## REINHARD MECHLER

---

Reinhard Mechler has more than 15 years of experience working on socio-economic aspects related to disaster risk and resilience, and climate change. He currently is deputy director of the 'Risk & Resilience' research program at the International Institute for Applied Systems Analysis (IIASA). He is a visiting professor at the University of Graz, as well as a senior lecturer at the University for Economics and Business in Vienna.

Reinhard Mechler has been leading and contributing to many international research and consultancy projects. He acted as a lead author on IPCC's special report on adaptation to extreme events (SREX) and on IPCC's 5th assessment report (Working group II).
