Announcements

Availability of meeting rooms The demand for meeting rooms is expected to exceed the capacity of the conference premises and priority will be given to meetings directly associated with the negotiating process. The secretariat appreciates participants’ understanding in this connection. Meetings will therefore only be confirmed at the earliest one day prior to the requested meeting taking place.

Conference brochures In line with the secretariat’s efforts towards climate neutrality, the conference brochures “Information for Participants” and “Side Events and Exhibits Brochure” are available in electronic format only at: <http://unfccc.int/>. The secretariat encourages all participants to support this initiative by refraining from printing, or printing only the required information if necessary.

Use of audio/video recording devices by participants at UNFCCC sessions The making of audio and video recordings, including any external transmission, by Party or observer organization delegations during open and closed official meetings and in designated security zones is not permitted. The secretariat provides audio recordings of official meetings, as required by Parties. Webcasts are provided for open plenary meetings and press conferences.

Meditation room The Meditation Room is located on the first floor of the ATLAPA Convention Centre, behind meeting room “Panamá”.

Webcasts of the sessions For the duration of the sessions, all official meetings and press conferences will be available live and on demand, with English or floor audio streams. On-demand files will be available shortly after the close of each meeting.

Climate Change Publications Counter Publications that are clearly attributed to a Party or an admitted observer organization that is not exhibiting may be distributed and displayed at the Climate Change Publications Counter, after approval. The counter is located on the ground floor in the foyer of the ATLAPA conference center. For approval, please provide a sample to the Observer Organizations Liaison Team at the Conference Affairs Services Office. The counter cannot manage large volumes, but will assist in changing the range of documents on display. Organizers of Exhibits are requested to display and distribute documents at their own booths.
