Special announcements

Disruptions to circulation	Participants are advised that some disruption to circulation in The Westin Resort should be expected throughout the day in view of the high-level luncheon that will take place.
Closure of Grand Hyatt meeting rooms	Please note that the side events area of the Grand Hyatt will be closed at 10 p.m. each day.
Notice to organizers of side events at the Grand Hyatt	To solve the problem of noise interference in the side events rooms, all room walls have now been fortified with sound-proofing materials. In addition, certain rooms have headphones available for participants. However, participants attending meetings in the side events area of the Grand Hyatt are still requested to limit discussions to the large foyer outside the meeting room corridors.
Important notice to delegates	When submitting documents to the Conference Officers for distribution in Plenary I, please ensure that sufficient copies are provided (600–700 per document).
2008 Rio Conventions calendar	The annual calendar of the secretariats of the UNFCCC, the Convention on Biological Diversity and the United Nations Convention to Combat Desertification is now available (one copy per person). The calendar is distributed each day from the Reception Desk at the entrance of the BICC from 11 a.m. to 1 p.m., and again from 4 p.m. to 6 p.m.

Announcements

Computing at the conference	<ul style="list-style-type: none"> • A computer centre is available to participants from 8 a.m. to 8 p.m. on the BICC upper level (in front of Plenary II). The centre is equipped with PCs with Internet access and printing facilities. Computer support staff wearing yellow T-shirts are on location to provide assistance. • Wireless "PlugNplay HOT SPOT" access points are also available in open areas and will be available in the main meeting rooms. Signs will indicate the hot spots. • PCs, printers and wireless access points are also available to media representatives and journalists in the Media Centre. • Owing to high Internet bandwidth limitations, file size limitations have been imposed on downloads. In addition, users should save their work frequently, in order to avoid the loss of documents should there be a power interruption. • For those participants using a laptop at the conference facility: please make sure your anti-virus and personal firewall are enabled and up-to-date, and give your laptop a name so that we can help identify your laptop (or your organization) for trouble-shooting purposes. Do not leave your laptop unattended at any time.
Laptop safety	Participants and media are encouraged to take due care of their laptops. Laptop computers should not be left unattended and the use of Kensington-type locks wherever practicable is encouraged.

Using the "Free WiFi" service at the conference to access the Internet

Participants are reminded to select the legitimate conference Wireless network **PlugNplay** that is provided free of charge at all meeting locations (Laguna, BICC and the Grand Hyatt). To help keep the Internet connection stable and free of viruses, participants are urged to consider the following list of "Do's and Don'ts".

DO NOT ...

Do not use any other wireless network. Many alternative or "free" wireless networks are actually virus-infected PCs and you should not connect to them. Your identity could easily be stolen. Examples of "rouge" networks discovered here at the conference include:

- o Free Public WiFi , US Airways Free WiFi, Free Internet Access
- o HPsetup, Ozone, Tmobile, Jet Blue Hot Spot
- o Linksys, 1, UNFCCC04, UNFCCC05, UNFCCC06

DO ...

Turn off your wireless radio when you are not using it – it will conserve the life of your battery and prevent your laptop from connecting to unsafe networks;
Review the choice of wireless networks discovered by your laptop and then select the **PlugNPlay** network. This is the only approved wireless network at the conference;
Make notes of your settings before you make changes, for example before changing your outbound e-mail settings to use **smtp.telkom.net** instead of your current outbound e-mail server;
Turn off shared folders. If you join a malicious network, a hacker could easily load a malicious spyware agent to follow you even after you leave the public location.

Please note that the conference organizers cannot be held responsible for damage or loss of data resulting from the use of malicious wireless networks at the conference site.

Award-winning films **Cool Planet, Cool Youth**

The award-winning films from the NUFFGlobal Climate Change Youth Films will be screened on the CCTV system during the next few days. For more information on NUFFGlobal go to <www.nuffglobal.net>.

NUFFGlobal is a youth film programme based in Tromsø, Norway that was developed for UNEP World Environment Day celebration in Tromsø on 5 June 2007. The goodwill ambassadors for NUFFGlobal are Professor Wangari Maathai of Kenya and Mr. Albert Maysles, noted film maker from the United States.

The films screened this week in Bali are "**The Fridge**" by Lucie Stamfestová and Pavel Sobek from Prague, Czech Republic.

"**From the Camp**" by Ahmed Mashharawi from Gaza, Palestine

"**Faceless**" by Tunde Aboderin (Nigeria)

Solar taxi

Five months after a pioneering world tour from Switzerland to Bali a taxi, exclusively powered by solar energy, has arrived at the United Nations Climate Change Conference. The solar taxi is now offering participants in the conference a shuttle service from The Westin Resort within the Nusa Dua area. For a unique experience in a climate-friendly vehicle, contact Louis at <solartaxi@gmail.com>.

