Subsidies for transparency on REDD+

Decision 9/CP.19

Results for each relevant period expressed in tonnes of carbon dioxide equivalent per year and link to the technical report;

The assessed **forest reference emission level(s)** and/or forest reference level(s) expressed in tonnes of carbon dioxide equivalent per year and a link to the final report;

How all of the **safeguards** are being addressed and respected;

A link to the **national strategy or action plan**;

Information on the national forest **monitoring** system;

Quantity of results for which **payments** were received, expressed in tonnes of carbon dioxide equivalent per year, and the **entity paying for results**;

Basic principles

Database

- Open format
- Interoperable
- Simple

Information layout

- User friendly

Consultation process

Decision 9/CP.19, para 13: Agrees that *the information on results-based payments is to be inserted on the information hub in consultation with the developing country Party concerned*, taking into full account decision 10/CP.19, paragraph 2;

Decision 10/CP.19, para 2: Notes that *the national entities or focal points of developing country Parties may, in accordance with national circumstances and the principles of sovereignty, nominate their entities to obtain and receive results-based payments, consistent with any specific operational modalities of the financing entities providing them with support (...)*

Simplified Form (1/2)

Please, fill the information requested in each field (in some cases it is necessary to fill the field and another ones it is necessary just choose a option)	
GENERAL INFORMATION	
Developing Country	Brazil
Region	America
National REDD+ Entity	Ministry of the Environment
RESULTS	
Type of Reference Level	FREL
Data used	Historical data only
Activities included	Deforestation
Approach	<ul style="list-style-type: none"> Deforestation Forest Degradation Conservation of forest carbon stocks Sustainable management of forests Enhancement of forest carbon stocks
If your previous answer was "Subnational", please inform what type spatial division was taken (province, biome, etc)	
Is the FREL/FRL a fixed measurement or dynamic?	Dynamic
Reference level (t CO ₂ e)	1106040000
Results' period starting in	2006
Results' period finishing in	2010
Result (t CO ₂ e)	2971022275

Simplified Form (2/2)
