Another difference to other aid organisations is that GIZ has a large global network of national offices and personnel

GIZ's purpose is to promote international cooperation for sustainable development and education work.

As a 100% federally owned, public-benefit enterprise, we support the German Government in achieving its objectives in the field of international cooperation for sustainable development.

Our annual turnover is about 2 billion Euro.

As an advocate of sustainable urban mobility, GIZ supports improving of mobility conditions in cities by providing knowledge, trainings, peer-to-peer exchanges, assessments and targeted project implementation.

## Global Initiatives: Linking projects and international agenda

### Relevance of global initiatives

- Agenda setting & visibility
- Growing a "coalition of the ambitious" (OECD & non-OECD)
- Driving force for transformation including private sector and civil society (non-state actors)
- Streamlining new topics
- Coordinated use of climate finance
- Methodological coherence
- Aggregated-results monitoring and reporting
- Peer-to-peer learning & networks

**Mobilise Your City**

100 cities engaged in sustainable urban mobility!

20 countries develop national urban mobility policies!
