

Decision -/CP.23

Establishment of a gender action plan

The Conference of the Parties,

Recalling decisions 36/CP.7, 1/CP.16, 23/CP.18, 18/CP.20, 1/CP.21 and 21/CP.22 as well as the Paris Agreement,

Reaffirming the General Assembly resolution on the 2030 Agenda for Sustainable Development,

Noting that gender-responsive climate policy continues to require further strengthening in all activities concerning adaptation, mitigation and related means of implementation (finance, technology development and transfer and capacity-building) as well as decision-making on the implementation of climate policies,¹

Also noting that, notwithstanding the progress made by Parties in implementing the decisions referred to above, there is a need for women to be represented in all aspects of the Convention process and a need for gender mainstreaming through all relevant targets and goals in activities under the Convention as an important contribution to increasing their effectiveness,

Acknowledging with appreciation the important role of the extended Lima work programme on gender in integrating gender considerations into the work of Parties and the secretariat in implementing the Convention and the role of the gender action plan (contained in the annex) in supporting the implementation of gender-related decisions and mandates under the UNFCCC process,

Recalling decision 21/CP.22, paragraph 27, which mandated the development of a gender action plan in order to support the implementation of gender-related decisions and mandates under the UNFCCC process, which may include priority areas, key activities and indicators, timelines for implementation, responsible and key actors and indicative resource requirements for each activity, and the further elaboration of its review and monitoring processes,

Recalling that Parties should, when taking action to address climate change, respect, promote and consider their respective obligations on human rights as well as gender equality,

Taking into account the imperative of a just transition of the workforce when implementing the gender action plan,

1. *Adopts* the gender action plan, contained in the annex, under the Lima work programme on gender;
2. *Invites* Parties, members of constituted bodies, United Nations organizations, observers and other stakeholders to participate and engage in implementing the gender action plan referred to in paragraph 1 above (hereinafter referred to as the gender action plan), with a view to advancing towards the goal of mainstreaming a gender perspective into all elements of climate action;

¹ Decision 21/CP.22.

3. *Welcomes* the technical paper prepared by the secretariat on achieving the goal of gender balance;²
4. *Notes* the lack of progress made in delegations and constituted bodies towards the goal of gender balance;
5. *Requests* the secretariat to prepare, for consideration by the Subsidiary Body for Implementation at its session to be held in November 2019, a synthesis report on the implementation of the gender action plan, identifying areas of progress, areas for improvement and further work to be undertaken in subsequent action plans, so as to elaborate recommendations for consideration by the Conference of the Parties at its twenty-fifth session (November 2019) in the context of the review referred to in paragraph 7 below;
6. *Decides* that the topics of the annual in-session workshops to be held in conjunction with the sessions of the subsidiary bodies taking place in the first sessional period of 2018 and 2019³ will be based on the submission referred to in activity E.1 of priority area E of the gender action plan (see table 5) and on the short- and long-term impacts of the gender action plan, which may also be informed by the synthesis report referred to in paragraph 5 above, respectively;
7. *Also decides* to review, at its twenty-fifth session, the implementation of the gender action plan in the context of the review of the Lima work programme on gender⁴ so as to consider the next steps, including an assessment of the impacts of the gender action plan;
8. *Invites* Parties and relevant organizations to participate and engage in the implementation of gender-related activities within the gender action plan, including enhancing the capacity of the gender focal point of the secretariat;
9. *Takes note of* the estimated budgetary implications of the activities to be undertaken by the secretariat referred to in paragraphs 1, 5 and 6 above;
10. *Requests* that the actions of the secretariat called for in this decision be undertaken subject to the availability of financial resources.

² FCCC/TP/2017/8.

³ Decision 21/CP.22, paragraphs 11 and 12.

⁴ Decision 21/CP.22, paragraph 6.

Annex

Gender action plan

1. By decision 21/CP.22, paragraph 27, the Subsidiary Body for Implementation was requested to develop a gender action plan (GAP) in order to support the implementation of gender-related decisions and mandates in the UNFCCC process, which may include priority areas, key activities and indicators, timelines for implementation, responsible and key actors and indicative resource requirements for each activity, and to further elaborate its review and monitoring processes.
2. The GAP, created under the Lima work programme on gender, seeks to advance women's full, equal and meaningful participation and promote gender-responsive climate policy and the mainstreaming of a gender perspective in the implementation of the Convention and the work of Parties, the secretariat, United Nations entities and all stakeholders at all levels.
3. Gender-responsive climate policy requires further strengthening in all activities concerning adaptation, mitigation and related means of implementation (finance, technology development and transfer, and capacity-building) as well as decision-making on the implementation of climate policies. The GAP recognizes the need for women to be represented in all aspects of the UNFCCC process and the need for gender mainstreaming through all relevant targets and goals in activities under the Convention as an important contribution to increasing their effectiveness.
4. The GAP recognizes that gender-related action is being progressed across all areas of the Convention and with respect to the Paris Agreement. Many of the activities in the GAP have been the subject of action by a variety of relevant organizations and will continue to require further action beyond the time frame of the plan.
5. The activities in the GAP vary in terms of measurability, and Parties are at various stages in terms of progress on this agenda. Some actions may be afforded differing degrees of prioritization according to the nature and scale of the climate policies being implemented and the capacities of Parties. The GAP recognizes that climate action under the Convention is a Party-driven process.

Priority areas

6. Parties, the secretariat and relevant organizations are invited to undertake the activities contained in the GAP, as appropriate. The GAP sets out, in five priority areas, the activities that will drive the achievement of its objectives.
 - A. Capacity-building, knowledge sharing and communication**
 7. The GAP seeks to enhance the understanding and expertise of stakeholders on the systematic integration of gender considerations and the application of such understanding and expertise in the thematic areas under the Convention and the Paris Agreement and in policies, programmes and projects on the ground.
 - B. Gender balance, participation and women's leadership**
 8. The GAP seeks to achieve and sustain the full, equal and meaningful participation of women in the UNFCCC process.
 - C. Coherence**
 9. The GAP seeks to strengthen the integration of gender considerations within the work of UNFCCC bodies, the secretariat and other United Nation entities and stakeholders towards the consistent implementation of gender-related mandates and activities.

D. Gender-responsive implementation and means of implementation

10. The GAP aims to ensure the respect, promotion and consideration of gender equality and the empowerment of women in the implementation of the Convention and the Paris Agreement.

E. Monitoring and reporting

11. The GAP seeks to improve tracking in relation to the implementation of and reporting on gender-related mandates under the UNFCCC.
