SUBSIDIARY BODY FOR IMPLEMENTATION

Twenty-fifth session

Nairobi, 6–14 November 2006

Agenda Item 11

Capacity-building under the Kyoto Protocol

Capacity-building under the Kyoto Protocol

Draft conclusions proposed by the Chair

Addendum

**Recommendation of the Subsidiary Body for
Implementation**

The Subsidiary Body for Implementation, at its twenty-fifth session, decided to recommend the following draft decision for adoption by the Conference of the Parties serving as the Meeting of the Parties to the Kyoto Protocol at its second session:

Draft decision -/CMP.2

Capacity-building under the Kyoto Protocol

The Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol,

Recalling the provisions relating to the capacity-building framework for developing countries contained in decisions 2/CP.7 and 29/CMP.1, and related decisions 4/CP.9, 9/CP.9, 2/CP.10, 7/CMP.1,

Recalling decisions 2/CP.7 and 2/CP.10 calling on the Conference of Parties through the Subsidiary Body for Implementation, to regularly monitor the progress of the implementation of the framework and report to the Conference of the Parties at each of its sessions,

Recalling its decision 29/CMP.1 that required the secretariat to provide reports to the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol on the efforts made to implement the framework for capacity-building,

Noting the efforts in capacity-building under the Kyoto Protocol by various Parties and organizations, and the value of sharing best practices and lessons learned at the first informal designated national authorities forum of the clean development mechanism that was convened in Bonn, Germany, in October 2006,

Recognizing that the purpose of regular monitoring should be to facilitate assessment of progress made, identification of gaps and effectiveness of the implementation of the capacity-building framework and to support the comprehensive review,

Taking note of the relevant sections of the annual report of the Executive Board of the clean development mechanism to the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol contained in document FCCC/KP/CMP/2006/4 and Add.1,

Reaffirming that the first step of the monitoring process was the establishment of the capacity-building framework, reaffirmed in decision 29/CMP.1,

Acknowledging that the implementation of the capacity-building framework is ongoing,

1. *Decides* that the following additional steps will be taken annually to regularly monitor the implementation of activities pursuant to decision 29/CMP.1:

- (a) Parties to be invited to submit information on the activities that they have undertaken pursuant to decision 29/CMP.1;
- (b) Relevant multilateral and bilateral agencies and the private sector to be invited to provide reports on their support of the implementation of the framework undertaken pursuant to decision 29/CMP.1, in accordance with national priorities and with the knowledge of relevant national authorities;
- (c) The secretariat is to produce a synthesis report on progress made in the implementation of activities pursuant to decision 29/CMP.1, drawing upon information contained in subparagraph (a) and (b) above, as well as information on activities of the Executive Board to the clean development mechanism relating to regional distribution of clean development mechanism project activities and related capacity-building;
- (d) Parties to consider the synthesis report as described in subparagraph (c) above as a basis for regular monitoring and as a contribution to the comprehensive review of the capacity-building framework;

2. *Encourages* Parties and relevant United Nations agencies and other organizations to focus on institutional and technical capacity-building activities that are specific to the clean development mechanism consistent with decision 29/CMP.1, with a view to enhancing the capacities of developing countries, in particular those regions and countries with few or no project activities;

3. *Reiterates* the request to Parties to continue with measures to assist Parties not included in Annex I to the Convention, in particular least developed countries and small island developing States, and bearing in mind the difficulties of Africa to attract clean development mechanism projects, to carry

out capacity-building activities as defined in decision 29/CMP.1, in order to facilitate their participation in the clean development mechanism;

4. *Encourages* Parties and, as appropriate, relevant international governmental organizations, non-governmental organizations, private sector organizations and others, to facilitate learning by doing and to further strengthen their efforts to support the identification, development and implementation of project activities in Parties not included in Annex I to the Convention wishing to participate in the clean development mechanism.
