

Information for Paragraph 17

1. Actions taken to correct any problem that caused a discrepancy to occur

No discrepancies that would require reporting occurred, and no actions were taken.

2. Changes to the national registry to prevent a discrepancy from reoccurring

The Registry software was upgraded to version 5, which should aid in making certain that discrepancies identified in previous years should not reoccur.

3. Resolution of any previously identified questions of implementation pertaining to transactions

There were no previously identified questions.
