Targeted Industrial Sub-Sectors through EE and Application of Solar Thermal Systems	Demonstration and scaling up of sector-specific energy efficiency and solar thermal energy utilization in targeted industrial subsectors.	Thermal energy efficiency and solar thermal technology demonstrated and deployed in 5 targeted industrial sub-sectors.	30/04/2014 – ongoing, Asia and the Pacific, Malaysia	UNIDO, GEF	2740000 US Dollar (USD) (GEF)	
Nationally Appropriate Mitigation Actions in the Energy Generation and End-Use Sectors of Peru	Implementation of NAMAs in the selected sub-sectors	Entities related to renewable energy connected to the grid (all technologies excluding large hydro) off grid renewable energy, and energy efficiency subsectors are implementing prioritized NAMAs in a piloting phase and contributing to the achievement of Peru's	4 November 2014 – ongoing, Latin America and the Caribbean, Peru	UNDP, GEF	1080000 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
		voluntary mitigation target				
Scale Up of Access to Clean Energy for Rural Productive and Domestic Uses	Increased supply of RE technology and service providers for rural livelihood applications	Business development aspects supported for 100 RE technology supply and service providers for rural livelihoods applications	12 June 2014 – ongoing, Asia and the Pacific, India	UNDP, GEF	301000 US Dollar (USD) (GEF)	
Efficient and Sustainable City Bus Services	City Demonstration Projects – Physical Improvements	2.1 Depot Equipment installed and functioning in all project cities 2.2 ITS systems being used in all project cities; MIS reports developed and acted upon 2.3 Reduction in GHG emissions by 230000 tons from the business as usual scenario in project cities 2.4 Rate of breakdowns to not exceed 5/10,000 kilometers in all project cities 2.5 Fuel efficiency improves by 15% 2.6 Increase in overall ridership by approximately 30%; At least 3% increase in proportion of women ridership	18/11/2014 – ongoing, Asia and the Pacific, India	World Bank, GEF	6000000 US Dollar (USD) (GEF)	
Low-Carbon Urban Mobility for Large Cities	2.3 Improved urban mobility systems in Fortaleza	2.3.1 Pilot project: 7 km of bicycle paths in one city as showcase of low	11 January 2014 – ongoing, Latin America and the Caribbean,	IADB, GEF	1409047 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
		carbon transport network 2.3.2 32,6 km of improved Bus Rapid Transit (BRT) in operation (BRT Antônio de Bezerra de Menezes/ Papicu and BRT BR116 - Aguanambi) 2.3.3 6 km of improved BRT in operation (Alberto Craveiro) 2.3.4 12,7 km of improved Light Rail Transit (LRT) in operation (Parangaba/Mucuripe)	Brazil			
Nationally Appropriate Mitigation Actions for Low-carbon Urban Development	Implementation of pilot urban NAMA	Financing of a pilot urban mitigation project and demonstration of the feasibility of urban emission reduction for future replication	12 June 2014 – ongoing, Eastern Europe, Kazakhstan	UNDP, GEF	700000 US Dollar (USD) (GEF)	
Catalyzing the Use of Solar Photovoltaic Energy	Investment in solar photovoltaic power technologies for on-grid and off-grid distributed electricity generation for office, residential, small business and small town application.	Concrete evidence of the utility, practicality and competitive advantage of rooftop solar PV and utility-scale ground-mounted systems.	8 November 2014 – ongoing, Asia and the Pacific, Iraq	UNDP, GEF	700000 US Dollar (USD) (GEF)	
Grid-connected Small Scale Photovoltaic Systems	Grid-connected Small Scale Photovoltaic Systems	A total of at least 4 MWp of small PV systems (of a few kW each) installed based on easily replicable and scalable system design	29/12/2014 – ongoing, Africa, Egypt	UNDP, GEF	190000 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
Towards Carbon Neutral Tourism	Low-carbon tourism infrastructure	Improved low carbon and carbon neutral transport infrastructure to support tourism sector related public and non-motorized transport	7 December 2014 – ongoing, Eastern Europe, Montenegro	UNDP, GEF	470000 US Dollar (USD) (GEF)	
Energy Conservation, Greenhouse Gas Mitigation and Soil Carbon Sequestration in Staple Crop Production	Demonstration of climate smart agriculture techniques	Reduction in fertilizer use Reduction in the use of pesticides through integrated pest management Increase in carbon sequestration New production techniques piloted	7 January 2014 – ongoing, Asia and the Pacific, China	World Bank, GEF	3960000 US Dollar (USD) (GEF)	
Nationally Appropriate Mitigation Actions (NAMAs) for Low-carbon End-use Sectors in Azerbaijan	implementation of NAMAs in oil & gas end-use sectors	Three implemented NAMAs in oil & gas end-use sectors: Total lifetime direct emission reductions over approx. 0.56 million tonnes CO ₂ eq and total indirect emission reductions of 6.24 million tonnes CO ₂ eq	9 December 2014 – ongoing, Eastern Europe, Azerbaijan	UNDP, GEF	957950 US Dollar (USD) (GEF)	
Improvement of Industrial Energy Efficiency in Myanmar	Demonstrations and upscaling	Demonstrated projects on energy management system, and energy system optimization in selected plants and subsectors and widely used case studies result in direct GHG emissions reductions and leverage the interest and belief in investment in IEE	16/10/2014 – ongoing, Asia and the Pacific, Myanmar	UNIDO, GEF	1370000 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
		projects				
