Draft conclusions proposed by the Chair

1. The Subsidiary Body for Implementation (SBI) noted the report by the Global Environment Facility (GEF) on the progress made in carrying out the Poznan strategic programme on technology transfer,¹ as invited by the SBI at its thirty-fourth session.²
2. The SBI noted the support provided by the GEF for the implementation of technology transfer pilot projects under the Poznan strategic programme and the views expressed by Parties on the need to balance support for mitigation and adaptation projects. The SBI invited the GEF to enhance the balance between adaptation and mitigation projects in the long-term implementation of the Poznan strategic programme, including by enhancing its outreach and awareness-raising efforts on funding opportunities for projects related to technologies for adaptation. The SBI recalled its conclusion³ at its thirty-fifth session encouraging Parties not included in Annex I to the Convention (non-Annex I Parties) to submit project proposals, particularly for technologies for adaptation, to the GEF in line with the elements of the long-term programme described in document FCCC/SBI/2011/14, annex, paragraphs 46 and 47.
3. The SBI invited the GEF and its implementing agencies to expedite the process for the implementation and completion of the remaining technology transfer pilot projects submitted in 2009 for support under the Poznan strategic programme.
4. The SBI acknowledged the support provided by the GEF to assist 36 non-Annex I Parties in conducting their technology needs assessments (TNAs). The SBI recalled decision 11/CP.17, paragraph 2, which invited the GEF, in the context of TNAs, to continue to provide financial support to other non-Annex I Parties, as appropriate, to conduct or update their TNAs.
