Direct line: +49 228 815-1358

Dear Mr. Ruzinski,

Thank you for your letter dated 21 December 2011, with a request to enter into the compilation and accounting database the following values for the assigned amount and initial value of the commitment period reserve for Croatia: 148,778,503 tonnes CO₂ equivalent for the assigned amount and 133,900,653 tonnes CO₂ equivalent for the initial value of the commitment period reserve.

We received your letter on 28 December and I am pleased to inform you that the change you had requested has been made. From now on, the values of the assigned amount and initial value of the commitment period reserve in the compilation and accounting database correspond to the values above, which, as you noted, are the values determined by the expert review team during the initial review of Croatia, see document FCCC/IRR/2008/HRV.

We look forward to a continued collaboration.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Sergey Kononov'.