Maximizing Carbon Sink Capacity and Conserving Biodiversity through Sustainable Conservation, Restoration, and Management of Peat-swamp Ecosystems	Avoided degradation at 4,600 ha of peat swamps in Kuan Kreng landscape resulting in 834,000 tCO ₂ eq of emissions avoided (20-year perspective) through improvement in water levels at 4,600 ha and prevention of emissions from peat oxidization and fires. 129,000 tCO ₂ eq sequestered (20-year perspective) through reforestation with native tree species at 300 ha Peat swamp carbon flux monitoring system developed and under implementation for KKL	Output 2.1: Hydro technical measures implemented in pilot sites (4,600 ha) to prevent drainage and fires Output 2.2: Native tree reforestation of areas damaged by storms and fires in Kreng sub-district (300 ha). Output 2.3: Peat swamp carbon flux monitoring system set up	24/12/2014 – ongoing, Asia and the Pacific, Thailand	UNDP, GEF	1977945 US Dollar (USD) (GEF)	
NAMA Support for the Tunisian Solar Plan	Design and implementation of renewable energy project in TSP NAMA to demonstrate the transformational role of the Tunisian Solar Plan in reducing GHG emissions.	The TSP NAMA is operationalized by demonstrating proof-of-concept energy projects with quantified GHG emission reductions.	20/11/2014 – ongoing, Africa, Tunisia	UNDP, GEF	1776634 US Dollar (USD) (GEF)	
Mexico Sustainable Energy Technology Development	Fund matching grants and technical assistance	Commercialization prospects of advanced clean energy technologies strengthened	26/04/2014 – ongoing, Latin America and the Caribbean, Mexico	World Bank, GEF	11500000 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
		Clean energy technologies commercialized				
ASTUD: Jiangxi Ji'an Sustainable Urban Transport Project	Increased investment in less-GHG intensive transport and urban systems	<ol style="list-style-type: none"> 1. City of Ji'an in Jiangxi Province, PRC adopting low-carbon transport and urban development programs 2. Innovative low-carbon transport and urban system technologies demonstrated and deployed in PRC. 3. Additional investment mobilized for low carbon transport and urban development from ADB, bilateral and national sources, and the private sector 4. Estimated 1.4-1.7 million tons of direct and indirect GHG savings over the lifetime of the project 	14/10/2014 – ongoing, Asia and the Pacific, China	ADB, GEF	2546300 US Dollar (USD) (GEF)	
ASTUD PRC Clean Bus Leasing	Supporting Systems for Energy-Efficient Bus Operations	<ol style="list-style-type: none"> 1. Software systems supporting energy-efficient bus operations broadly adopted by PRC bus companies 2. Improved monitoring and management of bus fleets and passenger markets, and responsiveness to below standard performance 3. Reduced GHG emissions from bus 	15/01/2014 – ongoing, Asia and the Pacific, China	ADB, GEF	805000 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
		operations.				
GEF SGP Fifth Operational Phase - Implementing the Program Using STAR Resources III	Reduction or Avoidance of GHG Emissions While Building Climate Resilience at the Community-level	3. Demonstration, development and transfer of low-GHG technologies at the community level 4. Increased energy efficient, low-GHG transport at the community level 5. Conservation and enhancement of carbon stocks through sustainable management and climate proofing of land use, land use change and forestry	20/11/2014 – ongoing, Global, Armenia, Cameroon, Kyrgyz Republic, Ukraine	UNDP, GEF	2678985 US Dollar (USD) (GEF)	
Dissemination of low cost portable biogas systems (Flexi-Biogas)	Promoting an intermediate level scaling up of the Flexi-Biogas system across projects by building an economic model that provides incentives for smallholder famers to adopt Flexi-Biogas	To reduce the need for firewood for cooking, therefore having a direct impact on the protection of the environment, GHG emissions and health of rural communities and women and children in particular	Work in progress - Work in progress , Asia West and Central Africa East and Southern Africa, Bangladesh, India, Vietnam, Mali, Pakistan, Rwanda	IFAD	Depending on locations US Dollar (USD) (IFAD ASAP)	http://www.ifad.org/pub/thematic/biogas.pdf
Promoting conservation agriculture	Introducing climate proofing technologies for barley cultivation	Improved soil conditions, higher productivity and increased resilience to drought	11 January 2013 - 3 January 2014, Near East, Jordan and Iraq	IFAD, ICARDA	85k US Dollar (USD) (IFAD)	http://www.icarda.org/barley-livestock-systems/teaser
Technology Needs Assessment	The project assists developing country Parties to the UNFCCC determine their technology priorities for	National Technology Action Plans (TAPs) with prioritized technologies recommended enabling	11 January 2014 - 31/12/2017, Africa & Middle East; Asia & SIS; LAC, Burkina Faso,	UNEP; UNEP DTU Partnership; Regional Centre of Excellence: Fundación Bariloche	8 million US Dollar (USD) (GEF)	http://www.tech-action.org/

Integrating Urban and peri-urban agriculture and forestry into city-level climate change strategies	Pilot urban agriculture for climate change adaptation and mitigation in (at least) three cities. Realize co-benefits in terms of food security, water	Capacities of the local project partners have been enhanced regarding design, implementation and monitoring of urban agriculture projects in the context of climate change mitigation and adaptation programmes. Additional the activities aimed to build resilience by enhancing the supply of locally produced food, reducing household dependency on food imports, improving urban food security, and generating income through job creation. Additionally, they sought to enhance the collaboration between local governments and stakeholders involved in horticulture, livestock, agro-forestry,	1 January 2013 - 31/12/2014, Africa and Asia - Pacific, 1. Burkina Faso, Bobo Dioulasso. 2. Nepal, Kathmandu. 3. 		and aquaculture.				
