Climate Change Kiosk

Located on the upper concourse, the Climate Change Kiosk (CCKIOSK) is staffed daily between 9 a.m. and 6 p.m. The Climate Change Kiosk's primary goal is to provide information about the climate change process and the secretariat as well as the range of secretariat publications and digital materials.

Climate Action talks A series of climate talks, on the theme of “Time for action”, will be held at the Kiosk on selected days, featuring 15-minute presentations by speakers from civil society and governments. Invited speakers will focus on adaptation, technology transfer, CDM opportunities, local and regional level initiatives, and education and outreach. The first presentations will be held today. A full list is available from the Kiosk or via the [online schedule](#).

Today at the Climate Change Kiosk

4–4.30 p.m.

Africa Youth Initiative on Climate Change (AYICC)

This presentation will spotlight and highlight the Africa Youth Initiative on Climate Change (AYICC), an initiative engineered by African youth to expand existing networks to form an African youth coalition on climate change. This coalition will connect African youth organizations and youth oriented organizations working on climate change issues. The coalition will seek to optimize climate change action by African youth and will be spearheaded by youth leaders from across Africa.

4.30–5 p.m.

Solar Generation and other Conference of Youth organizers showcasing youth action both at local and global levels

All around the world, young people are demonstrating that renewable energy and energy efficiency are working and are the right basis for real change to address climate change. By making concrete changes themselves in their local environment, they are setting an example for other people and demand politicians do the same.

Presenters: Mr. Jake Torrie (Canada) and
Ms. Laura Caniot (France)

- 5–5.30 p.m. **Climate Compass – a novel way to jump into local climate policy**
 Developed by the Climate Alliance with the support of the European Commission, "Climate Compass" is a method to assist local governments to design an immediate climate action programme. On-site advice with the help of a tool on policies and measures seeks to accelerate the political process.
 Presenter: Ms. Gotelind Alber, Consultant
 Sustainable Energy and Climate Policy, Germany
- 5.30–6 p.m. **Climate vulnerability and poverty in Africa**
 Presenter: Marion Herrero
 Consultative Group on International Agricultural Research (CGIAR)
