AND DEVELOPMENT ACTION**

NDC Partnership - State of Play

*Commission's Expert Group on Climate Change and
Development, Brussels, June 26th, 2017*

Dr. Romeo Bertolini
NDC Partnership Support Unit

26 June 2017

The NDCs: universal response to the climate challenge

162 INDCs submitted,
representing **189** countries

Global emissions covered by countries that submitted an INDC ⓘ

98.8%

140 (I)NDCs include both adaptation and mitigation

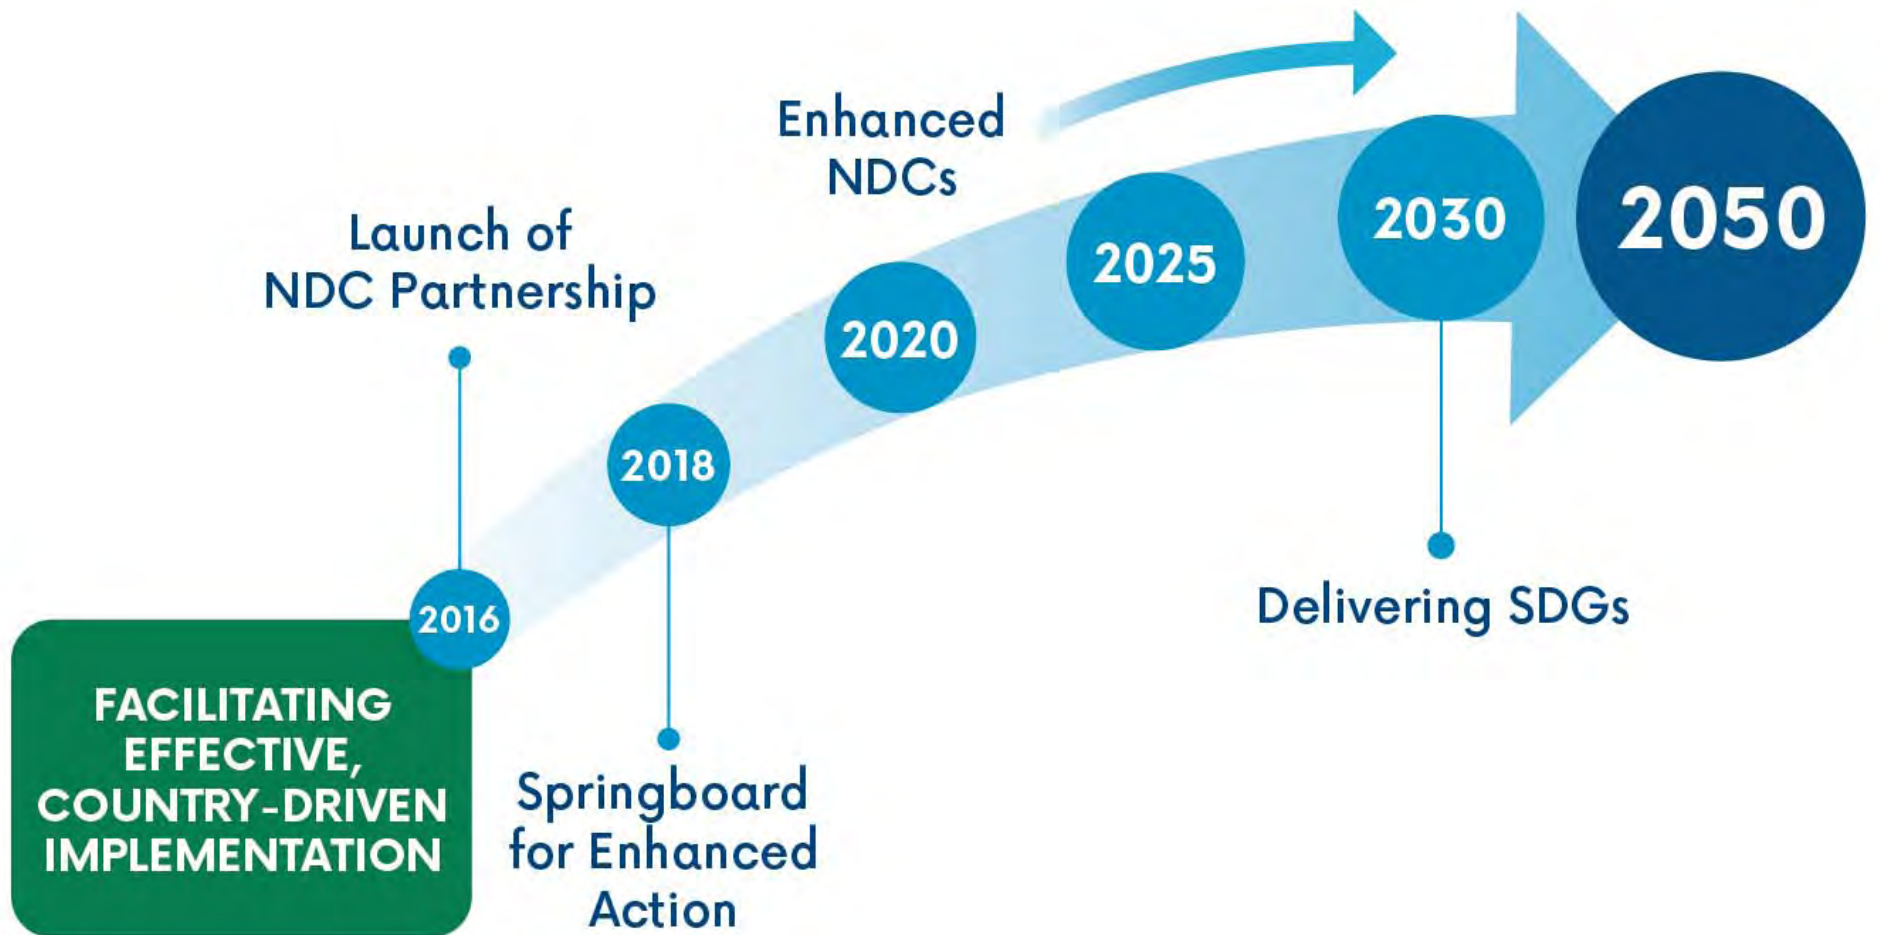

Around **3.3** Gt CO₂ eq reduction by 2030 compared to pre-(I)NDCs trajectory*

49 (I)NDCs are conditional only
78 (I)NDCs are partially conditional

* Median reduction. Source: UNFCCC, Aggregate effect of the intended nationally determined contributions: an update

Advancing Ambition

NDC Partnership Objectives

Through cooperation and joint approaches:

- Political awareness for Paris implementation beyond 'climate silo'
- Promote transformational climate policies
- Align climate action with development planning
- Country owned

- Better informed and more responsive NDC support programs
- Access to and effective use of existing NDC support programs

Members to date

- 59 Member Countries (43 Developing, 16 Developed)
- 9 International Organizations