Urban Futures Participatory climate change action planning training: The purpose of the training was to bring together science and technology practitioners and urban planners to examine technological, innovative and ‘big-data’ approaches to cities and climate change.	Participatory climate change action planning training: The purpose of the training was to bring together science and technology practitioners and urban planners to examine technological, innovative and ‘big-data’ approaches to cities and climate change.	The workshop combined training and interactive discussion on innovative approaches to contemporary urban issues – particularly resilience challenges (but also mitigation). The participation was mixed, drawing city planning officials with researchers, academia and tech firms from the private sector. Participants gained shared understanding on the issue of cities and climate change and how to plan and develop cities for low emission development and climate change adaptation.	10 January 2014 - 17/10/2014, Asia - Pacific, Kingdom of Thailand	United Nations Human Settlements Programme (UN-HABITAT), United Nations Economic Commission for Asia and the Pacific (UN ESCAP)	50000 US Dollar (USD) (United Nations Economic Commission for Asia and the Pacific (UN ESCAP))	
Urban Risk Reduction and Resilience Tool for Southern African Cities	To elaborate innovative tools and methodologies that will allow municipalities in Southern African countries to understand and plan for urban resilience.	Tool that will allow municipalities to produce Resilience Action Plans that are implementable	1 January 2014 - Dec/2014 (ongoing), Southern Africa, Mozambique, Madagascar, Malawi, Union of Comoros	UN-Habitat/DiMSUR	80000 US Dollar (USD) (ACP-EU/GFDRR and DG ECHO (EU)-DIPECHO)

Regional Collaboration Centres (RCCs) of UNFCCC	The RCCs are designed to help under-represented regions to increase their attractiveness and potential for CDM, by building their capacity and reducing the risk for investors. These centres are intended to support the identification of CDM projects, provide assistance for the design of such projects, address technical issues and offer opportunities to reduce transaction costs. RCCs are building capacity in a more direct and effective manner by addressing specific needs in particular circumstances. The on-the-ground presence also helps to maintain and nurture the capacity being developed.	The RCCs have delivered several capacity building activities as listed by region and RCC. In addition the RCC initiative has been successful in improving the participation to the CDM. In particular RCCs have helped 120 projects to move forward in the CDM cycle and in 2014 approximately 200 projects were supported. Direct technical support was also provided to Designated National Authorities (DNAs) for the development of Standardized Baselines with 10 being submitted for approval.	1 January 2014 - 31/12/2014, Africa, Latin America and the Caribbean , Bogotá, Kampala, Lomé, St George's	CAF Banco de Desarrollo de América Latina; EADB East Africa Development Bank, Banque Ouest Africaine de Développement (BOAD); WINDREF Windward Islands Research and Education Foundation	N/A	
Training Workshop on CDM Post-registration Changes (PRCs) and Programme of Activities (PoAs) -	Train PoA project developers and potential CPAs in how to complete post registration changes	PoA developers know the procedures for PoA emissions. Potential CPA developers are aware of the procedures for being included in a	2 December 2014 - 14/02/2014, Africa , South Africa	KFW, BMU, UNFCCC (RCC Kampala)	13500 US Dollar (USD) (KFW, BMU)

Rapid Carbon Stock Appraisal	Project Developers in the sector of Forestry, Togolese Ministry of Environment	Enable the forest specialist to examine and collect carbon sequestration information and consider possible development for the CDM	17/10/2014 - 17/10/2014, Africa, West Africa sub-regional event held in Togo	African Forest Forum	N/A N/A (African Forest Forum)	
Sustainable development policies	Academic institutions, Project Developers	Raise awareness on current debate on Climate Change and market mechanisms including the CDM	12 June 2014 - 12 June 2014, Africa, Togo	Global Lead (consultancy company), Ministry of Environment of Togo, Francophone regional office in Togo, UNFCCC (RCC Lomé)	1700 US Dollar (USD) (UNFCCC)	
