

Technology Executive Committee

08 March 2022

Twenty-fourth meeting

22-25 March and 28 March 2022 (TEC-CTCN Joint session)

Provisional agenda for TEC-CTCN joint session

Pursuant to guidance from COP24 and decision 8/CMA.2, the TEC and CTCN agreed in 2020 the activities to be undertaken jointly by both bodies between 2021-2022, namely on technology and NDC and technology and gender. The joint activities were included in the 2020 joint annual report of the TEC and the CTCN. Subsequently, the TEC and CTCN started implementing the joint activities in 2021 and reported the status of implementation in their joint annual report for 2021. COP26 invited both bodies to strengthen their collaboration and the provision of feedback between them with a view to coherence and synergy and effective implementation of the mandates of the Technology Mechanism, inter alia by exploring the preparation of a joint programme.¹

This joint session aims to provide an opportunity to:

- Share up-to-date information from both bodies' activities;
- Take stock of progress of and provide guidance for the implementation of existing joint activities;
- Explore further synergies and joint activities between the two bodies.
