## ANNEX

## Updated training programme for members of expert review teams participating in annual reviews under Article 8 of the Kyoto Protocol

### A. Details of the training programme

1. The courses are intended to train members of expert review teams (ERTs) for the review of information submitted under Article 7 of the Kyoto Protocol. All training courses will be available online. For trainees without easy access to the Internet, courses will be distributed through electronic means; for courses that are facilitated by an instructor, trainees will communicate with the instructor by electronic means. At the request of a Party, the courses will also be made available for others interested in the review process, provided that this does not require additional resources. All courses will be available, without instructor, to trainees all year round.
2. All training courses will include an examination. Examination procedures will be standardized, objective and transparent.
3. New greenhouse gas (GHG) inventory review experts who successfully complete the relevant requirements of the training programme will be invited to participate in a centralized or in-country review, working alongside experienced GHG inventory review experts.
4. Experts who do not pass an examination for a course at the first attempt may retake the examination one additional time, provided that the expert has fulfilled all of the tasks assigned during the course in a timely manner, and that the retake does not require the secretariat to incur additional costs.
5. Experts with relevant expertise will be invited to act as instructors for courses of the training programme, ensuring that their skills cover the subjects addressed in each course. They will provide advice and support by e-mail or other electronic means. The secretariat will seek to achieve a geographical balance among the instructors participating in the training programme.