Regional Training Workshop “LIGHTING THE CARIBBEAN” Making the Most of Energy Efficient Lighting in Barbados and the OECS in the 21st Century	International organizations; Utilities	To provide training using CDM case studies on energy efficiency for street lighting in India and Thailand. Advise on the Caribbean Energy Efficiency Lighting Project (CEELP)	16–17/12/2014, Caribbean , Barbados	UNDP Barbados	1525 US Dollar (USD) (UNDP Barbados)	
Renewable Energy Latin America & Caribbean Conference & Exhibition (RELACCx)	PP; CME; Private sector	To train on recent changes to CDM cycle and CDM regulatory framework and possible impact on project/PoA leads	20–21/01/2014, Caribbean , Puerto Rico	American Council On Renewable Energy (ACORE)	N/A N/A	
Presentation on Carbon accounting and market opportunity for the electricity sector	DNA; International organizations; Private sector	Provided guidance on the CDM and its tools; Strengthen collaboration with the utilities in the Caribbean; Identify opportunities for project	19–21/11/2014, Caribbean , Dominica	The Organization of Caribbean Utility Regulators (OOCUR)	N/A N/A	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
		development				
Capacity building on carbon accounting and clean technologies – through Internship at RCC St George's for Renewable Energy Post-graduate students	Post-graduate students	To provide training on the use of carbon accounting (using CDM methodologies) for renewable energy technologies to postgraduate students being sponsored by GIZ and relocated to RCC St Georges. This on-the job training will allowed the specialization on both renewable energy in combination with a carbon component considering that countries' renewable energy targets are directly linked to climate change effects. In the long-term human capacities will be created with the aim of (i) supporting planning and reporting CARICOM member states' shift towards low carbon economies, and (ii) creating awareness of the financial opportunities found under the carbon market	11 October 2014 - 30/11/2014, Caribbean , Grenada	GIZ, UNFCCC (RCC St George's)	5500 US Dollar (USD)	
Africa Regional Workshop	The aim is to provide CDM Designated National Authorities (DNAs) from the	Participants were introduced to new initiatives to increase the demand for	30/07/2014 - 7 January 2014, Africa, Windhoek, Namibia	UNFCCC	100000 US Dollar (USD) (Multilateral financial institution, International	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>	
	African region with the training they require functioning effectively; improving information sharing, outreach and exchange of views on activities; and providing updates of the current market situation.	Certified Emission Reductions (CERs); financing alternatives for CDM project/PoA development; the role of the CDM in harnessing climate mitigation and in the context of the emerging markets; negotiations on CDM M&P reform; net mitigation.				organization)	
Africa Carbon Forum	To train DNAs of the CDM, project developers, private companies, DOEs and stakeholders in general and discuss the latest development in the carbon market and how the CDM and other mitigation mechanisms can be successful in Africa.	400 participants represented government institutions including DNAs, and ministries of environment, energy and finance; project developers; CDM consultants; DOEs; NGOs; and the general public.	7 February 2014 - 7 April 2014, Africa, Windhoek, Namibia	UNFCCC, UNEP DTU, UNCTAD, World Bank, African Development Bank and EITA	360000 US Dollar (USD) (UNFCCC)	http://www.africacarbonforum.com/2014/english/objective.htm	
Regional Workshop on Clean Development Mechanism (CDM) and National Appropriate Mitigation Actions (NAMAs) for Latin America and the Caribbean	This first of a kind joint workshop on CDM and NAMAs aim to bring together CDM DNAs and focal points and mitigation experts from the region, as well as CDM project developers and representatives of non-governmental organizations and international organizations to discuss various issues related to	Around 100 participants received training on finance, sustainable development co-benefits, stakeholder consultation, CDM PoAs and the process of issuing letters of approval/authorization related to the CDM.	31/08/2014 - 9 February 2014, Latin America and Caribbean, Bogota, Colombia	UNFCCC	250000 US Dollar (USD) (UNFCCC)		

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
	promotion of CDM and (Nationally Appropriate Mitigation Actions) NAMAs.					
