

COMPLIANCE COMMITTEE

CC/ERT/ASR/2016/20 1 September 2016

Status report of the annual inventory of Austria

Note by the secretariat

The status report of the annual inventory of Austria was published on 29 July 2016. For purposes of rule 10, paragraph 2, of the Rules of procedure of the Compliance Committee (annex to decision 4/CMP.2, as amended by decisions 4/CMP.4 and 8/CMP.9), the report is considered received by the secretariat on the same date. This report, FCCC/ASR/2016/AUT, contained in the annex to this note, is being forwarded to the Compliance Committee in accordance with section VI, paragraph 3, of the annex to decision 27/CMP.1 and paragraph 49 of the annex to decision 22/CMP.1.

Distr.: General 29 July 2016

English only

Status report of the annual inventory of Austria

- 1. This status report was prepared by the secretariat pursuant to decision 22/CMP.1 in conjunction with 4/CMP.11, as part of the initial check of Austria's annual inventory, submitted in accordance with decisions 24/CP.19, 15/CMP.1 in conjunction with 3/CMP.11 and 2/CMP.8. It reflects the content of the inventory submission of 2016 as originally submitted by the Party on 14 April, and of the resubmission received on 15 June 2016.
- 2. In this report, the following abbreviations are used:

CRF: common reporting format

GHG: greenhouse gas

HWP: harvested wood products

KP-LULUCF: Article 3, paragraphs 3 and

4, activities under the Kyoto Protocol

LULUCF: land use, land-use change and

forestry

IPPU: industrial processes and product use

NIR: national inventory report

SBDT: sectoral background data tables

SEF: standard electronic format SWDS: solid waste disposal sites

Gases

CO2: carbon dioxide CH4: methane N2O: nitrous oxide

HFCs: hydrofluorocarbons PFCs: perfluorocarbons

MIX: Unspecified mix of HFCs and PFCs

SF6: sulphur hexafluoride NF3: nitrogen trifluoride NOX: nitrogen oxides CO: carbon monoxide

NMVOCs: non-methane volatile organic

compounds

SO2: sulphur dioxide

Kyoto Protocol units

AAU: assigned amount unit ERU: emission reduction unit

RMU: removal unit

CER: certified emission reduction ICER: long-term certified emission

reduction

tCER: temporary certified emission

reduction

Notation keys

C: confidential

IE: included elsewhere NA: not applicable NE: not estimated NO: not occurring

NIR	Description The organization of the NIR, in general, follows the structure outlined in the updated UNFCCC reporting guidelines. f												l	
1	Language of NIR	Engl	ish											
CRF^{g}	Missing source category larger than 7 per cent assessment is not applicable in 2016 cent for categories included in Annex A to the Kyoto Protocol													

- ^a CRF tables are contained in annex II to decision 24/CP.19.
- ^b Additional information can be any information submitted by a Party in conjunction with the NIR or CRF tables.
- ^c Parties included in Annex I to the Convention undergoing the process of transition to a market economy may use a base year or a period of years other than 1990, in accordance with the provisions of Article 4, paragraph 6, of the Convention and decisions 9/CP.2 and 11/CP.4.
- d A Party may select 1990 or 1995 as the base year for HFC, PFC and SF₆ gases in accordance with Article 3, paragraph 8, of the Kyoto Protocol.
- e A Party may select 1995 or 2000 as the base year for NF₃ in accordance with Article 3, paragraph 8 bis of the Doha Amendment to the Kyoto Protocol.
- ^f "Revision of the UNFCCC reporting guidelines on annual inventories for Parties included in Annex I to the Convention" (decision 24/CP.19).
- ^g A Party has not reported an estimate for an Annex A source category that accounted for 7 per cent or more of the Party's aggregate emissions (decision 15/CMP.1, para. 3(b), in conjunction with decision 3/CMP.11).

