

The background is a vibrant green with a pattern of stylized leaves and circular bokeh effects. The leaves are in various shades of green and are scattered across the frame. The bokeh consists of soft, out-of-focus circles in lighter green and yellow tones, creating a sense of depth and light.

**Green List of official side events
and exhibits**

at UNFCCC SB 46

May 2017 Bonn, Germany

With a view to reinforcing the greening of the UNFCCC SB 46 in Bonn, the organizers of all official side events and exhibits were strongly encouraged by the UNFCCC secretariat to disseminate their materials through electronic means only.

In order to track the sustainability level of each side event and exhibit, a 3-level rating was introduced:

- ❖ **green** electronic dissemination of materials only
- ❖ **orange** limited number of printed materials combined with electronic dissemination
- ❖ **red** a lot of leftover printed materials

Thanks to the exemplary commitment and cooperation of many side event organizers and exhibitors, **40 side events** (38 % of the total of 91) and **15 exhibits** (49 % of the total of 33) were rated **green***. Only those side events and exhibits have been included in this list. In addition, those **green** side events and exhibits for which electronic materials have been also disseminated through the UNFCCC website are highlighted with additional special ‘badges’ (see the legend below):

100% electronic dissemination of materials

Uploading of side event materials on [the UNFCCC website](#)

The **green** side events and exhibits are listed in alphabetical order according to the name of the lead organizer (in bold), which is followed by the co-organizer(s) name(s). The **green** side events organized by UN and related organizations, including UNFCCC, are listed on a separate page at the end of the side events list.

* The evaluation of the sustainability level of each side event was implemented by side events liaison staff onsite. If you have any question or remark about the rating, please contact see@unfccc.int.