Latin America and the Caribbean Carbon Forum	To bring together main stakeholders of the climate change mitigation arena and the carbon markets such as: DNAs, national climate change focal points, investment promotion agencies, project developers, financial institutions, national development banks, etc. to discuss and exchange experiences on the latest developments regarding emissions trading schemes, low emission development and the future of the carbon markets .	500 participants represented government institutions including DNAs, and ministries of environment, energy and finance; project developers; CDM consultants; DOEs; NGOs; and the general public.	9 March 2014 - 9 May 2014, Latin America and Caribbean, Bogota, Colombia	UNFCCC, DTU, World Bank, CAF and IETA	150000 US Dollar (USD) (Multilateral financial institution, International organization)	http://www.latincarbon.com/2014/english/index.htm
Asia and Pacific Regional Workshop: Promoting CDM and Market Mechanisms	To enhancing the regional distribution of CDM projects, developing capacity at the regional and sub-regional levels, and promoting market mechanisms in the Asia and Pacific region among the DNAs, project developers, private companies, DOEs and stakeholders in general.	140 participants from 36 countries participated on discussions, breakout hands-on sessions and interactive activities on topics such as the state of play of CDM, CDM as a tool for sustainable development, the potential of CDM in harnessing climate change actions, etc.	13–15/10/2014, Asia and the Pacific, Bangkok, Thailand	UNFCCC, Asian Development Bank (ADB), the Institute for Global Environmental Strategies (IGES)	316000 US Dollar (USD) (UNFCCC, Multilateral financial institution, Research Institute,)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
Global Designated National Authorities (DNA) Forum	To update DNA delegates on the latest developments in the CDM and provide a view sharing platform among the different host countries.	Participants were introduced to new initiatives to increase the demand for CERs; financing alternatives for CDM project/PoA development; the role of the CDM in harnessing climate mitigation and in the context of the emerging markets; negotiations on CDM M&P reform; net mitigation.	13–14/11/2014, Global, Bonn, Germany	UNFCCC	586000 US Dollar (USD) (UNFCCC)	
CDM Loan Scheme	Provides interest-free loans to projects located in countries with less than 10 registered CDM projects, for Process Driven Development (PDD) development, validation and first verification.	25 loans were awarded in 2014, for a total of USD 2 million approximately	18/04/2012 – ongoing, Global,	UNFCCC, UNOPS, UNEP DTU Partnership	US Dollar (USD)	http://cdmloanscheme.org/

		membership of over 500 educators.				
Updating irrigation courses at National University of Science and Technology (NUST) in Pakistan	To support the National University of Science and Technology (NUST) in Pakistan in updating its undergraduate course in irrigation and in developing a new graduate course on the subject.	A set of 26 lectures was developed for each course, designed to match modern needs for natural resources management in the context of climate change and in line with the principles of Climate-Smart Agriculture. The undergraduate course received very high ratings from its students during evaluation. Course materials have now been shared with the University of Agriculture, Peshawar and Tehran University of Engineering and Technology, Hyderabad. In addition, a network of 16 universities has been established to allow for the standardization of MSc level courses on irrigation in Pakistan. Once completed, these courses will be endorsed by the Higher Education Commission of Pakistan. The material that produced will be ultimately shared with the International	Early 2014 – End 2014, Asia Pacific, Pakistan	FAO/YUNGA and National University of Science and Technology (NUST)	(Sida and other)	www.yunga-un.org

		financiers				
Renewable Energy for Rural Livelihoods (RERL)	Enhanced capacities and skills of various stakeholders in the RE sector	1. Created a Database of technical specifications, challenges and opportunities in the design, manufacture, installation and after-sales service in micro-hydro (60+ kW), mini-hydro and large scale solar PV systems. 2. Fully trained skilled and technically capable people available for project identification, feasibility studies and detailed design of mini-hydro projects; mini hydro manufacturers in identified areas and their after-sales services; construction and installation teams within companies to improve quality of installed mini-hydro projects and large solar PV system; people available for operation, maintenance and business management of mini-hydro projects and large-scale solar PV systems.	3 May 2014 – ongoing, Asia and the Pacific, Nepal	UNDP, GEF	436319 US Dollar (USD) (GEF)	
Development and Commercialization of Bioenergy Technologies in the	Increased investor, municipality and consumer awareness.	Outreach program and dissemination of project experience/best practices/lessons	27/02/2014 – ongoing, Eastern Europe, Ukraine	UNDP, GEF	400000 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
Municipal Sector in Ukraine.		learned for replication throughout the country.				
