

Workshop on the revision of the guidelines for the review of national  
GHG inventories from Parties included in Annex I to the Convention

---

Submission by Brazil  
5 August 2014

Bonn, 04 November 2014

---

**Newton Paciornik**

## Overarching Issues

---

- Frequency of the reviews
  - The frequency of the reviews should remain annual
    - Annual **submission** => Annual **review**
- Scope of the reviews
  - Same scope every year
  - Same scope regardless of the format (desk, centralized or in-country)
  - Equal treatment of the Parties

## Overarching Issues

---

- Format of the reviews
  - In-country review
    - Increase frequency (at least once each 4 years)
  - Centralized review
    - At most 4 Parties assigned to each team
  - Desk review
    - Most challenging
    - Allow but restrain use (at most once each 3 years)
    - At most 1 Party to each team
    - Only experienced experts

## Annotated text of the review guidelines

---

- Built upon the draft outcome of SBSTA 40, showing Brazilian preferences:
  - For the options
  - For alternative texts in paragraphs
- Additional text suggestions are provided
