Annual status report of the greenhouse gas inventory of Slovakia

1. This status report was prepared by the expert review team in accordance with decision 22/CMP.1 as part of the initial check of the greenhouse gas inventory submitted. It reflects the content of the inventory of 2008 as submitted by the Party.

2. In this report, the following abbreviations are used:

CRF: common reporting format
LULUCF: land use, land-use change and forestry
KP-LULUCF CRF: tables for reporting activities under Article 3, paragraphs 3 and 4, of the Kyoto Protocol
NIR: national inventory report
SBDT: sectoral background data tables

Notation keys

C: confidential
IE: included elsewhere
NA: not applicable
NE: not estimated
NO: not occurring

Greenhouse gases

CO₂: carbon dioxide
CH₄: methane
N₂O: nitrous oxide
HFCs: hydrofluorocarbons
PFCs: perfluorocarbons
SF₆: sulphur hexafluoride
NO_x: nitrogen oxides
CO: carbon monoxide
NMVOCs: non-methane volatile organic compounds
SO₂: sulphur dioxide

INTRODUCTION												
General information		Date of receipt				Date of resubmission			Comments

	CRF provided for years	CRF	1990–2006			KP-LULUCF						
	Base year or period	1990				Base year for HFCs, PFCs and SF ₆ ^e				1990		
	Gases covered	CO ₂	CH ₄	N ₂ O	HFCs	PFCs	SF ₆	NO _x	CO	NMVOCs	SO ₂	
	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓		
National inventory report	Description	The organization of the NIR, in general, follows the structure as outlined in the revised UNFCCC reporting guidelines (decision 18/CP.8). However, some of the recommended annexes such as “CO ₂ reference approach and comparison with sectoral approach, and relevant information on the national energy balance” and “Assessment of completeness” are not provided. Slovakia stated, in its response to the draft status report that this information is included in chapter 1.4 and chapter 3.1.1 of the NIR.										
	Language of NIR	English										
Common reporting format	Missing source category larger than 7 per cent for Annex A sources	In the 2007 GHG inventory submission “Iron and steel – other fuels (1.A.2.a)” was identified as a source category contributing 7 per cent or more to total national GHG emissions. In the 2008 GHG inventory this source category is reported as not occurring (“NO”) for CO ₂ , CH ₄ and N ₂ O. In its response to the draft status report, Slovakia stated: The explanation is given in the NIR 2008, chapter: 3.1.1 - Energy Industry (page 33). The reallocation of the category of other fuels in the Energy sector (sectoral approach) was provided according to the recommendations of the ERT during in-country review (19-24 March 2007). The category of other fuels in the Iron and steel industry (1.A.2.a) included other gaseous secondary fuels from production and technology, such as furnace gas, coke oven gas and so on. The reallocation of the fuels does not change the total of the source category and impacts only the sum of gaseous fuel sub source for the time series.										

^a CRF refers to the common reporting format tables included in document FCCC/SBSTA/2006/9.

^b Additional information can be any information submitted by a Party in conjunction with the national inventory report (NIR) or CRF tables.

^c Parties to the Kyoto Protocol are required to report anthropogenic greenhouse gas emissions by sources and removals by sinks from land use, land-use change and forestry activities under Article 3, paragraph 3, and, if any, elected activities under Article 3, paragraph 4, using the agreed common reporting format tables (decision 6/CMP.3). The reporting of KP-LULUCF CRF tables is voluntary until the 2010 submission.

^d Parties to the Kyoto Protocol are required to include in their annual greenhouse gas inventories information on anthropogenic greenhouse gas emissions by sources and removals by sinks from land use, land-use change and forestry activities under Article 3, paragraph 3, and, if any, elected activities under Article 3, paragraph 4, in accordance with paragraphs 5–9 in the annex to decision 15/CMP.1. The reporting of this information is voluntary until the 2010 submission.

^e A Party can choose 1990 or 1995 as its base year for the fluorinated gases in accordance with Article 3, paragraph 8, of the Kyoto Protocol.

^a This column indicates that the Party uses a base year other than 1990 in accordance with decisions 9/CP.2 and 11/CP.4, and does not reflect the choice of a base year for the fluorinated gases.

^b This column indicates that reporting gaps (blank cells) have been identified in a given table of the CRF, owing to limited use, or lack of, notation keys (NO, NE, NA, IE, C).

^c Parties to the Kyoto Protocol are required to report anthropogenic greenhouse gas emissions by sources and removals by sinks from land use, land-use change and forestry activities under Article 3, paragraph 3, and, if any, elected activities under Article 3, paragraph 4, using the agreed common reporting format tables (decision 6/CMP.3). The reporting of KP-LULUCF CRF tables is voluntary until the 2010 submission.
