Context for Climate Change Learning and Capacity Development

- Unprecedented challenges for learning and skills development

- Different sectors of government

- Different levels of governance (e.g. national, sub-national)

- Different groups (e.g. private sector, civil society, etc.)

- Complex issues

Issues, Challenges and Opportunities

1. Gaps between demand and supply of learning

2. Quality of training design, delivery, monitoring and evaluation

3. Linking learning to organizational/programmatic objectives

4. Institutional capacities in countries to deliver training