Reducing Barriers to Accelerate the Development of Biomass Markets in Serbia	Sustainability and replication	1. A minimum of 12 additional biomass projects are supported by the Biomass Support Unit and Investment Support Mechanism; 2. Produced documentary film on the implemented Biomass Energy pilot projects produced by the Biomass Support Unit	22/01/2014 – ongoing, Eastern Europe, Serbia	UNDP, GEF	112750 US Dollar (USD) (GEF)	
Sustainable Land Management and Climate-Friendly Agriculture	Enabling legal, policy and institutional environment for sustainable land management strengthened	1. Institutional integrated management capacity building program established for national and local level decision-makers; 2. Comprehensive SLM and CSA extension and awareness program emplaced; 3. Project monitoring and carbon monitoring system based on EX-ACT established	11 March 2014 – ongoing, Eastern Europe, Turkey	FAO, GEF	881000 US Dollar (USD) (GEF)	
Management and protection of Key Biodiversity Areas in Belize	Supporting forest protection and sustainable forest management activities in KBAs	1. Reduced deforestation rate and fragmentation pressure in targeted Key Biodiversity Areas 2. Enhanced sustainable forest management practices (based on	2 June 2014 – ongoing, Latin America and the Caribbean, Belize	World Bank, GEF	2181900 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
		<p>georeferenced information on forest resources and ecosystem services)</p> <p>3. Improved protection of forest reserves and reduction of forest fires</p> <p>4. Improved local livelihoods through community-based sustainable use of ecosystem goods and services</p> <p>5. 1.5 m tonnes C (5.5 million tonnes CO₂eq) saved from avoided deforestation during the life of the project plus additional x tonnes of C from reforestation activities in degraded sites (to be confirmed during appraisal)</p>				
Strengthening Low Carbon Energy Island Strategies	<p>Capacity building for the technical, business, public and financial sectors.</p> <p>Provision of public information to assist the general public and building owners in making the decision to invest in energy efficient technology and measures.</p> <p>Energy labels and standards for appliances and development</p>	<p>1. Capacity of key stakeholders in promoting, facilitating and pursuing EE investments developed or strengthened.</p> <p>2. Consumers purchase energy efficient appliances, encouraged by reliable information on energy consumption available at point of purchase</p>	18/08/2014 – ongoing, Asia and the Pacific, Maldives	UNEP, GEF	715701 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
Conserving, Enhancing and Managing Carbon Stocks and Biodiversity in The Chernobyl Exclusion Zone	Increased availability and access to critical information needed for decision-making for effective sustainable management of the ChEZ.	1. A set of lessons learned and practical recommendations on habitat rehabilitation, carbon stocks management and biodiversity conservation developed and published; 2. Knowledge sharing at national and international level and Training program field tested and available for replication	12 December 2014 – ongoing, Eastern Europe, Ukraine	UNEP, GEF	669757 US Dollar (USD) (GEF)	
Hwange-Sanyati Biological Corridor (HSBC) Project	Enhanced awareness on cross sectoral issues relating to BD, LD, SFM and LULUCF among local governments and community organizations Improved information and knowledge made available for policy makers and stakeholders and used at a corridor level	1. Mapping of land use patterns within the HSBC 2. Development and implementation of a HSBC communication strategy 3. Training and technical assistance to stakeholders to implement landscape-level land use management strategies in the HSBC 4. Capacity building of the Government in climate change issues	14/04/2014 – ongoing, Africa, Zimbabwe	World Bank, GEF	335000 US Dollar (USD) (GEF)	
Strengthening capacity and incentives for wildlife conservation in the Western Forest Complex	An improved level of awareness of the need to and the importance of, protecting the forest ecosystems and wildlife leads to more constructive	Community education and outreach and participatory management of the WHS	10 January 2014 – ongoing, Asia and the Pacific, Thailand	UNDP, GEF	847050 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
	involvement of buffer communities in their conservation.					
SolarChill Development, Testing, and Technology Transfer Outreach	Information regarding SolarChill more widely available; increased industry interest in SolarChill A and B production in Latin America and Africa	Marketing campaign, business plans, increased awareness and interest in SolarChill, and updated SolarChill website Preparation of a technology transfer packet In cooperation with and contingent upon MLF and bilateral country program HCFC and HFC phase out activities facilitation of partnerships and licensing agreements	20/02/2014 – ongoing, Other, Colombia, Kenya, Swaziland	UNEP, GEF	827000 US Dollar (USD) (GEF)	
Production of sustainable, renewable biomass-based charcoal for the iron and steel industry in Brazil	The technology and human capacity base for clean charcoal conversion in Brazil is strengthened by technical assistance and targeted training.	Baseline technology development for clean charcoal conversion is enhanced by supporting the design, testing and evaluation of key system components. Support is given to optimize technologies to capture by-products from the charcoal conversion process, including tar products, hydrocarbons, and process heat. Efficient business models are developed (accounting for variations in plant size,	24/01/2014 – ongoing, Latin America and the Caribbean, Brazil	UNDP, GEF	1325000 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
		logistical set-up, use of by-products, ownership models) to accelerate the widespread introduction of clean charcoal conversion technology. Training material on clean charcoal conversion is developed and used for (i) technical training targeting I&S companies, universities and research institutes; (ii) policy and decision makers; and (iii) project developers and financiers.				
