

How can representatives of non-governmental organizations attend sessions?

Only admitted non-governmental organizations may be represented at sessions of the Convention bodies. Admitted non-governmental organizations are notified of the date and venue of sessions by the secretariat. Following the procedures outlined in the notification, they should communicate the names of their representatives, through the designated contact point of the organization, to the secretariat. Any change in the designated contact point or the contact information of the organization, should be communicated to the secretariat to enable a smooth registering of the names of the representatives for sessions. (See contact information [form](#) .) Upon registration at the sessions, these representatives will be issued with a badge allowing access to the conference facilities.
