

Distr.: General 7 September 2016

English only

Status report of the annual inventory of Malta

- 1. This status report was prepared by the secretariat pursuant to decision 22/CMP.1 in conjunction with 4/CMP.11, as part of the initial check of Malta's annual inventory, submitted in accordance with decisions 24/CP.19, 15/CMP.1 in conjunction with 3/CMP.11 and 2/CMP.8. It reflects the content of the inventory submission of 2016 as originally submitted by the Party on 14 April 2016, and of the resubmission received on 29 July 2016.
- 2. In this report, the following abbreviations are used:

CRF: common reporting format

GHG: greenhouse gas

HWP: harvested wood products

KP-LULUCF: Article 3, paragraphs 3 and

4, activities under the Kyoto Protocol

LULUCF: land use, land-use change and

forestry

IPPU: industrial processes and product use

NIR: national inventory report

SBDT: sectoral background data tables

SEF: standard electronic format SWDS: solid waste disposal sites

Gases

CO2: carbon dioxide CH4: methane N2O: nitrous oxide

HFCs: hydrofluorocarbons PFCs: perfluorocarbons

MIX: Unspecified mix of HFCs and PFCs

SF6: sulphur hexafluoride NF3: nitrogen trifluoride NOX: nitrogen oxides CO: carbon monoxide

NMVOCs: non-methane volatile organic

compounds

SO2: sulphur dioxide

Kyoto Protocol units

AAU: assigned amount unit ERU: emission reduction unit

RMU: removal unit

CER: certified emission reduction ICER: long-term certified emission

reduction

tCER: temporary certified emission

reduction

Notation keys

C: confidential

IE: included elsewhere NA: not applicable NE: not estimated NO: not occurring

- ^a CRF tables are contained in annex II to decision 24/CP.19.
- ^b Additional information can be any information submitted by a Party in conjunction with the NIR or CRF tables.
- ^c Parties included in Annex I to the Convention undergoing the process of transition to a market economy may use a base year or a period of years other than 1990, in accordance with the provisions of Article 4, paragraph 6, of the Convention and decisions 9/CP.2 and 11/CP.4.
- d A Party may select 1990 or 1995 as the base year for HFC, PFC and SF₆ gases in accordance with Article 3, paragraph 8, of the Kyoto Protocol.
- ^e A Party may select 1990, 1995 or 2000 as the base year for NF₃ in accordance with Article 3, paragraph 8 bis of the Doha Amendment to the Kyoto Protocol.
- ^f "Revision of the UNFCCC reporting guidelines on annual inventories for Parties included in Annex I to the Convention" (decision 24/CP.19).
- ^g A Party has not reported an estimate for an Annex A source category that accounted for 7 per cent or more of the Party's aggregate emissions (decision 15/CMP.1, para. 3(b), in conjunction with decision 3/CMP.11).

^a Parties are required to include in their annual submission information on anthropogenic GHG emissions by sources and removals by sinks from LULUCF activities under Article 3, paragraph 3, of the Kyoto Protocol, and, if any, elected activities under Article 3, paragraph 4, in accordance with the decision 2/CMP.8, annex II, paragraphs 1–5.

^b Parties are required to report anthropogenic GHG emissions by sources and removals by sinks from LULUCF activities under Article 3, paragraph 3, of the Kyoto Protocol, forest management and, if any, elected activities under Article 3, paragraph 4. Parties may also elect to report these tables for the base year or 1990.

^c Parties are required to include in their annual submission information on ERUs, CERs, tCERs, ICERs, AAUs and RMUs, in accordance with decision 15/CMP.1, annex, chapter I.E, in conjunction with annex II to decision 3/CMP.11,.

^d SEF for reporting Kyoto Protocol units, as required by annex II to decision 3/CMP.11.

^e The requirements for Parties to report on changes in national systems in accordance with Article 5, paragraph 1, of the Kyoto Protocol, changes in national registries, and the minimization of adverse impacts in accordance with Article 3, paragraph 14, of the Kyoto Protocol, are set out in decision 15/CMP.1, annex, chapters I.F, I.G and I.H respectively, in conjunction with annex II to decision 3/CMP.11.

^a Parties included in Annex I to the Convention undergoing the process of transition to a market economy are allowed to use a base year or a period of years other than 1990, in accordance with the provisions of Article 4, paragraph 6, of the Convention and decisions 9/CP.2 and 11/CP.4.

^b The latest recalculated year is the submission year minus 3.