		Provided	Observation							
	That events and circumstances were beyond the control of the Party	√	There were no occurances of natural disturbance events in 2013 and 2014 reporting.							
	The efforts taken to rehabilitate the land for which the provisions contained in decision 2/CMP.7, annex, paragraph 33, are applied	√	There were no occurances of natural disturbance events in 2013 and 2014 reporting.							
	That emissions associated with salvage logging were not excluded from accounting	✓								
	accounted for by instantaneous oxidation, information on GHG emissions/removals resulting from es in the HWP pool accounted for in accordance with decision 2/CMP.7, including:									
	Activity data for the HWP categories used for estimating the pool removed from domestic forests, for domestic consumption and for export	√								
	Half-lives used in estimating emissions/removals for the HWP categories used	✓								
	Whether emissions from HWP originating from forests prior to the start of the second commitment period have been included in the accounting, if the forest management reference level is based on a projection	✓								
	How emissions from the HWP pool accounted for in the first commitment period on the basis of instantaneous oxidation have been excluded from the accounting for the second commitment period	✓								
	How the HWP resulting from deforestation have been accounted on the basis of instantaneous oxidation	√								
	How CO2 emissions from HWP in SWDS and from wood harvested for energy purposes have been accounted on the basis of instantaneous oxidation	√								
	How emissions/removals from changes in the HWP pool accounted for do not include imported harvested wood products	√								
	nation on anthropogenic GHGs from LULUCF activities under Article 3, paragraph 3, and Article agraph 4, factoring out removals from:									
	Elevated CO ₂ concentrations above pre-industrial levels	✓								

	PART IV										
	Provision of information relating to KP-LULUCF activities under Article 3, paragraphs 3 and 4 (continued)										
			Provided	Observation							
		Indirect nitrogen deposition	✓								
		The dynamic effects of age structure resulting from activities prior to 1 January 1990	✓								
	Specif	ic information to be reported for activities under Article 3, paragraph. 3:									
		Activities under Article 3, paragraph 3, that began on or after 1 January 1990 and before 31 December of the last year of the commitment period, and are directly human-induced	√								
		How harvesting or forest disturbance that is followed by the re-establishment of forest is distinguished from deforestation	√								
	Specif	ic information to be reported for activities under Article 3, paragraph 4:									
		Activities under Article 3.4 that occurred since 1 January 1990 and are human induced	✓								
		Cropland management, grazing land management, revegetation, wetland drainage and rewetting: emissions/removals reported for each year of the commitment period and for the base year for each of the elected activities on the geographical locations reported	✓	Austria does not elect cropland management, grazing land management, revegetation or wetland drainage and rewetting							
		Emissions/removals from activities under Article 3, paragraph 4, are not accounted for under activities under Article 3, paragraph 3	√								
		Information on how emissions arising from the conversion of natural forests to planted forests are accounted for	√								
ĺ		Methodological consistency between the reference level and reporting for forest management	✓								
		Technical corrections made pursuant to decision 2/CMP.7, annex, paragraph 14	✓								
		Forest management: if emissions/removals from the harvest and conversion of forest plantations to non-forest land were included, information how requirements set out in decision 2/CMP.7, annex, paragraphs 37–39 were met, including:									
		The identification of all lands and associated carbon pools subject to decision 2/CMP.7, annex, paragraph 37, including the georeferenced location and year of conversion	√	Austria does not apply the provision on "Carbon equivalent forests".							

PART IV											
Provision of information relating to KP-LULUCF activities under Article 3, paragraphs 3 and 4 (continued)											
	Provided	Observation									
A demonstration that the forest plantation was first established through direct human-induced planting and/or seeding of non-forest land before 1 January 1990, and, if the forest plantation was re-established, that this last occurred on forest land through direct human-induced planting and/or seeding after 1 January 1960	√	Austria does not apply the provision on "Carbon equivalent forests".									
A demonstration that a new forest of at least equivalent area to the harvested forest plantation is established through direct human-induced planting and/or seeding of nonforested land that did not contain forest on 31 December 1989	✓	Austria does not apply the provision on "Carbon equivalent forests".									
A demonstration that this newly established forest will reach at least the equivalent carbon stock that was contained in the harvested forest plantation at the time of harvest, within the normal harvesting cycle of the harvested forest plantation, and, if not, a debit would be generated under Article 3, paragraph 4	√	Austria does not apply the provision on "Carbon equivalent forests".
