## Publications

### UNFCCC 10th anniversary publication

To mark the tenth anniversary of the entry into force of the United Nations Framework Convention on Climate Change, the secretariat has published a special book: “The First Ten Years”. This publication provides an overview of actions taken during the past decade to combat climate change and mitigate its adverse effects. It looks at recent emissions trends and prospects, and considers how concern about climate change fits in with strategies for sustainable development.

Colourful graphs, charts and photographs accompany the text.

Copies of “The First Ten Years” are available from the Climate Change Kiosk following the close of the opening meeting. The publication can also be downloaded from the UNFCCC web site: [unfccc.int](http://unfccc.int).
