

Framework Convention on Climate Change

Distr.: General
13 September 2011

Original: English

Conference of the Parties
Seventeenth session
Durban, 28 November to 9 December 2011

Item X of the provisional agenda

Admission of observers: organizations applying for admission as observers

Note by the secretariat

1. The admission of intergovernmental organizations (IGOs) and non-governmental organizations (NGOs) as observers at sessions of the Conference of the Parties (COP) is governed by Article 7, paragraph 6, of the Convention, which provides, inter alia, that “Any body or agency, whether national or international, governmental or non-governmental, which is qualified in matters covered by the Convention, and which has informed the secretariat of its wish to be represented at a session of the Conference of the Parties as an observer, may be so admitted unless at least one third of the Parties present object.”
2. At its first session, the COP agreed that the secretariat should invite to its future sessions, and to sessions of its subsidiary bodies, all IGOs and NGOs admitted at that session and at future sessions, unless an objection was raised to any particular organization in accordance with the Convention and the draft rules of procedure being applied.¹ Consequently, all organizations admitted to previous sessions of the COP (with the exception of those which were admitted for a single session only) have been notified of the seventeenth session of the COP by the secretariat in accordance with rule 8 of the draft rules of procedure being applied, without prejudice to decisions which may be taken by the COP. Only new applicants need to undergo the procedure for admission to the session.
3. The secretariat has prepared, for consideration by the COP, a list of new applicant IGOs and NGOs that satisfy the requirements set out in the Convention, the draft rules of procedure being applied and established practice and that have expressed a wish to be represented at sessions of the COP and its subsidiary bodies as observers (see annex).
4. In drawing up the list, the secretariat has taken due account of the provisions of Article 7, paragraph 6, of the Convention and rules 7 and 8 of the draft rules of procedure being applied, as well as of the established practice, endorsed by the Subsidiary Body for Implementation,² whereby IGOs and NGOs are required to provide proof of competence in matters related to the Convention and to confirm their independent juridical personality and

non-profit and/or tax-exempt status in a State Member of the United Nations or of one of its specialized agencies or of the International Atomic Energy Agency, or in a State party to the International Court of Justice.

5. The members of the Bureau have received the list of new applicants and have not raised any objections to the organizations listed. These organizations have been advised of their provisional admittance status on the understanding that the final authority for their admission as observers rests with the COP. The COP is invited, at the first meeting of its seventeenth session, to accord observer status to the IGOs and NGOs listed in the annex.

6. Parties to the Convention that are also Parties to the Kyoto Protocol may wish to recall that decision 36/CMP.1, paragraph 2(c), provides that with respect to rules 6 and 7 of the draft rules of procedure being applied:

(a) Organizations admitted as observers to previous sessions of the COP would be admitted to the first session of the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol (CMP);

(b) A single process would be used for the admission of observer organizations to sessions of the COP and of the CMP, with decisions on admission of observer organizations being taken by the COP.
