

# Outcome of the discussion group on target and progress towards the target

3<sup>rd</sup> BRs and NCs lead reviewers meeting

3-4 March, 2016

**Co-facilitators: Christoph STREISSLER, Vute WANGWACHARAKUL**

Bonn, 4 March 2016

## The approaches supported by the LRs as they are in the RPG

---

- The EU 2020 target
- Contribution of LULUCF towards achieving the target
- Contribution of units from market-based mechanisms towards achieving the target

## The approaches improved by the LRs

---

- Revised target definition compared to that reported in the previous BR
  - Delete the bracket in the end of bullet 2(c)
- External target-related information sources
  - Modify: The ERT “can take note of this information **“in the context of the 2020 target”** without including any “encouragements” or “recommendations” with regard to the “INDC” target.
- Progress made towards achieving the target
  - Move bracket (incl. LULUCF and credits from MBM, if applicable) to the end of the second bullet
  - Factual assessment will benefit from further discussion

- What to do when Party (EU MS) reports target that is more ambitious than the EU Convention target?
  - Continue after BR2
