

## Report of the individual review of the annual submission of Liechtenstein submitted in 2012\*

### Corrigendum

#### 1. Paragraph 104

For the existing paragraph 104 *substitute*

104. Based on the information provided in table 6 for the activity deforestation, Liechtenstein shall cancel 144 AAUs, ERUs, CERs and/or RMUs.

#### 2. Table 6

For the existing table 6 *substitute*

Table 6

**Accounting quantities for activities under Article 3, paragraph 3, and, if any, activities under Article 3, paragraph 4, of the Kyoto Protocol, in t CO<sub>2</sub> eq**

	2012 submission <sup>a</sup>			2010 and 2011 submissions <sup>b</sup>	"Net" accounting quantity <sup>c</sup>
	<i>As reported</i>	<i>Revised estimates</i>	<i>Final</i>	<i>Final</i>	
Afforestation and reforestation	-9 688	-631	-631	-6 431	5 800
Deforestation	936	936	936	792	144
Forest management	NA	NA	NA	NA	NA
Article 3.3 offset <sup>d</sup>	NA	NA	NA	NA	NA
Forest management cap <sup>e</sup>	NA	NA	NA	NA	NA
Cropland management	NA	NA	NA	NA	NA
Grazing land management	NA	NA	NA	NA	NA
Revegetation	NA	NA	NA	NA	NA

*Abbreviations:* CRF = common reporting format, KP-LULUCF = land use, land-use change and forestry emissions and removals from activities under Article 3, paragraphs 3 and 4, of the Kyoto Protocol, NA = not applicable.

\* In the symbol for this document, 2012 refers to the year in which the inventory was submitted, and not to the year of publication.

<sup>a</sup> The values included under the 2012 submission are the cumulative accounting values for 2008, 2009 and 2010 as reported in the accounting table of the KP-LULUCF CRF tables for the inventory year 2010.

<sup>b</sup> The values included under the 2010 and 2011 submissions are the final accounting values as a result of the 2010 and 2011 reviews and are included in table 4 of the 2011 annual review report (FCCC/ARR/2011/LIE, page 25) in the column “2011 submission”, “Final”.

<sup>c</sup> The “net” accounting quantity is the quantity of Kyoto Protocol units that the Party shall issue or cancel under each activity under Article 3, paragraph 3, and paragraph 4, if relevant, based on the final accounting quantity in the 2011 submission and where the quantities issued or cancelled based on the 2010 review have been subtracted (“net” accounting quantity = final 2012 – final 2010 and 2011).

<sup>d</sup> Article 3.3 offset: for the first commitment period, a Party included in Annex I to the Convention that incurs a net source of emissions under the provisions of Article 3, paragraph 3, of the Kyoto Protocol may account for anthropogenic greenhouse gas emissions by sources and removals by sinks in areas under forest management under Article 3, paragraph 4, up to a level that is equal to the net source of emissions under the provisions of Article 3, paragraph 3, but not greater than 9.0 megatonnes of carbon times five, if the total anthropogenic greenhouse gas emissions by sources and removals by sinks in the managed forest since 1990 is equal to, or larger than, the net source of emissions incurred under Article 3, paragraph 3.

<sup>e</sup> In accordance with decision 16/CMP.1, annex, paragraph 11, for the first commitment period only, additions to and subtractions from the assigned amount of a Party resulting from forest management under Article 3, paragraph 4, of the Kyoto Protocol after the application of decision 16/CMP.1, annex, paragraph 10, and resulting from forest management project activities undertaken under Article 6, shall not exceed the value inscribed in the appendix of the annex to decision 16/CMP.1, times five.

---