	PART IV												
	Provision of information relating to KP-LULUCF activities under Article 3, paragraphs 3 and 4												
			Provided	Observation									
		ons by sources and removals by sinks are clearly distinguished from emissions from categories ed in Annex A to the Kyoto Protocol											
	Interge	nation on how inventory methodologies have been applied taking into account the 2006 overnmental Panel on Climate Change Guidelines for National Greenhouse Gas Inventories and levant supplementary guidance recognizing the principles laid out in decision 16/CMP.1.											
1-5	Inform	ation on geographical location of the boundaries of areas that encompass:											
graphs		Units of land subject to activities under Article 3, paragraph 3											
annex II, paragraphs		Units of land subject to activities under Article 3, paragraph 3, which would otherwise be included in land subject to forest management or elected activities under Article 3, paragraph 4											
		Land subject to forest management or elected activities under Article 3, paragraph 4											
1 2/CMP.8,		nation on the spatial assessment unit for determining the area of accounting for afforestation, station and deforestation											
requirements under decision	Article	nation on GHG emissions/removals resulting from activities under Article 3, paragraph 3, and 3, paragraph 4, for all geographical locations reported in the current and previous years since the ing of the commitment period or the onset of the activity, whichever comes later.											
irements u		ation on carbon pools (above-ground/below-ground biomass, litter, dead wood and soil organic) that are not accounted for.											
Reporting requ	emissi	a Party applies the provisions for natural disturbances, information demonstrating that these ons in any single year exceed the background level(s), including a margin, when needed. For this is the Party shall include information showing:											
Re		That all lands subject to exclusion due to natural disturbances are identified											
		How annual emissions resulting from natural disturbances and the subsequent removals are estimated and excluded from accounting											
		That no land-use change has occurred on lands for which the provisions in decision 2/CMP.7, annex, paragraph 33, are applied											

PART IV											
Provision of information relating to KP-LULUCF activities under Article 3, paragraphs 3 and 4 (continued)											
Provided Observation											
	That events and circumstances were beyond the control of the Party										
	The efforts taken to rehabilitate the land for which the provisions contained in decision 2/CMP.7, annex, paragraph 33, are applied										
	That emissions associated with salvage logging were not excluded from accounting										
	accounted for by instantaneous oxidation, information on GHG emissions/removals resulting from as in the HWP pool accounted for in accordance with decision 2/CMP.7, including:										
	Activity data for the HWP categories used for estimating the pool removed from domestic forests, for domestic consumption and for export										
	Half-lives used in estimating emissions/removals for the HWP categories used										
	Whether emissions from HWP originating from forests prior to the start of the second commitment period have been included in the accounting, if the forest management reference level is based on a projection										
	How emissions from the HWP pool accounted for in the first commitment period on the basis of instantaneous oxidation have been excluded from the accounting for the second commitment period										
	How the HWP resulting from deforestation have been accounted on the basis of instantaneous oxidation										
	How CO2 emissions from HWP in SWDS and from wood harvested for energy purposes have been accounted on the basis of instantaneous oxidation										
	How emissions/removals from changes in the HWP pool accounted for do not include imported harvested wood products										
	ation on anthropogenic GHGs from LULUCF activities under Article 3, paragraph 3, and Article graph 4, factoring out removals from:										
	Elevated CO ₂ concentrations above pre-industrial levels										
	Indirect nitrogen deposition										

PART IV										
Provision of information relating to KP-LULUCF activities under Article 3, paragraphs 3 and 4 (continued)										
		Provided	Observation							
	The dynamic effects of age structure resulting from activities prior to 1 January 1990									
Specif	ic information to be reported for activities under Article 3, paragraph. 3:									
	Activities under Article 3, paragraph 3, that began on or after 1 January 1990 and before 31 December of the last year of the commitment period, and are directly human-induced									
	How harvesting or forest disturbance that is followed by the re-establishment of forest is distinguished from deforestation									
Specif	ic information to be reported for activities under Article 3, paragraph 4:									
	Activities under Article 3.4 that occurred since 1 January 1990 and are human induced									
	Cropland management, grazing land management, revegetation, wetland drainage and rewetting: emissions/removals reported for each year of the commitment period and for the base year for each of the elected activities on the geographical locations reported									
	Emissions/removals from activities under Article 3, paragraph 4, are not accounted for under activities under Article 3, paragraph 3									
	Information on how emissions arising from the conversion of natural forests to planted forests are accounted for									
	Methodological consistency between the reference level and reporting for forest management									
	Technical corrections made pursuant to decision 2/CMP.7, annex, paragraph 14									
	Forest management: if emissions/removals from the harvest and conversion of forest plantations to non-forest land were included, information how requirements set out in decision 2/CMP.7, annex, paragraphs 37–39 were met, including:									
	The identification of all lands and associated carbon pools subject to decision 2/CMP.7, annex, paragraph 37, including the georeferenced location and year of conversion									
	A demonstration that the forest plantation was first established through direct human-induced planting and/or seeding of non-forest land before 1 January 1990, and, if the forest plantation was re-established, that this last occurred on forest land through direct human-induced planting and/or seeding after 1 January 1960									

PART IV										
Provision of information relating to KP-LULUCF activities under Article 3, paragraphs 3 and 4 (continued)										
	Provided	Observation								
A demonstration that a new forest of at least equivalent area to the harvested forest plantation is established through direct human-induced planting and/or seeding of nonforested land that did not contain forest on 31 December 1989										
A demonstration that this newly established forest will reach at least the equivalent carbon stock that was contained in the harvested forest plantation at the time of harvest, within the normal harvesting cycle of the harvested forest plantation, and, if not, a debit would be generated under Article 3, paragraph 4