Promoting Utility-Scale Power Generation from Wind Energy	Enhanced stakeholders' technical and planning know-how and technological capacities for wind energy power initiatives	Developed and approved wind atlas for Sudan in a GIS system Local experts, technicians and practitioners capacitated to prepare and conduct site study visits during construction, interconnection, operation and maintenance of the initial wind farm. Approved RE-related curricula of specialized universities and the National Energy Research Centre (NERC).	18/08/2014 – ongoing, Africa, Sudan	UNDP, GEF	420000 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
Sustainable Energy Initiative for Industries	Create platform for promoting investment and sustainability	Investment platform for scaling up investments operational	29/05/2014 – ongoing, Asia and the Pacific, Pakistan	UNIDO, GEF	496000 US Dollar (USD) (GEF)	
Utilizing Solar Energy for Industrial Process Heat in Egyptian Industry	Mobilize financing for the deployment of solar energy for industrial heat, improve the manufacture, supply and distribution of solar energy components and systems, and build the capacity of technical staff designing, developing and servicing solar systems	Technical capacity of staff of local banks on the assessment of projects enhanced Awareness campaign on solar thermal technologies for industrial process heat implemented Training program on best practices in the manufacture of solar energy components and systems conducted Capacity of the testing laboratory staff on testing protocols and procedures developed A platform to enhance information exchange, cooperation and partnerships between local industries, international centers of excellence and technology suppliers created Technical capacity of the system designers, developers, facility managers and service providers for solar energy utilization for industrial process heat enhanced.	18/12/2014 – ongoing, Africa, Egypt	UNIDO, GEF	1800000 US Dollar (USD) (GEF)	

<i>Activity</i>	<i>Purpose/target of activity</i>	<i>Outcome(s)</i>	<i>Date and location</i>	<i>Agencies and institutions involved</i>	<i>Funding</i>	<i>Activity report or web link for further information</i>
Promotion of Non-Fired Brick Production (NFB) and Utilization in Viet Nam	Technical capacity building on NFB technology application and operation and use of NFB products	Increased availability of technically skilled and qualified local service providers for NFB plants, improved skills of plant owners to produce NFBs that meet quality standards and enhanced stakeholder knowledge on NFB usage	3 November 2014 – ongoing, Asia and the Pacific, Vietnam	UNDP, GEF	562820 US Dollar (USD) (GEF)	
Energy Efficient Production and Utilization of Charcoal through Innovative Technologies and Private Sector Involvement in Sierra Leone	Improved awareness and outreach program for more efficient production and efficient utilization of certified charcoal and cook stove	Enhanced capacity of stakeholder in the value chain (producers, farmers, villagers, women, consumers, collectors)	16/09/2014 – ongoing, Africa, Sierra Leone	UNDP, GEF	225000 US Dollar (USD) (GEF)	
Energy Efficiency and Renewable Energy in Social Housing in Argentina	Outreach and dissemination	Countrywide inclusion of EE and RE technologies in social housing Acceptance of EE and RE technologies in social housing	3 May 2014 – ongoing, Latin America and the Caribbean, Argentina	IADB, GEF	806644 US Dollar (USD) (GEF)	
Promoting energy efficiency in industrial heat systems and high energy-consuming (HEC) equipment	Capacity Building activities (enterprises)	A cadre of highly specialized system optimization experts from public and private sectors are available as a long-term technical resource to industry and the country. Enterprises awareness on measures and new technologies and EE financing mechanisms	14/10/2014 – ongoing, Asia and the Pacific, China	UNIDO, GEF	1700000 US Dollar (USD) (GEF)

2nd Dialogue on Article 6 of the Convention	The Conference of the Parties (COP), by its decision 15/CP.18, requested the secretariat to organize an annual in-session dialogue on Article 6 of the Convention with the participation of Parties, representatives of constituted bodies and programmes under the Convention and relevant experts, practitioners and stakeholders to share their experiences and exchange ideas, best practices and lessons learned regarding the implementation of the Doha work programme on Article 6 of the Convention . The 2nd Dialogue focused on the implementation of activities in the areas of public awareness, public access to information and public participation as well as international cooperation on these matters.	The 2nd Dialogue on Article 6 of the Convention was held during the fortieth session of the Subsidiary Body for Implementation on 5, 8 and 11 June 2014. Representatives of Parties, intergovernmental and non-governmental organizations, the private sector and the media shared experiences and exchanged ideas, good practices and lessons learned on public participation, public awareness, public access to information and international cooperation on such matters. The COP requested the secretariat to prepare a summary report of every session of the Dialogue. The report of the 2nd Dialogue on Article 6 of the Convention is available at: http://unfccc.int/resource/docs/2014/sbi/eng/15.pdf .	6 May 2014 - 6 November 2014, ,	UNFCCC secretariat		http://unfccc.int/resource/docs/2014/sbi/eng/15.pdf