WORLD BANK GROUP

European Bank
for Reconstruction and Development

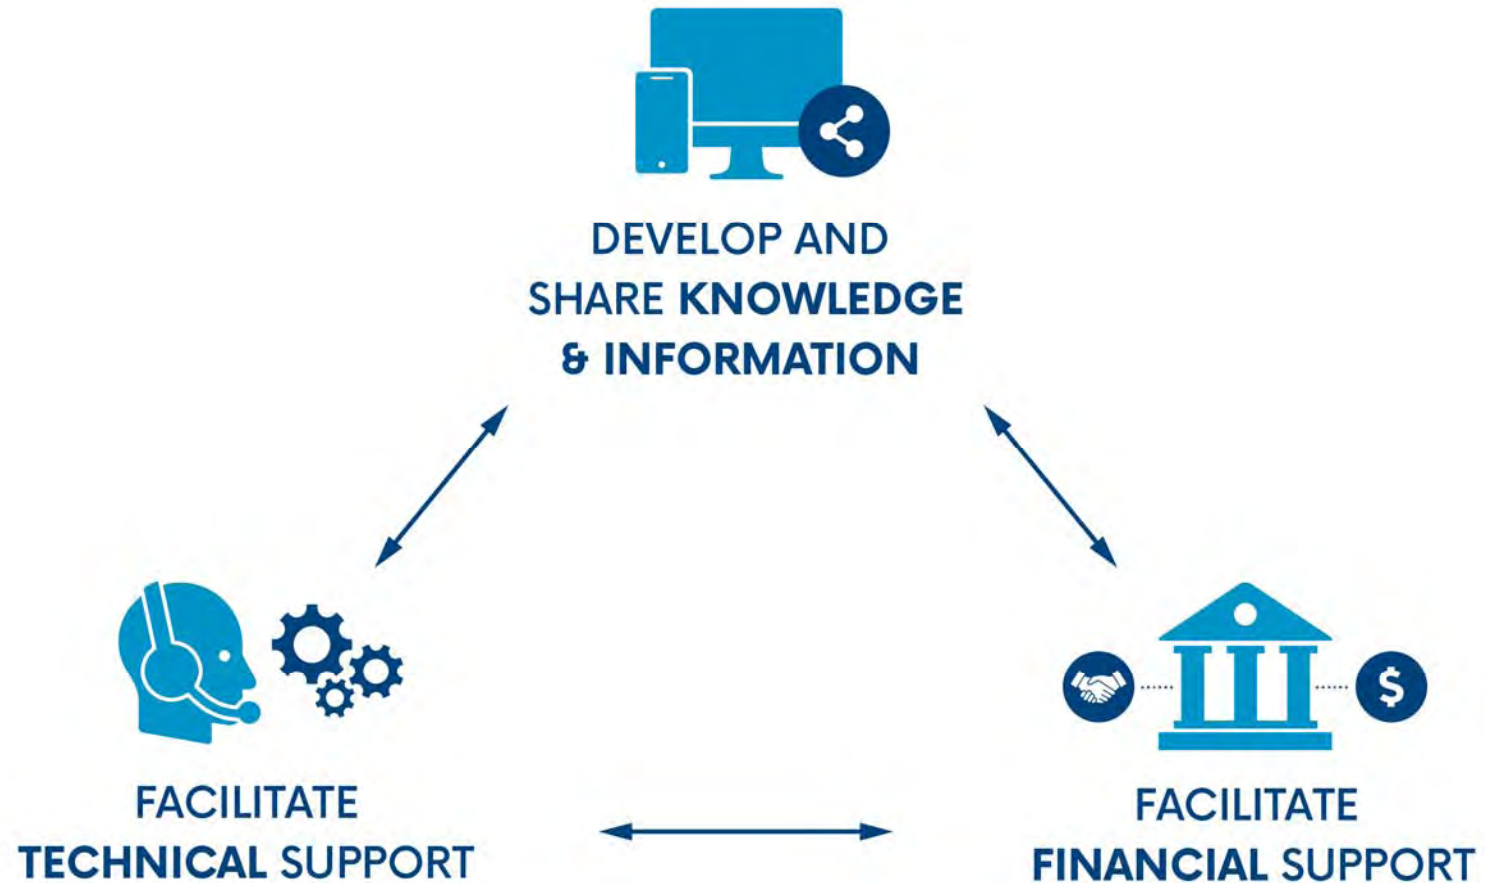

Operating the Partnership: Support Unit

In Washington D.C. at WRI HQ, Bonn at UNFCCC, and other locations to be determined

What the Partnership does

Knowledge Tools

NDC FUNDING & INITIATIVES NAVIGATOR

Country Engagement

In-Country Engagement Model

Activities requested by and ongoing in

- Colombia
- Costa Rica
- Fiji
- Mali
- Marshall Islands
- Mexico
- Mongolia
- Morocco
- Pakistan
- Peru
- Tunisia
- Uganda
- Vietnam
- Namibia
- Sao Tome e Principe
- Honduras

Examples of current country engagement

Pakistan: Institutional Support, Whole of Government

- Support the implementation of the National Climate Change Act 2017
- Foster interplay between federal and provincial level in the implementation of its NDC, energy sector
- Support the Ministry of Climate Change in coordinating climate change policy and implementation

Columbia: Sectoral and territorial

- Transform the priorities of Territorial Climate Change Action Plans into concrete actions,
- Operationalize sectoral priorities, i.e., developing implementation plans, detailing infrastructural needs and structuring financial arrangements.

Examples of current country engagement

Morocco: Support national institution

- Coordinate climate expertise in the country and region with the Moroccan Climate Change Centre (4C)
- Strengthen the 4C through the NDC Special Facility to foster again whole of government approach to NDC implementation

Fiji: Stocktake and integration into national planning

- Plan technical assistance for revamping the NDC during revision period (facilitative dialogue)
- Review and integrate climate policy into the national development plan

Cooperation with EC and MS

With EU Member States that signed up for the Partnership

- Support Knowledge Products, for instance France (IDDRI), Sweden (SEI), Germany (German Development Institute GDI DIE)
- Cooperate in Country

Commission Programs

- Joint approaches in member countries through country facilitation
- Build on mutual networks to further facilitate dialogue and coordination
- Align and complement technical and financial assistance (Co financing PAGODACO)

EUROCLIMA+: Brazil, Chile, Colombia, Costa Rica, El Salvador, Guatemala, Mexico, Panama, Honduras, and Peru

GCCA+ Mali, Mozambique, Sao Tome and Principe, and Uganda

Upcoming Events for Engagement

- Fiji Pre Cop (July)
- Namibia Workshop (August/September)
- Steering Committee Meeting (September)
- Mongolia Workshop (September)
- COP23 (Bonn, 6-7 November)
 - High-Level Forum (Bonn, 11 November)
 - High-Level Ministerial Event (14 November)
- Launch of NDC Data Explorer (November)
