## 1.2. Summary of findings

Ref Nr	Summary of findings
P2.2.1	<ol style="list-style-type: none"> <li>1. The information on Kyoto Protocol units has been reported in accordance with section I.E of the annex to decision 15/CMP.1 and is accurate. The national registry continues to fulfill the requirements related to its reporting and accounting of information on Kyoto Protocol units, transaction procedures, conformance to the technical standards, public availability of information, security, data integrity, and recovery measures.</li> <li>2. Bulgaria has reported information on its accounting of Kyoto Protocol units in the required SEF tables, as required by decisions 15/CMP.1 and 14/CMP.1. The SIAR assessor reviewed the findings included in the SIAR on the SEF and the SEF comparison report. The SIAR was forwarded to the ERT prior to the review, pursuant to decision 16/CP.10.</li> <li>3. Information on the accounting of Kyoto units has been prepared and reported in accordance with section I E of the annex to decision 15/CMP.1, and reported in accordance with decision 14/CMP.1 using the SEF tables.</li> <li>4. Information reported by Bulgaria on records of any non-replacement was found to be consistent with information provided to the secretariat by the international transaction log (ITL).</li> <li>5. Bulgaria reported extensive information regarding the registry but it is unclear if this information reflects a change to the national registry compared with the previous annual submission. The SIAR assessor finds that the national registry continues to perform the functions set out in the annex to decision 13/CMP.1 and the annex to decision 5/CMP.1, and continues to adhere to the technical standards for data exchange between registry systems in accordance with relevant Conference of the Parties serving as the meeting of the Parties (CMP) to the Kyoto Protocol decisions.</li> <li>6. Bulgaria has reported its commitment period reserve in its 2009 annual submission.</li> <li>7. The national registry does not fulfill the requirements regarding the public availability of information in accordance with section II.E of the annex to decision 13/CMP.1. The SIAR recommends that the Party make publicly available information required by 13/CMP.1 Annex, paragraph 45 (account information), paragraph 46 (Article 6 JI project information), and paragraph 47 (holding and transaction information). If any part of this information is deemed confidential, the Party should include an explicit statement in its NIR and on its public website indicating exactly which data is confidential, referencing the relevant regulations.</li> </ol> <p><u>Recommendations:</u></p>
