

Conclusion and Way Forward

UNFCCC LDC Expert Group

LDC Workshop on National Adaptation Programmes of Action – Dar Es Salaam, October 18-23, 2009

UNITED NATIONS FRAMEWORK CONVENTION ON CLIMATE CHANGE

Key points

- Successful NAPA implementation involves managing processes as much as projects
- Thorough implementation strategies can help take advantage of opportunities as increased funding becomes available
- As opportunities for adaptation arise, it will become important to build on existing capacity and to promote continuity

Broadening the scope

- NAPAs have focussed on “urgent and immediate” adaptation needs
- Where feasible, implementation strategies should also focus on longer-term adaptation challenges
 - How to integrate climate change and climate risk management into sectoral policies
 - How to make sure progress on MDGs isn’t undermined by climate change
- There is scope for developing analytical tools to integrate climate change issues into economic and development planning
