

# The AEF – Holdings – Authorized Entities – SOP/OMGE

AOSIS

Workshop on Article 6

Session 8

### **Question 3: Should SOP and OMGE aggregated information be reported in the AEF? If so, what information?**

- YES – SOP and OMGE aggregated information needs to be reported
- This will help identify and thank Parties and “stakeholders” / cooperative approaches that have responded to the strong encouragement to contribute resources for SOP and OMGE
- Also this information needs to be reported in BTRs, and countries are to be supported in reporting – so pre-filling is helpful and needed, drawing on other tables.
- Information needs to be aggregated across 6.4 and 6.2
- And so split, showing SOP and OMGE from 6.4, and then SOP and OMGE from 6.2
- AEF to capture
  - Which cooperative approaches have contributed (6.4, plus others), using the common nomenclature
  - What quantity of cancellations toward OMGE during the year
  - What quantity of ITMOs setn to the AF for the share of proceeds during the year
  - Because both units and monetary contributions can be made for SOP, table to indicate these.

# Decision 3/CMA.3, paras 8 and 9 require this data

---

8. *Requests* the Supervisory Body to evaluate the implementation of the share of proceeds set out in chapter VII of the annex (Levy of share of proceeds for adaptation and administrative expenses) no later than in 2026 and every five years thereafter and, following such review, to make recommendations on possible improvements in order to optimize the resources available to the Adaptation Fund for consideration and adoption by the Conference of the Parties serving as the meeting of the Parties to the Paris Agreement;

9. *Also requests* the Supervisory Body to evaluate the implementation and the delivery of overall mitigation in global emissions set out in chapter VIII of the annex (Delivering overall mitigation in global emissions), including the percentage applied, no later than in 2026 and every five years thereafter and, following such review, to make recommendations on possible improvements in order to optimize the delivery of overall mitigation in global emissions, for consideration and adoption by the Conference of the Parties serving as the meeting of the Parties to the Paris Agreement;
