PART IV						
	Provision of information relating to KP-LULUCF activities under Article 3, paragraphs 3 and 4 (continued)					
		Provided	Observation			
	The identification of all lands and associated carbon pools subject to decision 2/CMP.7, annex, paragraph 37, including the georeferenced location and year of conversion	~	Not applicable to Norway			
	A demonstration that the forest plantation was first established through direct human- induced planting and/or seeding of non-forest land before 1 January 1990, and, if the forest plantation was re-established, that this last occurred on forest land through direct human-induced planting and/or seeding after 1 January 1960	~	Not applicable to Norway			
	A demonstration that a new forest of at least equivalent area to the harvested forest plantation is established through direct human-induced planting and/or seeding of non-forested land that did not contain forest on 31 December 1989	 ✓ 	Not applicable to Norway			
	A demonstration that this newly established forest will reach at least the equivalent carbon stock that was contained in the harvested forest plantation at the time of harvest, within the normal harvesting cycle of the harvested forest plantation, and, if not, a debit would be generated under Article 3, paragraph 4	~	Not applicable to Norway
