

Data on forest management

Parties are invited to submit the following data and information, without presuming particular accounting rules, by November 27, 2009.

	A	B	C	D	E	F	G	H	I
Party	1990 emissions/removals (MtCO ₂ e/yr)	Proposed reference level & reference interval (if any) ¹ (MtCO ₂ e/yr)	Forecast for 1 st CP ² (MtCO ₂ e/yr)	Forecast for 2013-2020 ³ (MtCO ₂ e/yr)	Forecast based on 1990 (MtCO ₂ e/yr) (E = D-A)	Forecast based on reference level (MtCO ₂ e/yr) (F = D-B)	Forecast based on 1 st CP (MtCO ₂ e/yr) (G = D-C)	Forecast under Option B for 2013-2020 (MtCO ₂ e/yr)	Comments ⁴

¹ Reference interval refers to the proposed “band.” It should be expressed in absolute numbers and not as percentages (e.g. from 0 to XX MtCO₂e/yr).

² Absolute numbers, without application of the cap listed in the appendix to decision 16/CMP.1.

³ Annual average for the period. This period in no way prejudices the length of the next commitment period.

⁴ Each Party should provide a brief summary explaining how the data were established, including assumptions related to the treatment of natural disturbances, harvested wood products and any other relevant issues, as well as, if applicable, how elements contained in paragraph 11 Option 3 (contained in Option A of Annex II of FCCC/KP/AWG/2009/10/Add.3/Rev.3) were taken into account. Parties should also clarify how the reference interval, if included, has been taken into account. Columns can be added for this purpose.