Participation of the UN Alliance on Climate Change Education, Training and Public Awareness at the UNESCO World Conference on Education for Sustainable Development, 10–12 November 2014, Aichi-Nagoya, Japan	The United Nations Alliance on Climate Change Education, Training and Public Awareness (the UN Alliance) aims to support Parties in their efforts to initiate and undertake activities related to the implementation of Article 6 of the Convention. UNFCCC secretariat coordinated the participation of the UN Alliance at the UNESCO World Conference on Education for Sustainable Development which took place on 10–12 November 2014, in Aichi-Nagoya, Japan by organizing a joint side event, an exhibition and a workshop on climate change education.	The UNESCO World Conference on Education for Sustainable Development marked the end of the UN Decade of Education for Sustainable Development (DESD, 2005–2014) and launched the Global Action Programme on Education for Sustainable Development (ESD) which includes a joint commitment by the UN Alliance on Climate Change Education, Training and Public Awareness.	10 October 2014 – 10 December 2014, ,	Intergovernmental entities that are members of the UN Alliance include: Food and Agriculture Organization of the United Nations (FAO), United Nations Children’s Fund (UNICEF), United Nations Department of Public Information (DPI), United Nations Development Programme (UNDP), United Nations Entity for Gender Equality and the Empowerment of Women (UN Women), United Nations Environment Programme (UNEP), United Nations Framework Convention on Climate Change (UNFCCC), United Nations Institute for Training and Research (UNITAR), United Nations Educational, Scientific and Cultural Organization (UNESCO), United		http://www.unesco.org/new/en/unesco-world-conference-on-esd-2014

Side event organized by the United Nations Alliance on Climate Change Education, Training and Public Awareness at COP20/CMP10 "Climate Change Education and Training for Children, Youth and Adults: How to Make a Difference'	The objective of the side event was to showcase how education and communication are at the core of climate change solutions by advancing knowledge on effective mitigation and adaptation actions.	The event was jointly prepared and organized by the UN Alliance on Climate Change Education, Training and Public Awareness. Representatives of governments, the United Nations and civil society presented inspiring examples of building knowledge for climate action and engage in an interactive dialogue with participants. The event featured ways the United Nations entities were making a difference on the ground while collaborating in formal, non-formal and informal education.	12 October 2014 - 12 October 2014, International ,	Nations University (UNU), World Health Organization (WHO), and World Meteorological Organization (WMO). Intergovernmental entities that are members of the UN Alliance include: Food and Agriculture Organization of the United Nations (FAO), United Nations Children's Fund (UNICEF), United Nations Department of Public Information (DPI), United Nations Development Programme (UNDP), United Nations Entity for Gender Equality and the Empowerment of Women (UN Women), United Nations Environment Programme (UNEP), United Nations Framework Convention on Climate Change (UNFCCC), United Nations Institute for Training and Research (UNITAR), United Nations Educational, Scientific and Cultural Organization (UNESCO), United Nations University

				(UNU), World Health Organization (WHO), and World Meteorological Organization (WMO).		
One UN Climate Change Learning Partnership	The secretariat continues its close engagement with the United Nations Institute for Training and Research (UNITAR) with regard to the advancement of the One UN Climate Change Learning Partnership (UN CC:Learn), a cooperative initiative of 33 multilateral organizations. UN CC:Learn supports Member States, United Nations agencies and other development partners in designing and implementing results-oriented and sustainable learning to address climate change, as a direct contribution to the implementation of the Doha work programme on Article 6 of the Convention.	UNFCCC secretariat participated in the steering committee of UN CC:Learn in October 2014 in Geneva. Additionally, the secretariat provided technical assistance in selecting the new countries which will develop and implement climate change learning strategies. In 2014, UN CC:Learn expanded from five countries (Benin, Dominican Republic, Indonesia, Malawi and Uganda) to 16 countries. The new countries selected include: Burkina Faso, Ethiopia, Ghana and Niger as well as 7 Central American countries (Belize, Costa Rica, El Salvador, Guatemala, Honduras, Nicaragua, and Panama) through a sub-regional CC:Learn programme.	10 January 2014 - 10 March 2014, International ,	UNITAR		http://www.uncclearn.org/
Social media outreach on climate finance ("Climate Finance	This outreach initiative was carried out by the secretariat to enhance	Enhanced awareness of climate finance for Parties, including for	1 January 2014 - 30/06/2014, Not applicable	UNFCCC		Twitter: @UN_climatetalks, and hashtag #climate

The Adaptation Exchange on Facebook	The objective of this page is to stimulate collaboration, sharing and networking on adaptation. This page is a shared collaboration space, hosted by the UNFCCC. We strive to ensure that as many stakeholders as possible are included, and that all information on this page is relevant and current.	Engage a wide range of individuals and organizations involved in climate change adaptation; stimulate collaboration, sharing and networking on adaptation; provide an active community forum to share relevant and current information to enable learning and inspiration for effective adaptation action.	7 January 2011 - , Global, global	UNFCCC secretariat + a wide community of individuals and organizations involved in climate change adaptation		https://www.facebook.com/The.Adaptation.Exchange
Second forum of the Standing Committee on Finance (SCF)	The objective of the forum is to ensure communication and continued exchange of information among bodies and entities dealing with climate change finance in order to promote linkages and coherence (decision 2/CP.17 paragraph 121 (a))	The theme of the second forum of the SCF was “Mobilizing adaptation finance” with the objective of promoting the mobilization of adaptation finance through the sharing of experiences, best practices and innovative ideas. The forum brought together representatives from Parties, financial institutions, the private sector, civil society and academia. Participants discussed about various finance options available for adaptation projects, shared lessons learnt from actions on the ground and exchanged technical	21–22/06/2014, Montego Bay, Jamaica	UNFCCC		http://unfccc.int/8138.php
