

## TEC 10 outcomes

- TEC 10 requested the task force on enabling environments and barriers to:
  - a) Prepare a TEC Brief on national systems of innovation and share final draft with TEC in September/October 2015
  - b) Prepare draft key messages for COP 21 on enabling environments and barriers for TEC's consideration at its final meeting in 2015

## Intersessional work since TEC 10

### a) Prepare TEC Brief

1.Task force invited key organizations to share information/data on the state-of-play of national systems of innovation. Inputs were received from:

- The Global Innovation Index (Cornell University, INSEAD and WIPO)
- IEA
- IRENA
- OECD

These inputs may be downloaded here: <https://goo.gl/MDeeCH>

2.The task force is now providing comments and working on the first draft of TEC Brief

## Intersessional work since TEC 10

a) Prepare TEC Brief (cont.)

Outline (as agreed at TEC 10):

Title: *Strengthening national technology innovation to enhance action on climate change*

1. Introduction
2. A shared understanding
  - This section will provide a state-of-play of NSI, building on inputs from organizations
3. Strengthening key elements of a national system of innovation
  - Key elements: Institutional context, actors and linkages
4. Possible actions by key stakeholders
5. Possible actions by the Technology Mechanism
6. Key messages of TEC
7. Conclusions

## Further intersessional work until TEC 11

### a) Prepare TEC Brief

Process for finalizing TEC brief:

- June – task force working on first draft
- 8 July – task force to begin working on second draft
- 3 August – task force to work on final draft and share with TEC

### b) Prepare draft key messages for COP 21 on enabling environments and barriers

- Task force will prepare these in July/August, for TEC 11 consideration