Shuttle service	<p>A shuttle service between the Bali International Convention Centre (BICC) and the Grand Hyatt Hotel (GH) is available to participants. The schedule will vary during the conference. Participants are therefore requested to review this information each day.</p> <p>To reach the shuttles, exit the BICC just before the connecting corridor on the ground floor to The Westin. The shuttle will traverse directly between the two points without stopping.</p> <p>Today's shuttle runs every 20–30 minutes, from 9.45 to 22.15 hours (except for a one-hour break from 11.00 to 12.00 hours).</p>
Exhibitors	<p>The sessions are attracting a large number of participants, who need space to move freely around the conference venue. Exhibitors are requested to ensure that they do not exceed their allotted space. If your back panel or counter is not needed, please let the Observer Liaison team know. You may contact Mr. Virgile Vasseur in the Observer Liaison office in the BICC.</p>
Webcasts of COP 13	<p>For the duration of the conference, all official meetings, press conferences and some side events will be available live and/or on demand, with English or floor audio streams. On-demand files will be available shortly after the close of each meeting. Please check the UNFCCC website for the date and time of webcast sessions at http://www.un.org/webcast/unfccc/. Electronic copies of statements (text) will be placed on the website, along with the video, if an electronic copy (.doc or .pdf) is sent to: webcast@un.org. Technical facilities are, unfortunately, not available to scan hard copy paper versions.</p>
Credentials	<p>Credentials of representatives, alternate representatives and advisers shall be issued either by the Head of State or Government or by the Minister for Foreign Affairs. Delegations are kindly requested to forward the corresponding letter of credentials to the secretariat in the Conference Affairs Services office, located on the right as you enter the BICC (Ms. Dianiah Trought-Dederich).</p>
Delegation nameplates	<p>Delegates are kindly requested not to remove country nameplates from the meeting rooms. The secretariat is unable to replace these at short notice and this can lead to serious disruptions at meetings.</p>
Security	<p>Participants should ensure that they wear their conference badge in full view at all times, as the security officers may request them to verify their identity. This may lead to some inconvenience at times, but it is expected that participants will understand the need for such arrangements.</p>
Lost and found items	<p>Participants are reminded not to leave personal belongings in meeting rooms. Documents left in meeting rooms and on unattended desks will be removed. The Security office, located in the corridor next to the BICC Exhibition Hall, is responsible for lost and found items.</p>
Information for participants	<p>A booklet on the facilities available at the conference venue, entitled "Information for participants" is available from the Information desk in the BICC Exhibition Hall and also on the COP 13 website.</p>
Meditation room	<p>A room for meditation and prayer is available to participants on demand. Please contact staff at the Information desk in the BICC Exhibition Hall.</p>

10 a.m.– 11.30 a.m.	<p>California’s climate change policy and clean tech innovation: solutions for China and other developing countries?</p> <p>The urgent global challenge to avoid alarming climate change implications will require multiple level partnerships and cooperation. Bottom-up collaboration in climate change initiatives at the provincial and sub-national levels could accelerate the move to climate change solutions. This will include discussion of California’s Global Warming Solutions Act (AB32) the first-ever state-wide cap on GHG emissions, California’s world leadership in cleantech innovation, growing energy security concerns and China as the new climate change superpower. In addition, the panel will examine the “export” of the West’s GHG footprint to China and other developing countries, and consider how the carbon market can contribute to solutions.</p>	California EPA, World Resources Institute, Government of China, EcoSecurities	Gianyar, GH
11.30 a.m.– 1 p.m.	<p>Energy efficiency: opportunities and challenges</p> <p>For the energy sector, the IPCC and many others have identified facility and process energy efficiency as a critical element of GHG mitigation. Analysis shows there is tremendous potential for cost-effective savings through energy efficiency programmes, targeting fuel oil, gas and electricity usage. Governments such as California’s, have set efficiency as the first resource to be tapped to meet future energy needs. This panel will present the experiences of a variety of organizations with implementing efficiency programmes, using carbon finance to encourage energy efficiency, and present lessons learned.</p>	Cool Planet Project, Bentley Prince Street, PG&E, IEA, California EPA/ARB, SGS	Gianyar, GH

UN Energy: The UN system working together to address climate change

UN Energy was established to promote system-wide collaboration within the United Nations in the area of energy and to maintain an overview of its major initiatives. Representatives of United Nations agencies will inform participants about how UN Energy plans to support the goals of the UNFCCC. The issue of bioenergy will be used as an example of this collaboration. The event will be co-chaired by Mr. K. Yumkella, Director General of UNIDO and incoming Chair of UN Energy and Mr. Z. Sha, Under Secretary-General for Economic and Social Affairs. Speakers include Mr. Han Seung-soo, Special Envoy for Climate Change of the Secretary-General, Mr. Dato' Sabri Ahmad, Chairman, Malaysian Palm Oil Board, Mr. Corrado Clini, Chairman GBEP. Other speakers include representatives from the World Bank, UNDP, FAO, and UNEP. The event, which is hosted by UNIDO on behalf of the United Nations family, takes place from 1 p.m. to 3 p.m. at the Aston Bali Hotel, Nusa Dua. Transportation is provided. Invitees: Delegations, agencies and other organizations. For further information, please contact Ms. Vivienne Caballero <vivienne.caballero@undp.org> (Tel.: 08111 985012).

Cool Energy exhibition

The United Nations Development Programme holds an exhibition at Pulau Besar, Nusa Dua from 8 to 14 December, starting at 10 a.m. each day. Workshops, seminars, demonstrations, concerts and a series of daily activities are also featured. Those interested may enter the facilities from the rear of the Grand Hyatt.

***The 11th Hour* – private film screening**

The Indonesian Ministry of Trade, Global Green USA, 11th Hour Action.com and the Leonardo DiCaprio Foundation invite participants to a private screening of Mr. DiCaprio's award-winning environmental documentary. Produced by Tree Media Group, the documentary looks at global warming, deforestation, species extinction and other global environmental challenges. The movie interviews over fifty environmental experts, calls for action and provides some of the solutions. A question and answer session with some of the experts in the film follows. The film will be screened at 6.30 p.m. at the Museum Pacifika in Nusa Dua (200 metres from The Westin Resort). A trailer is available at <<http://www.11thhourfilm.com/>>.

Release of sea turtles
