
TAKESHI KUWABARA

Vice President and Executive Officer

Sompo Risk Management and Health Care Inc.

Takeshi Kuwabara has first-hand field experiences in managing general engineering projects overseas as a prime contractor and a risk control / risk assessment specialist for large property insurance programs including intensive coverage for natural perils.

He was a team member of JICA's project on the incentive mechanism for improving disaster resiliency of electric power distribution network in the Philippines in 2015. He is currently focusing on the study for the insurance mechanism for incentivizing disaster resilient public infrastructure in Metro Manila commissioned by JICA in the partnership with GSIS.
