Submission from Saudi Arabia*

* This submission was submitted on 21 September 2007 and has been electronically imported in order to make it available on electronic systems, including the World Wide Web. The secretariat has made every effort to ensure the correct reproduction of the text as submitted.

SUBMISSION BY SAUDI ARABIA

Dialogue on long-term cooperative action to address climate change by enhancing implementation of the Convention

The Co-facilitators of the Dialogue, invited parties to submit to the secretariat, by 17 August 2007, views on how to integrate the ideas and proposals presented into an appropriate international response to climate.

Saudi Arabia welcomes the opportunity to submit its views on how to integrate the ideas and proposals presented into an appropriate international response to climate.

Saudi Arabia believe that the dialogue should be continues in an informal setting and does not lead to negotiation or commitments on the developing countries and any discussion under this agenda item must take into account the commitment of Annex I parties regarding the financial support, transfer of technology and capacity building for developing countries.
