Role of the lead organizer

The lead organizer of the side event acts as the focal point for the joint event toward the secretariat:
- After confirmation of the event, all communication from the secretariat is sent to the lead organizer only, who is responsible to pass the information on to the co-organizers.
- Any request to revise the title, description, speakers, and swap the allocated time slots with other organizers, etc. can only be received from the lead organizer.
- Only the lead organizer can upload files related to the side event to the web schedule.

Location of side event area

All side events confirmed by the secretariat will take place at the World Conference Center Bonn (WCCB), Platz der Vereinten Nationen 2, 53113 Bonn, Germany. More information on the venue is available [here](#).

The side event rooms area is located on the Rhine level, in the WCCB 2, Plenary Building.

Registration of speakers and participants

Since the side event rooms will be located within the UNFCCC Conference venue, all speakers and participants who wish to take part in an event must be in possession of a conference badge for SB 46, i.e. duly registered with the UNFCCC secretariat as representative of a Party or observer organization, in order to access side event rooms. Additional registration to attend a side event is not necessary.

The above also applies to any staff required to access the venue to support your side event.

Conference badges have to be picked up before registration closes for the day. The confirmation of your event does not justify a request for quota increase for your delegation or extension of registration office hours. Please ensure that speakers are aware of these arrangements.

All side event rooms are equipped with Skype, which can be used to connect your speaker(s) remotely. If you decide to use this possibility, the speaker(s) would not need to be physically present at the side event and would thus not require registration for the conference.

Schedule and room name

The date, timing, room name and room size of your side event are published on [our web schedule](#).

If you wish to change the date, please approach other side event organizers directly and inform us of the agreed details within your respective SEORS accounts. The secretariat will thereafter let you know through SEORS whether your joint request for date changes has been accepted.

Room layout and equipment

The standard layout of the side event rooms comprises:
- 6 chairs and tables for the speakers;
- a lectern;
- rows of chairs for the audience.

All side event rooms are equipped with:
- a laptop
- a video projector;
- a screen
- a sound system;
- PowerPoint software
- Skype;
- internet access;
- microphones at the podium;
- a soft throwable microphone for Q&A sessions (Catchbox);

No webcast equipment will be provided by the secretariat in the side event rooms.

**It is not permitted to:**
- change the layout of the side event room;
- bring in any additional equipment;
- connect any personal computer to the presentation equipment;
- bring any food or beverages inside the side event room;
- set up any decoration other than roll-up banners next to and/or behind the podium.

It is the responsibility of the organizer to arrange for passing the throwable microphone during Q&A sessions. Technical staff will only be able to assist you in case of technical problems.

**Translation**

No translation equipment is provided in the side event rooms.

**Virtual participation**

All side events will be **online live broadcast** via [YouTube Live](https://www.youtube.com/live) using the UNFCCC Climate Change Studio [YouTube channel](https://www.youtube.com/c/UNFCCC). The broadcast will include presentation slides (as they appear on the screen) and speaker’s voice. No video of the speaker will be available.

The side events have been scheduled for live broadcast, and their stand-by videos are available in the related playlist on YouTube channel.

The time of the live broadcast is Central European Time (CET). Depending on your computer’s IP settings, it may show the corresponding time in your time zone.

The side event organizers are encouraged to share the link of the stand-by video of their side event through their communication channels in advance of the conference to attract potential online participants.

The live broadcast will be accessible for viewing online to any interested person, who will be able to leave questions through the dedicated YouTube chat. The side event organizers will need to use their own devices (laptops, tablets, smartphones, etc.) to view the questions coming through the chat.

Those who subscribe to the UNFCCC Climate Change Studio [YouTube channel](https://www.youtube.com/c/UNFCCC) will receive an automatic notification from YouTube when a live broadcast is launched.

UNFCCC liaison staff will take care of launching and stopping the live broadcast.
The live broadcast would be recorded and published on the UNFCCC Climate Change Studio YouTube channel and Google+ page within a few hours after the event takes place.

The live broadcast service is provided free of charge. The secretariat will do its best to ensure that every side event is live broadcast, however this cannot be guaranteed in case live broadcast is not possible due to unexpected technical issues.

**Video and audio recording**

The side event rooms are considered to belong to the public areas as mentioned in the guidelines linked below, under ‘Conference policies’. This means that taking photographs and making video and audio recordings in accordance with the established guidelines is in principle allowed in the side event rooms. In such cases, participants should be informed that the side event is on the record.

**Time management**

15 minutes will be reserved in between the events for a change-over. **It is extremely important that you finish your event on time and leave the room in a tidy way** as a courtesy to the organizer of the next side event or closed meeting.

**Announcements**

As part of the on-going efforts to reduce the carbon footprint of the Conference, the side event programme is made available in electronic form only on the secretariat website.

In addition to these, the following communication channels will be used for announcement of the side events:

- CCTV screens on the day of the event throughout the Conference venue;
- Free UNFCCC mobile application “Negotiator”;
- Schedule of the “side events of the day” on a display board at the venue.

For your own announcements of your side event, please favour the electronic means of dissemination as much as possible (website, emails, mobile app, etc.). For on-site announcements, there will be a dedicated location in the side event hall where a limited number of small-size posters (A3 max.) can be displayed by the side event organizers. Please note that any announcements posted outside the dedicated locations will be removed (see page 5 of the “Guidelines for Participation at UNFCCC sessions”).

**Change of title, theme, and speakers**

If you would like to make changes to the title, theme or speakers as displayed on the web schedule, kindly send updated versions of the texts through the communication log of your SEORS personal account.

