GEF support for mitigation and adaptation actions: The Gambia example

In-Session Workshop on Long-Term Finance

Bonn, 15 May 2017

Chizuru Aoki
Global Environment Facility

Supporting The Gambia

INDC

Mitigation

- ⑩ Agriculture (rice production)
- ⑩ Energy (lighting, solar water, RE+EE, cook stoves, transmission loss)
- ⑩ Transport, waste
- ⑩ Afforestation
- ⑩ RE

Adaptation

- ⑩ NAP process

13 tech transfer needs

TNA (ongoing)

TNA + Technology Action Plan

Integrated with NDC and NAP

Mitigation

Adaptation

GEF

Support NDC implementation & TNA Portfolio Formulation

✓ Ongoing projects aligned with INDC:

- ⑩ SE4All Action Agenda (cook stoves, RE/EE, platform)
- ⑩ Adapting Agriculture

Pending projects to address priorities:

- ⑩ Synergy with GCF project

INVESTING IN OUR PLANET

How can GEF help address barriers?

- Transforming policy and regulatory environments
- Demonstrating innovative technologies and business models
- Strengthening institutional capacity and decision-making processes
- Convening multi-stakeholder alliances
- De-risking partner investments
