

## **Report Back: Breakout Group #2**

### ***Enhancing the capacities of developing countries to implement NDCs in the context of the Paris Agreement (solutions and best practices)***

- **Key discussion points:**

- *Necessary to go beyond making CB portal a platform for best practices*
  - *Forming of task forces including specific experts and decision makers*
  - *Look into other existing portals to collect information on CB activities*
  - *Contact governments, have workshops to establish networks within PCCB*
  - *CB portal could create a platform for creating partnerships*
  - *Virtual space for exchange of information*
  - *CB needs assessments (pros and cons):*
    - **CB needs assessments needed for PCCB to address gaps and needs to achieve ambition**
    - **PCCB could prepare guidelines with steps to go from NDCs to implementation**
    - **PCCB could establish a library of good practices and lessons learned through submissions of gaps & needs**
    - **PCCB can get in touch with governments to collect information on gaps and needs, and filter that information**
    - **Existing information such as TNAs and existing portals can be used.**