Please keep in mind that there are the following character limits for each field in SEORS:

- Title: 100 characters including spaces
- Theme/description: 300 characters including spaces
- Speakers: 300 characters including spaces

Changes are possible up until 2 days before the side event takes place. The secretariat will try to implement changes received with shorter notice, but cannot guarantee that they will be reflected on the announcements in time.
Catering

Catering near the side event rooms will be available on a commercial basis. Please contact the catering company directly for catering arrangements. The contact is available on our website.

In order to avoid overlaps with catering from other side events, catering can only be set-up AFTER your side event has taken place.

It is also the responsibility of the side event organizer to ensure that no food or beverages are taken inside the side event room.

In line with the sustainability policy, no water dispensers will be available in the side event rooms, but only onsite. If needed, you can order water for speakers on the podium from the catering company on a commercial basis.

Sustainability and publications

Dissemination of publications

The side event organizers are strongly encouraged to limit the number of printed materials they bring to the Conference to the bare minimum and disseminate all materials in electronic format only.

A limited number of publications related to the side event may be distributed in the side event room. Any publications left behind in the side event room or at the consignment counter will be a waste. It is the responsibility of the organizer to arrange for return shipment of materials.

The secretariat will take note of the side event’s sustainability level (“green” - electronic dissemination only / “orange” - limited number of printed materials combined with electronic dissemination / “red” - a lot of leftover printed materials) and will take this into consideration as a selection criterion for side event applications for future sessions.

The side events rated as “green” will be announced on CCTV screens within the Conference venue on a daily basis, and the final “Green list” will be posted on the website after the session.

Uploading of electronic publications

As one of the means of electronic dissemination of information pertaining to your side event, the secretariat encourages you to use the upload facility in your SEORS account. The materials that are uploaded this way become publicly available for viewing on the UNFCCC website.

The key features of the upload facility in SEORS:
- To access the upload facility, log in to your SEORS account and click under ‘Attachment’.
- There is no limit to the number of files that can be uploaded.
- The size of each attachment is, however, limited to 4 MB.
  - You can reduce the size of individual files by converting them into a PDF format.
  - Bigger presentations can be split into multiple documents.
- Links cannot be directly uploaded. We would advise to save the link in a document, which then can be uploaded.
- All uploads are linked to the web schedule and may be publicly viewed, thus giving your event visibility both before and after the session.
- Changes can be made by replacing or deleting the existing files up to four weeks after the sessions. Once the web schedule has been closed, no further changes will be possible.
- The files will remain visible on the UNFCCC website’s side events and exhibits archive, available under the following link.
Please be aware that the **track record** of side event organizers in uploading presentations and relevant documents onto their SEORS account is one of the **selection criteria** that are taken into consideration for future sessions.

**Climate Change Resources Corner (CCRC)**

Since 2016, the CCRC has been 100% paperless. On its two screens, it will feature visual electronic materials (videos, slideshows, images, etc.) about climate action by Parties and observers. No sound system is provided, so the content of your video or slideshow should be understandable without an oral narrative. The CCRC is located within the official exhibit area. Parties and observers are welcome to submit their visual electronic materials for display on the CCRC monitors.

If you wish to make use of any of the CCRC, please send an electronic copy of your materials to the Side Events and Exhibits coordination team at [see@unfccc.int](mailto:see@unfccc.int).

**Consignments**

In order to reduce the carbon footprint of the conference, and due to logistical considerations such as storage, the secretariat will not be in a position to receive shipments in excess of a cumulative total weight of **100 kg** per Party and observer organization.

The side event consignment label enabling you to ship your materials to Bonn, Germany, will be sent to all side event organizers through their respective SEORS communication log in due time.

Please refer to our website for more details.

**Technical and liaison staff on-site**

Staff from the secretariat will be present in the room for liaison with technical staff and other services if there are any issues. The liaison staff will introduce him/herself to you shortly before the beginning of the event.

Please note that supporting tasks as passing of roving microphone, bringing water to the podium and the similar are not part of the assignment of the technical and liaison staff. It is the responsibility of the side event organizer to arrange for such kind of support during the event.

**Communicating with the secretariat**

Please use the “communicate” function in the “Action” column of your SEORS account to communicate with the secretariat on any issues regarding your side event. A communication log will be kept in your personal account for your reference. Due to the high number of side events, the communication log serves as an ideal channel to keep all information in one place.

**Cancellation and re-allocation**

The **secretariat reserves the right to reschedule or cancel any side event at any time**, in the interest of the negotiating process. Changes made by the secretariat will be communicated to the lead organizer.

If for any reason you wish to cancel your event, kindly inform the secretariat through your SEORS account at your very earliest convenience so that your slot can be transferred to an applicant from our waiting list.
Conference policies

Kindly be reminded of our Conference policies, which are available via these links:

- Guidelines for the participation of NGO representatives;
- Guidelines on the use of cameras and audio/video recording devices;
- UN security guidelines.

In case of emergency

In case of any security-related or medical emergency on-site, please approach one of the security officers who will be present in the Conference venue.

Disclaimer

Participants are strongly recommended to obtain comprehensive international medical insurance and other insurances, as necessary, for the period of participation. The United Nations and the Convention secretariat disclaim all responsibility for medical, accident and travel insurance, for compensation for death or disability, for loss of or damage to personal property and for any other costs or losses that may be incurred/suffered during travel or the period of participation, both within and outside the Conference premises.

Additionally, the participants are personally responsible for the safety of any and all materials brought by them within the Conference premises. The United Nations and the Convention secretariat disclaim all liability and responsibility for the loss, destruction or theft of any such material(s).

In the interest of the security and safety of all participants and the smooth running of the sessions, the Convention secretariat reserves the right to deny and/or restrict access to the Conference premises, or to request registered participants to leave the premises. The Convention secretariat shall not be responsible for any or all expenses incurred by nominated participants who are requested to leave the premises, or refused registration or access to the sessions for which they have been nominated and/or registered as participants.
