

Outcome of TEC 23

13 September 2021 (TEC-CTCN Joint session)

Stephen Minas, TEC Chair

TEC 23 started its work Tuesday last week

Progress was made in several areas of TEC rolling workplan:

INNOVATION

- Key messages and recommendations **for COP 26 and CMA 3** on **international collaborative research, development and demonstration**;
- Technical paper on **emerging climate technologies in the energy supply sector** (to be finalized and published in Q4 2021);
- Initial concept of compilation of good practices and lessons learned in **setting up and implementing National Innovation systems** (to be produced in 2022);
- Update on Technology Day on Innovative approaches for adaptation technologies. Next session on **oceans and coastal technologies** in **October 2021**.

Progress was made in several areas of TEC rolling workplan:

IMPLEMENTATION

- Key messages and recommendations **for COP 26 and CMA 3** on **innovative approaches to stimulate the uptake of innovative climate technologies**;
- Technical paper on **linkages between Technology Needs Assessment process and Nationally Determined Contribution process** (to be finalized and published in Q4 2021);

ENABLING ENVIRONMENT AND CAPACITY-BUILDING

- Key messages and recommendations **for COP 26 and CMA 3** on **enabling environment to promote endogenous capacities and technologies**;
- Technical paper on **enabling environments and challenges to technology development and transfer identified in TNAs, NDCs and CTCN technical assistance** (to be finalized and published in Q4 2021);

SUPPORT

- Inputs to the Standing Committee on Finance on draft guidance for the operating entities of the Financial Mechanism (to be shared with SCF after TEC 23);
- Initiated preparation of a **technical paper on ‘Experiences, lessons learned and good practices from GCF and GEF’s support for technology’** (to be finalized at TEC 24).

GENDER MAINSTREAMING

- Achieved **50/50 gender representation** in panels of TEC events in 2021;
- TEC task forces showed greater attention to gender issues in the implementation of their activities
- TEC welcomed invitation of the secretariat’s Gender Team to co-organized, together with CTCN, an event on gender & technology in Glasgow
- The TEC gender focal point will submit to TEC 24 ideas for the development of a paper on gender & technology as well as on methodologies for gender mainstreaming, possibly in collaboration with CTCN

TEC 23 also considered the **following**:

- **Input to the Global Stocktake under the Paris Agreement:** TEC agreed on scope and sources of its inputs for preparing its synthesis report for the GST (**synthesis report to be considered at TEC 24**);
- **Monitoring and evaluation (M&E) of the impacts of the work of the TEC:** the TEC took note of the current M&E status of its work.

TEC 24 tentatively scheduled in the week of **22-25 March 2022**

Thank you!
